Heirs of the Motherland Judith Pella, 1994 **The Russians - Heirs of the Motherland** - Judith Pella, **To Be Continued** Hope Apple, Merle L. Jacob, 2000-10-10 Keeping track of prolific authors who write fiction series was quite challenging for even the most ardent fan until *To Be Continued* debuted in 1995. Now readers will be happy that the soon to be released second edition has added 1 600 new books and 400 new series. *To Be Continued* Second Edition maintains the first volume's successful formula that featured concise A to Z entries packed with useful information including titles publishers publication dates genre categories annotations and subject terms. Among the genre categories that can be found in *To Be Continued* are romance science fiction crime novel horror adventure fantasy humor western war Christian fiction and others. **The Russians** M. Phillips, Judith Pella, 2001-04 *Contemporary Christian Authors* Janice DeLong, Rachel E. Schwedt, 2000 Finally a summary section provides a brief synopsis of at least one title representative of the author's style and several of the writers have provided personal annotations of their works. **BOOK JACKET** **To be Continued** Merle Jacob, Hope Apple, 1995 This guide identifies both in print and out of print works of fiction featuring continuing themes plots or characters in which there is a sense of development and passage of time. Michnik now sits in a jail belonging to the totalitarian regime yet his first concern and herein lies one of the keys to his thinking and one should add to his character is with the quality of his own conduct which together with the conduct of other victims of the present situation will he is sure one day set the tone for whatever political system follows the totalitarian debacle. His essays are the most valuable guide we have to the origins of the revolution and more particularly to its innovative practices. **The Asiatic Quarterly Review**, 1907 **The Exercise of Sovereignty** Charles Burton Marshall, 1965 Papers by a member of the Johns Hopkins Washington Center of Foreign Policy Research with foreword by Dean Acheson. National Identity and Foreign Policy Ilya Prizel, 1998-08-13 This book is based on the premise that the foreign policy of any country is heavily influenced by a society's evolving notions of itself Applying his analysis to Russia Poland and Ukraine the author argues that national identity is an ever changing concept influenced by internal and external events and by the manipulation of a polity's collective memory The interaction of the narrative of a society and its foreign policy is therefore paramount This is especially the case in East Central Europe where political institutions are weak and social coherence remains subject to the vagaries of the concept of nationhood Ilya Prizel's study will be of interest to students of nationalism as well as of foreign policy and politics in East Central Europe

The Dark Path Williamson Murray, 2024-10-22 From an esteemed military historian a sweeping history of the revolutions in war fighting that have shaped the modern world Heraclitus wrote that war

is the father of all and it has formed much of the modern world Although the fundamental nature of war has not altered over the centuries constant change innovation and adaptation have repeatedly reshaped how wars are fought in the West

Revolutions in military practice cannot be separated from larger social developments in areas like logistics finance and economics and the culture of military organizations In *The Dark Path* Williamson Murray argues that the history of warfare in the West hinged on five revolutions which both reflected the social political and economic conditions that produced them and in turn influenced how those conditions evolved These five key turning points are the advent of the modern state which formed bureaucracies and professional militaries the Industrial Revolution which produced the financial and industrial means to sustain and equip large armies the French Revolution which provided the ideological basis needed to sustain armies through continent sized wars the merging of the Industrial and French Revolutions in the U S Civil War and the accelerating integration of technological advancement financial capacity ideology and government that unleashed the modern capacity for total warfare An ambitious work of synthesis this book shows how the world continually re creates war and how war in turn continually re creates the world
