B.C. - AD 250 and its Egyptian Models László Török, 2011-07-12 Presenting a large body of evidence for the first time this book offers a comprehensive treatment of Nubian architecture sculpture and minor arts in the period between 300 BC AD 250 It focuses primarily on the Nubian response to the traditional pharaonic Hellenistic Roman Hellenizing and hybrid elements of Ptolemaic and Roman Egyptian culture The author begins with a history of Nubian art and a critical survey of the literature on Ptolemaic and Roman Egyptian art Special chapters are then devoted to the discussion of the Egyptian Greek interaction in the arts of Ptolemaic Egypt the place of Egyptian Hellenistic and Hellenizing art within the oikumene the pluralistic visual world of Ptolemaic and Roman Egypt as well as on the specific genre of terracotta sculpture Utilizing examples from Meroe City and Musawwarat es Sufra the author argues that cultural transfer from Ptolemaic and Roman Egypt to Nubia resulted in an inward focused adaptation Therefore the resulting Nubian art from this period expresses only those aspects of Egyptian and Greek art that are compatible with indigenous Nubian goals **Handbook of Greek**

supplementary ornaments Likewise classical archaeologists have often treated them as tools for taxonomic analysis This book not only argues for the integral role of framing within Graeco Roman art but also explores the relationship between the frames of classical antiquity and those of more modern art and aesthetics Contributors combine close formal analysis with more theoretical approaches chapters examine framing devices across multiple media including vase and fresco painting relief and free standing sculpture mosaics manuscripts and inscriptions structuring analysis around the themes of framing pictorial space framing bodies framing the sacred and framing texts The result is a new cultural history of framing one that probes the sophisticated and playful ways in which frames could support delimit shape and even interrogate the images contained within

Library of Congress Subject Headings Library of Congress. Cataloging Policy and Support Office, 2009 **Couched in Death** Elizabeth P. Baughan, 2013-12-06 In *Couched in Death* Elizabeth P Baughan offers the first comprehensive look at the earliest funeral couches in the ancient Mediterranean world These sixth and fifth century

BCE klinai from Asia Minor were inspired by specialty luxury furnishings developed in Archaic Greece for reclining at elite symposia. It was in Anatolia however in the dynastic cultures of Lydia and Phrygia and their neighbors that klinai first gained prominence not as banquet furniture but as burial receptacles. For tombs wooden couches were replaced by more permanent media cut from bedrock carved from marble or limestone or even cast in bronze. The rich archaeological findings of funerary klinai throughout Asia Minor raise intriguing questions about the social and symbolic meanings of this burial furniture. Why did Anatolian elites want to bury their dead on replicas of Greek furniture? Do the klinai found in Anatolian tombs represent Persian influence after the conquest of Anatolia as previous scholarship has suggested? Bringing a diverse body of understudied and unpublished material together for the first time, Baughan investigates the origins and cultural significance of kline burial and charts the stylistic development and distribution of funerary klinai throughout Anatolia. She contends that funeral couch burials and banqueter representations in funerary art helped construct hybridized Anatolian-Persian identities in Achaemenid Anatolia and she reassesses the origins of the custom of the reclining banquet itself, a defining feature of ancient Mediterranean civilizations. Baughan explores the relationships of Anatolian funeral couches with similar traditions in Etruria and Macedonia as well as their afterlife in the modern era and her study also includes a comprehensive survey of evidence for ancient klinai in general based on analysis of more than three hundred klinai representations on Greek vases as well as archaeological and textual sources.

Encyclopedia of Greece and the Hellenic Tradition Graham Speake, 2021-01-31 Hellenism is the living culture of the Greek-speaking peoples and has a continuing history of more than 3500 years. The Encyclopedia of Greece and the Hellenic Tradition contains approximately 900 entries devoted to people, places, periods, events, and themes, examining every aspect of that culture from the Bronze Age to the present day. The focus throughout is on the Greeks themselves and the continuities within their own cultural tradition. Language and religion are perhaps the most obvious vehicles of continuity, but there have been many others: law, taxation, gardens, music, magic, education, shipping, and countless other elements have all played their part in maintaining this unique culture. Today Greek arts have blossomed again; Greece has taken its place in the European Union; Greeks control a substantial proportion of the world's merchant marine; and Greek communities in the United States, Australia, and South Africa have carried the Hellenic tradition throughout the world. This is the first reference work to embrace all aspects of that tradition in every period of its existence.

Pollitt, Yale University
