Hegels Concept Of Marriage And Family The Origin Of Subective Freedom:

Hegel's Concept of Marriage and Family Rudolf J. Siebert,1987 **Modern Freedom** Adriaan T Peperzak,2001-11-30 This book the result of 40 years of Hegel research gives an integral interpretation of G W F Hegel s mature practical philosophy as contained in his textbook *Grundlinien der Philosophie des Rechts* published in 1820 and the courses he gave on the same subject between 1817 and 1830 **Feminist Interpretations of G. W. F. Hegel** Patricia Jagentowicz Mills,2010-11-01 **Hegel and the Logical Structure of Love** Toula Nicolacopoulos,George Vassilacopoulos,2010 This study presents an original interpretation of the meaning and complex inter relationship of the concepts of love sexuality family and the law It argues that they should be understood as forms of interplay between the subjective and the objective necessity and contingency and unity and difference A comprehensive elaboration of these forms is to be found in Hegel s *Science of Logic* the conclusions of which he used to organise his ethical and political thought The argument is introduced with a discussion of the relevance of Hegel s speculative philosophy to modernity The authors then explore the relationship between thought being and recognition in Hegel s philosophical system and offer an interpretation of the *Science of Logic* This interpretation forms the basis of a re assessment of Hegel s treatment of love sexual relationships the family and law A Hegelian account of familial love is employed to review recent debates within a range of discourses including feminism family law and gay and lesbian studies As well as addressing current concerns about sexual difference and the ontology of homosexuality the study provides a guide to reading Hegel in an original and productive way It will be of interest to philosophers feminists theorists of sexualities ethical and legal theorists *A Philosophical History of Rights* Gary Herbert,2017-10-24 Since the seventeenth century concern in the Western world for the welfare of the individual has been articulated philosophically most often as a concern for his rights The modern conception of individual rights resulted from abandonment of ancient value laced ideas of nature and their replacement by the modern mathematically transparent idea of nature that has room only for individuals often in conflict In *A Philosophical History of Rights* Gary B Herbert traces the historical evolution of the concept and the transformation of the problems through which the concept is defined The volume examines the early history of rights as they existed in ancient Greece and locates the first philosophical inquiry into the nature of rights in Platonic and Aristotelian accounts He traces Roman jurisprudence to the advent of Christianity to the divine right of kings Herbert follows the historical evolution of modern subjective rights the attempts by Locke Rousseau Kant Fichte and Hegel to mediate rights to make them sociable He then turns to nineteenth century condemnation of rights in the theories of the historical school of law Benthamite utilitarianism and Marxist socialism Following World War II a newly revived language of rights had to be constructed to express universal moral outrage over what came to be called crimes against humanity The contemporary Western concern for rights is today a concern for the individual and a recognition of the limits beyond which a society must not go in sacrificing the individual s welfare for its own conception of the common good In

his conclusion Herbert addresses the postmodern critique of rights as a form of moral imperialism legitimizing relations of dominance and subjection In addition to his historical analysis of the evolution of theories of rights Herbert exposes the philosophical confusions that arise when we exchange one concept of rights for another and continue to cite historical antecedents for contemporary attitudes that are in fact their philosophical antithesis A Philosophical History of Rights will be of interest to philosophers historians and political scientists

Marriage Discourses Jowan A. Mohammed, Frank Jacob,2021-11-22 Marriage was historically not only a romantic ideal but a tool of exploitation of women in many regards Women were often considered commodities and marriage was far away from the romantic stereotypes people relate to it today While marriages served as diplomatic tools or means of political legitimization in the past the discourses about marital relationships changed and women expressed their demands more

openly Discourses about marriage in history and literature naturally became more and more heated especially during the long 19th century when marriages were contested by social reformers or political radicals male and female alike The present volume provides a discussion of the role of marriage and the discourses about in different chronological and geographical contexts and shows which arguments played an important role for the demand for more equality in marital relationships It focuses on marriage discourses may they have been legal or rather socio political ones In addition the disputes about marriage in literary works of the 19th and 20th centuries are presented to complement the historical debates Manifesto of the Critical Theory of Society and Religion (3 Vols.) Becoming Two in Love Roland J. De Vries,2013-07-25 This book draws Soren Kierkegaard and Luce Irigaray into conversation on the nature and ethics of sexual difference While these two initially seem like doubtful dialogue partners the conversation between them yields a rich and compelling account of intersubjectivity between man and woman an account that moves beyond the limited and tired debate over egalitarianism vs complementarianism Through engagement with Irigaray and Kierkegaard this book develops a constructive theological ethics of sexual difference that focuses on an epistemological and subjective gap that sets man and woman at a decisive distance from each other They are a mystery to each other Yet it is also an ethical framework that allows woman and man to encounter one another in ways that respect the independence subjectivity and becoming of each Above all this is a theological ethics of sexual difference that centers on Jesus Christ who is defined as the middle term in every relationship and whose love command defines the encounter between man and woman in difference *Hegel* David Lamb,1998 **Modern Individuality in Hegel's Practical Philosophy** Erzsébet Rózsa,2012-10-19 In *Modern Individuality in Hegel's Practical Philosophy* Erzsébet Rózsa aims to reconstruct Hegel's theory of individuality in the light of his idea of modernity Modern individuality is one of the central topics of Hegel's practical philosophy discussed systematically in the forms of subjectivity in subjective objective and practical spirit Hegel interpreted modern existence and lifeworld in the context of law politics economy and private life Infinite subjective freedom is the historical principle of the modern age as well as the basic determination of modern individual forms of existence and knowledge Modern form of life and mentality based on the values and practical actions of self knowledge and self determination is an achievement of historical significance This radical turn however gives a new perspective to the problem of good life the normative role of substantial values is overshadowed by the stabilizing function of the objective order of institutions **Hegel on the Proofs and the Personhood of God** Robert R. Williams,2017-01-19 Hegel's analysis of his culture identifies nihilistic tendencies in modernity i e the death of God and end of philosophy Philosophy and religion have both become hollowed out to such an extent that traditional disputes between faith and reason become impossible because

neither any longer possesses any content about which there could be any dispute this is nihilism Hegel responds to this situation with a renewal of the ontological argument Logic and ontotheology which takes the form of philosophical trinitarianism Hegel on the Proofs and the Personhood of God examines Hegel's recasting of the theological proofs as the elevation of spirit to God and defense of their content against the criticisms of Kant and Jacobi It also considers the issue of divine personhood in the Logic and Philosophy of Religion This issue reflects Hegel's antiformalism that seeks to win back determinate content for truth Logic and the concept of God While the personhood of God was the issue that divided the Hegelian school into left wing and right wing factions both sides fail as interpretations The center Hegelian view is both virtually unknown and the most faithful to Hegel's project What ties the two parts of the book together Hegel's philosophical trinitarianism or identity as unity in and through difference Logic and his theological trinitarianism or incarnation trinity reconciliation and community Philosophy of Religion is Hegel's Logic of the Concept Hegel's metaphysical view of personhood is identified with the singularity *Einzelheit* of the concept This includes as its speculative nucleus the concept of the true infinite the unity in difference of infinite finite thought and being divine human unity incarnation and trinity God as spirit in his community

[A History of Hegelianism in Golden Age Denmark, Tome III](#) Jon Stewart, 2025-03-28 This is the third volume of a three volume work dedicated to exploring the influence of G W F Hegel's philosophical thinking in Golden Age Denmark The work demonstrates that the largely overlooked tradition of Danish Hegelianism played a profound and indeed constitutive role in many spheres of the Golden Age culture This third tome covers the most exciting and dynamic time in the Danish Hegel reception from 1842 to 1855 This heterogeneous period saw the emergence of several new figures many of whom were associated with the left Hegelian school This period is best known for the publication of the pseudonymous works of Søren Kierkegaard The present tome places these famous works in the context of other contemporary Danish discussions about Hegel's philosophy It shows that many of Kierkegaard's criticisms had been raised by other Danish thinkers before him and that a large part of his polemical campaign was aimed at the leading figures of the previous periods of the Danish Hegel reception namely Johan Ludvig Heiberg and Hans Martensen
