The Spaces and Places of Horror Francesco Pascuzzi, Sandra Waters, 2020-01-16 This volume explores the complex horizon of landscapes in horror film culture to better understand the use that the genre makes of settings locations spaces and places be they physical imagined or altogether imaginary In *The Philosophy of Horror* No 1 Carroll discusses the geography of horror as often situating the filmic genre in liminal spaces as a means to displace the narrative away from commonly accepted social structures this use of space is meant to trigger the audience s innate fear of the unknown This notion recalls Freud s theorization of the uncanny as it is centered on recognizable locations outside of the Lacanian symbolic order In some instances a location may act as one of the describing characteristics of evil itself In *A Nightmare on Elm Street* teenagers fall asleep only to be dragged from their bedrooms into Freddy Krueger s labyrinthine lair an inescapable boiler room that enhances Freddie s powers and makes him invincible In other scenarios the action may take place in a distant little known country to isolate characters Roth s *Hostel* films or as a way to mythicize the very origin of evil Bava s *Black Sunday* Finally anxieties related to the encroaching presence of technology in our lives may give rise to postmodern narratives of loneliness and disconnect at the crossing between virtual and real places in Kurosawa s *Pulse* the internet acts as a gateway between the living and spirit worlds creating an oneiric realm where the living vanish and ghosts move to replace them This suggestive topic begs to be further investigated this volume represents a crucial addition to the scholarship on horror film culture by adopting a transnational comparative approach to the analysis of formal and narrative concerns specific to the genre by considering some of the most popular titles in horror film culture alongside lesser known works for which this anthology represents the first piece of relevant scholarship
