Skard, 2015-03-09 At a time when a woman Angela Merkel is arguably the most powerful leader in Europe and another Hilary Clinton continues to be at the center of the US political stage it seems that women have broken through the glass ceiling and begun to populate the highest offices of the political world. *Women of Power* is a testament to that accomplishment offering the most comprehensive overview of female presidents and prime ministers to date. Looking at over fifty countries and over seventy women leaders since 1960 Torild Skard herself an experienced politician examines how and why these women rose to the top and what their leadership has meant for women's empowerment throughout the latter half of the twentieth century. Skard examines the achievements and life stories of the world's female leaders up to the current era. She offers nuanced portraits that draw on a number of materials including many interviews that she conducted herself. All of the women discussed are organized by both chronology and geography and Skard includes a number of helpful chapters that provide an overview and assessment of how different women leaders have come to power in different regions. Overall the book provides a fascinating account of women's empowerment as it has manifested itself at the very top of the political hierarchy.

**Understanding Prime-Ministerial Performance** Paul Strangio, Paul 't Hart, James Walter, 2013-03-28 At the beginning of the twenty first century prime ministers loom larger in the consciousness of their nations than perhaps in any previous era. But how well do we really understand the variables of prime ministerial performance and specifically why some prime ministers apparently flourish in the role while others wither. This study examines how prime ministers perform as leaders of their governments parties and nations. It offers new ways of thinking about prime ministerial power and leadership and

systematic empirical studies of prime ministerial leadership practices in four Westminster democracies the United Kingdom Canada Australia and New Zealand The volume features contributions from leading political scientists from all of these countries and is organised into three major sections understanding power in prime ministerial performance prime ministers and their parties and evaluating prime ministerial performance Through its collaborative and multifaceted approach the volume demonstrates that there are no hard and fast propositions or rules of thumb to capture what it is that makes us think of some prime ministers as so much more effective than others Instead it highlights the importance for students of executive government to grasp the contingent interplay between personal institutional and contextual factors in understanding and evaluating prime ministerial performance

*Public Leadership* Paul 't Hart, John Uhr, 2008-11-01 Leadership is routinely admired vilified ridiculed invoked trivialised explained and speculated about in the media and in everyday conversation Despite all this talk there is surprisingly little consensus about how to answer basic questions about the nature place role and impact of leadership in contemporary society This book brings together academics from a broad array of social science disciplines who are interested in contemporary understandings of leadership in the public domain Their work on political administrative and civil society leadership represents a stock take of what we need to know and offers original examples of what we do know about public leadership Although this volume connects scholars living in and mostly working on public leadership in Australia and New Zealand their contributions have a much broader scope and relevance
