Hells Best Kept Secret:

Hell's Best Kept Secret Ray Comfort, 2004-07-01 How many souls have you won to Christ How many are still walking with the Lord All some a few The facts are Evangelical success is at an all time low We re producing more backsliders than true converts The fall away rate from large crusades to local churches is between 80 to 90 percent Why are so many unbelievers turning away from the message of the gospel Doesn t the Bible tell us how to bring sinners to true repentance If so where have we missed it The answer may surprise you One hundred years ago Satan buried the crucial key needed to unlock the unbeliever s heart Now Ray Comfort boldly breaks away from modern tradition and calls for a return to biblical evangelism If you re experiencing evangelical frustration over lost souls unrepentant sinners and backslidden believers then look no further This radical approach could be the missing dimension needed to win our generation to Christ

Shamelessly Yours A. J. Johnson, 2022-09-09 As the author s knowledge of the God of the Bible deepened through her own battles AJ was led spectacularly deeper into the realms of spiritual warfare but always with a guiding hand Then through prayerful revelation and much study her eyes were opened to the spiritual battles in others She found herself grappling desperately to pull these people up from the murky waters in an attempt to shield them from what she could see in them However without God they were in deep with the unseen enemy but there was always an outstretched hand As a willing tool she was ready to grab anyone crying out into the night because someone heard them But they did not fully believe so it hurt the light So on she went embracing ridicule and mocking because being called names was better than watching someone s suicide She wanted them free because their inner foe was deeply hidden and smirking But it could not hide from her and this was war A passion began to build for those who could not break free from tormenting or fearful thoughts and she saw quite clearly what the world would call mental health turning and darkening into a spiritual battle so intense that it threatened to devour the victim whole No medicine or therapy fully healed those she knew They saw themselves as victims but the world will look for anything other than sorrow to heal their minds so they were unaware of the earth shattering blow about to hit She quickly learned that having no belief makes you more vulnerable to attack and then our kids are on the menu Will you let your enemy take everything from you or will you fight for your freedom If so then take my hand as we are going in together

The Quest For Truth Michael Dedivonai, 2012-08 This book is for the reader who takes interest in an age old issue that remains contemporary with every succeeding generation When how and why we are here are questions that have caused countless generations of thinkers and laymen alike to intuitively seek at the very least the semblance of an answer to questions that have become more of an outlook than a science and in turn spring up among the problems of modern life as opposed to allowing for a resolution to that which was intended to clarify instead of further complicate Free from the shackles and bias imposed by the various schools of religious scientific and philosophical thought the examinations offered herein are rooted in systematic analyses of the scientific philosophical ethical social and finally the religious which in turn

allows for the explanation and justification of concepts that enable the reader to adopt a perspective relevant to the distinctions of absolute truth and relativistic assumptions Our age is accurately referred to as the age of advancement and technology and for good reason The rapid pace of progression over the last century in the life sciences has contributed to a broadened understanding of knowledge itself and its relation to the psychological and sociological aspects of our existence As a result of the significant expansion of the sciences the desire for an understanding of self and simply of why has in many ways been diluted thus negating the never ending questions that once tugged at man's conscious in the middle of the night for thousands of years Today's amazing achievements have laid the foundation for a whole series of newer problems and questions that threaten mankind as never before The medical and biological sciences have enabled us to have a life expectancy beyond that of prior generations however coupled with that are the problems of population explosion which in the not too distant future will give rise to serious concerns We have the ability to harness the power of the atom yet along with it comes the ability to destroy all that we hold sacred Taking into consideration the advanced age we live in how does one account for the remarkable complexity extant throughout the known universe Is one to assume that our consciousness coupled with our overwhelming sense of purpose can be attributed solely to random chance alone The law of causation deals with the need for a preceding event leading to the outcome and despite the fact that this scientific age has left its handprint on every facet of life today it has failed to satisfy the innate question of simply why
