

The background of the slide is a photograph of a dense forest with tall, thin trees. A thick layer of white fog or mist fills the air, obscuring the lower parts of the trees and the ground. The lighting is soft and diffused, creating a serene and somewhat mysterious atmosphere. The colors are muted greens, greys, and whites.

## **Heidegger And Asian Thought:**

Heidegger and Asian Thought Graham Parkes, 1987-09-01 In 12 excellent essays by scholars East and West this collection explores the many dimensions of Heidegger's relation to Eastern thinking. Because of the quality of the contributions the eminence of the many contributors this volume must be considered an indispensable reference on the subject. Highly recommended. Choice

**Heidegger and Asian Thought** Graham Parkes, 2010-07-01 In the current resurgence of interest in Heidegger an important aspect of his thought has been neglected namely his long standing interest in Asian philosophy. *Heidegger and Asian Thought* is the first book devoted to exploring this fascinating topic. It brings together essays by twelve scholars from India, China, Japan, Germany and the United States, most of which were written especially for this volume. The essays discuss Heidegger's thinking in relation to Vedanta, Taoism, Zen and Tibetan Buddhist philosophy. Heidegger's acquaintance with Asian thought beginning from his familiarity with the Chuang tzu as early as 1930 is fully documented including an account of his work on a partial translation of the Tao Te Ching into German. This book will be of interest not only to Heidegger scholars but also to students of Asian and comparative philosophy and religion.

**Heidegger's Hidden Sources** Reinhard May, 2005-08-02 Heidegger's Hidden Sources documents for the first time Heidegger's remarkable debt to East Asian philosophy. In this groundbreaking study Reinhard May shows conclusively that Martin Heidegger borrowed some of the major ideas of his philosophy on occasion almost word for word from German translations of Chinese Daoist and Zen Buddhist classics. The discovery of this astonishing appropriation of non-Western sources will have important consequences for future interpretations of Heidegger's work. Moreover it shows Heidegger as a pioneer of comparative philosophy and transcultural thinking.

*Heidegger on Eastern/Asian Thought* Lin Ma, 2024-06-30 This Element elucidates the metamorphoses of Heidegger's comportment toward Eastern Asian thought from the 1910s to the 1960s. With a view to the many meanings of the East at play in Heidegger's thinking it considers how his diversified dialogues with the East are embedded in different phases of his *Denkweg*. Various themes unexplored previously are examined: Heidegger's early treatment of near Eastern traditions and Islamic philosophy; his views on alien cultures, the primitive *Dasein* and the mythical *Dasein*; and his meditation on Russianism's deeply rooted spirituality and its recuperative possibilities for the West. Finally this Element reveals how Heidegger opened the promise of a dialogue with the East and yet stepped back from the threshold and how his move from the Occidental line of philosophizing toward the Oriental line is integral to his shift from the guiding question of Being to the abyssal question of *Beyng*.

*Heidegger on East-West Dialogue* Lin Ma, 2007-12-12 This book traces a most obscure and yet most intriguing theme concealed in Heidegger's thinking and work which has hitherto not yet been made the focus of a thorough and sustained investigation: that is the emergence and course of Heidegger's interest in East Asian thought and of his reflection on East-West dialogue. Lin Ma covers such complex issues as Heidegger's thoughts on language, Being, technology, the other, beginning and the journey abroad with a view to their implications for East-West

dialogue It reveals the significance of his remarks on the early Greek s confrontation with the Asiatic and presents contextualized interpretations of his fleeting references to the topic of East West dialogue and of his encounter with the Daodejing Finally it delves into A dialogue on language and exposes the strains and tensions that accompany Heidegger s extension of dialogue and the Same the two notions central to his thought to the question of East West dialogue In the end Lin Ma concludes that Heidegger s fundamental concerns and philosophical orientations as articulated in terms of the history of Being and the other beginning have restricted him from engaging more seriously with the irresolvable and yet enduring issue of East West dialogue

Daoist Resonances in Heidegger David Chai,2022-05-05 East Asian imagery resonates throughout Martin Heidegger s writings In this exploration of the connections between Daoism and his thought an international team of scholars consider why the Daodejing and Zhuangzi were texts he returned to repeatedly and the extent Heidegger adhered to Daoism s core doctrines They discuss how Daoist thought provided him with a new perspective equipping him with images concepts and meanings that enabled him to continue his questioning of the nature of being Exploring the environment language death temporality aesthetics and race from the groundlessness of non being oneness and the Way they illustrate how these themes reverberate with ontological spiritual and epistemological potential A lesson in the art of Daoist and cross cultural ways of thinking this collection marks the first sustained analysis of the influence of classical Daoism on a major 20th century German philosopher

*A Guide to Asian Philosophy Classics* Puqun Li,2012-07-19 This book guides readers through ten classic works of Asian philosophy Several major schools of Eastern thought are discussed including Hinduism Buddhism Confucianism Daoism Taoism and Chan Zen The author connects the ideas of these schools to those of Western philosophy thereby making the material accessible to people who are unfamiliar with the cultures and intellectual traditions of Asia A wide range of important topics are addressed reality time self knowledge ethics human nature enlightenment and death

**Faith and Reason in Continental and Japanese Philosophy** Takeshi Morisato,2019-05-02 This book brings together the work of two significant figures in contemporary philosophy By considering the work of Tanabe Hajime the Japanese philosopher of the Kyoto School and William Desmond the contemporary Irish philosopher Takeshi Morisato offers a clear presentation of contemporary comparative solutions to the problems of the philosophy of religion Importantly this is the first book length English language study of Tanabe Hajime s philosophy of religion that consults the original Japanese texts Considering the examples of Christianity and Buddhism Faith and Reason in Continental and Japanese Philosophy focuses on finding the solution to the problem of philosophy of religion through comparative examinations of Tanabe s metanoetics and Desmond s metaxology It aims to conclude that these contemporary thinkers while they draw their inspiration from the different religious traditions of Christianity and Mahayana Buddhism successfully reconfigure the relation of faith and reason Faith and Reason in Continental and Japanese Philosophy marks an important intervention into comparative philosophy by bringing into dialogue these thinkers both major figures

within their respective traditions yet rarely discussed in tandem      *Chinese and Buddhist Philosophy in Early Twentieth-Century German Thought* Eric S. Nelson, 2017-08-24 Presenting a comprehensive portrayal of the reading of Chinese and Buddhist philosophy in early twentieth century German thought Chinese and Buddhist Philosophy in Early Twentieth Century German Thought examines the implications of these readings for contemporary issues in comparative and intercultural philosophy Through a series of case studies from the late 19th century and early 20th century Eric Nelson focuses on the reception and uses of Confucianism Daoism and Buddhism in German philosophy covering figures as diverse as Buber Heidegger and Misch He argues that the growing intertextuality between traditions cannot be appropriately interpreted through notions of exclusive identities closed horizons or unitary traditions Providing an account of the context motivations and hermeneutical strategies of early twentieth century European thinkers interpretation of Asian philosophy Nelson also throws new light on the question of the relation between Heidegger and Asian philosophy Reflecting the growing interest in the possibility of intercultural and global philosophy Chinese and Buddhist Philosophy in Early Twentieth Century German Thought opens up the possibility of a more inclusive intercultural conception of philosophy      **Death and Philosophy** J. E. Malpas, Jeff Malpas, Robert C. Solomon, 1998 Death and Philosophy brings a rich and diverse array of philosophical literary and aesthetic perspectives to bear on the theme of death      **Encyclopedia of Asian Philosophy** Oliver Leaman, 2006-10-19 Incorporating cultural and religious contexts this unique Encyclopedia provides a vital guide to the main concepts and thinkers in Asian philosophy starting with Abhidharma and ending with Zurvan The main philosophical trends and thinkers in each geographical area are featured with an emphasis on contemporary developments and movements The A Z structured encyclopedia emphasizes that Asian philosophy is not merely an ancient form of thought but that it is a living philosophy with roots in the past and also a potent and animate presence today This translates into the reciprocal exchange of theories between Eastern and Western thinking for example of new schools of thought such as orientalism Requiring no prior knowledge of philosophy religion or Asian cultures this book is essential reading for students teachers and the interested individual who wishes to gain an understanding of the philosophical basis to Asian cultural systems      *Dao and Sign in History* Daniel Fried, 2018-10-29 From its earliest origins in the Dao De Jing Daoism has been known as a movement that is skeptical of the ability of language to fully express the truth While many scholars have compared the earliest works of Daoism to language skeptical movements in twentieth century European philosophy and have debated to what degree early Daoism does or does not resemble these recent movements Daniel Fried breaks new ground by examining a much broader array of Daoist materials from ancient and medieval China and showing how these works influenced ideas about language in medieval religion literature and politics Through an extended comparison with a broad sample of European philosophical works the book explores how ideas about language grow out of a given historical moment and advances a larger argument about how philosophical and religious ideas cannot be divided into content and context

*Beyond Orientalism* Fred Dallmayr, 1996-12-12 *Beyond Orientalism* explores the confluence of contemporary Western especially Continental philosophy with its focus on otherness and difference and the ongoing process of globalization or the emergence of the global village The basic question raised in the book is What will be the prevailing life form or discourse of the global village Will it be the discourse of Western science industry and metaphysics which under the banner of modernization and development seeks to homogenize the world in its image In Said's work this strategy was labeled Orientalism Or will it be possible to move beyond Orientalism in the direction neither of global uniformity nor radical fragmentation After discussing the broad range of possible modes of cross cultural encounter in a historical perspective the book develops as a preferred option the notion of a deconstructive dialogue or a hermeneutics of difference which respects otherness beyond assimilation This hermeneutics is illustrated in chapters examining several bridge builders between cultures primarily the Indian philosophers Radhakrishnan and J L Mehta and the Indologist Halbfass The remaining chapters are devoted to more concrete social political problems including issues of modernization multiculturalism and the prospects of a globalized democracy which bids farewell to Orientalism and Eurocentrism

*Buddhism and Postmodernity* Jin Y. Park, 2010-10-28 *Buddhism and Postmodernity* is a response to some of the questions that have emerged in the process of Buddhism's encounters with modernity and the West Jin Y Park broadly outlines these questions as follows first why are the interpretations and evaluations of Buddhism so different in Europe in the nineteenth century in the United States in the twentieth century and in traditional Asia second why does Zen Buddhism which offers a radically egalitarian vision maintain a strongly authoritarian leadership and third what ethical paradigm can be drawn from the Buddhist postmodern form of philosophy Park argues that as unrelated as these questions may seem the issues that have generated them are related to perennial philosophical themes of identity institutional power and ethics respectively Each of these themes constitutes one section of *Buddhism and Postmodernity* Park discusses the three issues in the book through the exploration of the Buddhist concepts of self and others language and thinking and universality and particularities Most of this discussion is drawn from the East Asian Buddhist traditions of Zen and Huayan Buddhism in connection with the Continental philosophies of postmodernism hermeneutics and deconstruction Self critical from both the Buddhist and Western philosophical perspectives

Buddhism and Postmodernity points the reader toward a new understanding of Buddhist philosophy and offers a Buddhist postmodern ethical paradigm that challenges normative ethics of metaphysical traditions *Defending Japan's Pacific War* David Williams, 2004-10-28 This book puts forward a revisionist view of Japanese wartime thinking It seeks to explore why Japanese intellectuals historians and philosophers of the time insisted that Japan had to turn its back on the West and attack the United States and the British Empire Based on a close reading of the texts written by members of the highly influential Kyoto School and revisiting the dialogue between the Kyoto School and the German philosopher Heidegger it argues that the work of Kyoto thinkers cannot be dismissed as mere fascist propaganda and that this work in which race is a key theme constitutes a reasoned case for a post White world The author also argues that this theme is increasingly relevant at present as demographic changes are set to transform the political and social landscape of North America and Western Europe over the next fifty years *Philosophy East / West* Oren Ergas, Sharon Todd, 2016-01-26 Philosophy East West showcases new scholarship in the philosophy of education and contemplative studies paying particular attention to the intersection of mindfulness evidence based science and wisdom traditions Moves beyond simplistic explanations of Eastern and Western to explore the complexity and diversity of various wisdom traditions Investigates the effect of mindfulness based curricular interventions on current educational theory and practice Uses insights from important Western philosophers including Heidegger Levinas and Foucault to situate contemplative practice within contemporary educational theory Emphasizes the importance of transcultural and intercultural approaches in the philosophy of education **Asian Perspectives on Animal Ethics** Neil Dalal, Chloë Taylor, 2014-04-16 To date philosophical discussions of animal ethics and Critical Animal Studies have been dominated by Western perspectives and Western thinkers This book makes a novel contribution to animal ethics in showing the range and richness of ideas offered to these fields by diverse Asian traditions Asian Perspectives on Animal Ethics is the first of its kind to include the intersection of Asian and European traditions with respect to human and nonhuman relations Presenting a series of studies focusing on specific Asian traditions as well as studies that put those traditions in dialogue with Western thinkers this book looks at Asian philosophical doctrines concerning compassion and nonviolence as these apply to nonhuman animals as well as the moral rights and status of nonhuman animals in Asian traditions Using Asian perspectives to explore ontological ethical and political questions contributors analyze humanism and post humanism in Asian and comparative traditions and offer insight into the special ethical relations between humans and other particular species of animals This book will be of interest to students and scholars of Asian religion and philosophy as well as to those interested in animal ethics and Critical Animal Studies Unstaging War, Confronting Conflict and Peace Tony Fry, 2019-07-24 This book presents the concept of unstaging war as a strategic response to the failure of the discourse and institutions of peace This failure is explained by exploring the changing character of conflict in current and emergent global circumstances such as asymmetrical conflicts insurgencies and terrorism Fry argues that this pluralisation of war has

broken the binary relation between war and peace conflict is no longer self evident and consequentially the changes in the conditions nature systems philosophies and technologies of war must be addressed Through a deep understanding of contemporary war Fry explains why peace fails as both idea and process before presenting Unstaging War as a concept and nascent practice that acknowledges conflict as structurally present and so is not able to be dealt with by attempts to create peace Against a backdrop of increasingly tense relations between global power blocs the beginnings of a new nuclear arms race and the ever increasing human and environmental impacts of climate change a more viable alternative to war is urgently needed Unstaging War is not claimed as a solution but rather as an exploration of critical problems and an opening into the means of engaging with them
