Hell I Was There:

Hell, I was There! Elmer Keith, 1979 *Mother, Please Let Me Go* H. D. Graham, 2010 This book is about my exciting and wonderful career in the United States Air Force I listed my various assignment in the order in which they occurred and outlined the major events in my life while at each base Every assignment had a lot of good points and some that wasn't that great but I tried to focus on the exciting things A large portion of the book deals with my assignments in Vietnam and events that still haunt me today The events in the book start when I was a senior in high school trying to talk my Mother into giving me permission to enlist just as soon as I turn 17 years old I also wrote about some of the interesting things while in high school and about my large family I felt that it might be of interest to the reader to know that between all my brothers and I we accumulated over 170 years of military service to our country I ended the book with some events that happened while I was teaching and the jetliner that I observed on 10 Sep 01 practicing for the flight across southern Pennsylvania that crashed on 9 11

God-Man And It Just Had to Be Dr. Tony G. Minyard, 2024-04-30 This book took some great thought to write but And It Just Had to Be is paramount to everything that Christianity stands for The work of Jesus Christ His death and resurrection is crucial to our faith The key factor is the oneness of Christ in us This book highlights the factor of what Christ really did for us to appease the wrath of God The choice is freewill The truth is we have been translated from darkness to light We are all sinners saved by the grace of God but we have to accept this gift to have eternal life However if you reject this gift then the wrath of God is on you my friend There were elements that were very personal that happened during my rebellious years in unbelief and it happens to many people It's sad but it does right Trust me learn from my mistakes please repent really quick You don't know what the price is I talk about surrender being the first step to accepting Jesus as Lord and Savior Salvation is a onetime event if it's genuine but throughout your life it's an everyday deal the real one Sometimes we ride the fence and think everything is A OK but it's not Please have intimacy with God He loves us very much The Christian life ends when we're at the Judgment Seat of Christ I hope no one appears at the Great White Throne Judgment I covered many topics in this book

to illustrate biblical concepts for you to grasp the truth This is very serious stuff in the eyes of God The purpose of this book is for you to make the right choice repent or not Remember God believes in you You might be in that rebellious life but just surrender back to God

leading expert on near death experiences reveals his journey toward rethinking the nature of death life and the continuity of consciousness Cases of remarkable experiences on the threshold of death have been reported since ancient times and are described today by 10% of people whose hearts stop The medical world has generally ignored these near death experiences dismissing them as tricks of the brain or wishful thinking But after his patients started describing events that he could not just sweep under the rug Dr Bruce Greyson began to investigate As a physician without a religious belief system he approached near death experiences from a scientific perspective In After he shares the transformative lessons he has learned over four decades of research Our culture has tended to view dying as the end of our consciousness the end of our existence a dreaded prospect that for many people evokes fear and anxiety But Dr Greyson shows how scientific revelations about the dying process can support an alternative theory Dying could be the threshold between one form of consciousness and

another not an ending but a transition This new perspective on the nature of death can transform the fear of dying that pervades our culture into a healthy view of it as one more milestone in the course of our lives After challenges us to open our minds to these experiences and to what they can teach us and in so doing expand our understanding of consciousness and of what it means to be human
