Woud,2023-03-28 The primary aim of this book is to bridge the gap between lab based and clinical research by disseminating the latest interdisciplinary scientific findings on interpretational processing biases in the context of emotional psychopathology It is designed to help the practitioner by drawing explicit links between the basic science and implications for clinical practice This enables an enhanced interaction between science and practice strengthening bi directional translational links and the potential to produce more meaningful and significant advances in the treatment of emotional psychopathology This in turn will facilitate an innovative step change in the area of both research and clinical practice The book focuses on cognitive processing biases that are common across a wide range of psychological disorders meaning that

the conclusions drawn have relevance across the whole spectrum of psychopathology and will stimulate and inspire a broad range of discussions and future work From the foreword by Nikolaos Kazantzis The practice of CBT is complex and requires a tailored approach Every technique has a specific target but may be used for multiple purposes simultaneously in support of the client s therapeutic goals The purpose of Dr Woud s book is to elucidate the ways in which interpretational biases can be a focus of intervention for CBT therapists at all stages of professional development from those undertaking training to master clinicians Dr Woud has succeeded admirably in this regard Arming the Warship Iver P. Cooper,2024-11-04 In the 16th century warships engaged at close range sometimes with yards touching and small arms fire and hand to hand combat were at least as important as the great guns As time went on the big guns became more decisive and increased in destructive power range and accuracy This book explores how naval armament armor ballistics and gunnery evolved from the 16th to 20th centuries from a scientific and technological perspective It examines the functional aspects the guns and their distribution on warships the propellants the projectiles and so forth and examines the development of each Smoke Column Height Related to Fire Intensity Rodney A.
