

HELMET FOR MY PILLOW

A dark, metallic helmet, possibly a military helmet, is shown floating in a body of water. The helmet is tilted slightly to the right, and its reflection is visible in the water below it. The background consists of gentle ripples on the water's surface.

Please note This is a companion version not the original book Sample Book Insights 1 I was sworn in as a marine in January 1942 The captain who swore me in reduced the ceremony to a jumble We all held up our hands and when he lowered his we guessed we were marines The gunnery sergeant who became my shepherd made sure I understood what was expected of me 2 The boy next to me a handsome blond from south Jersey turned out to have a fine high voice He sang several songs alone There being a liberal leavening of New York Irish among us he was soon singing Irish ballads 3 The American weakness is that the success of someone becomes their sage The redhead was the most poised of all of us but he was also the most stripped of his personality during training 4 I was quartered with a group of other recruits on the second floor of a wooden barracks We had no privileges and we were half baked We were like St Augustine s definition of time out of the future that is not yet into the present that is just becoming back to the past that no longer is 1942 Winston Groom,2006-04-03 To the

generation of Americans who lived through it the Second World War was the defining event of the twentieth century and the defining events of that war were played out in the year 1942 Publisher website September 2007 **Two Navies Divided** Brian Lavery,2025-04-22 The title is derived from George Bernard Shaw s comment that England and America are two countries divided by a common language It is not intended to imply that the two navies were seriously at odds with one another but rather to suggest as in the case of language that common roots and usages varied significantly And the Second World War is a pertinent moment for comparison They fought on the same side against a common enemy for nearly four years but Britain fought the war for the survival of itself and its empire though in the long term it failed with the latter while the American government fought to maintain its influence through the balance of power its people fought for revenge for Pearl Harbor and out of a sense of justice In this new book Brian Lavery describes and analyzes the differences and similarities between the two navies and in doing so sheds fascinating light on how the naval war was fought For example both navies had spectacular failures after entering the war the Royal Navy off Norway the USN at Pearl Harbor and Savo Island Paradoxically both commenced the war with quite amateur performances by professional navies and ended with highly skilled performances by largely amateur manned forces The training systems for regular officers had flaws in both countries In Britain entry was largely dependent on family income in America on political influence But American officers probably had a broader perspective by the time they entered active service The book covers ships and weapons systems for instance the British used too many gun types in the 4 to 6in range while the Americans concentrated on the well designed 5in And the

author describes conditions onboard ships British vessels were awash with alcohol which had its attractions for Americans when alongside the Americans offered ice cream in return These examples represent only a tiny proportion of the subjects covered in this stimulating analysis Aviation the marines of both navies anti submarine and mine warfare uniforms propulsion systems shipbuilding and building programs commanders and national leaders ratings and officers ship design geographical environments naval bases hammocks and bunks the deployment of women these are among the myriad big and small themes that will open the eyes of naval historians and enthusiasts and show anyone with an interest in the Second World War how these two great allies came together to defeat the Axis forces *Military Review* ,2011-07 **Professional Journal of the United States Army** ,2011 Parris Island: "The Cradle of the Corps" Eugene Alvarez,Leo Daugherty,2016-05-21 The original 1983 manuscript written by Eugene Alvarez who is the primary author of this book included the years 1562-1983 The current and revised manuscript was edited and updated by Leo J Daugherty III PhD in cooperation with the primary author and covers the years 1997 to 2015 including chapter 6 dealing with recruit training in the 1920s and 1930s which was a part of his doctoral dissertation at the Ohio State University Since this work was first completed Parris Island has undergone numerous changes in buildings the base layout and recruit training The training philosophy has been altered as society demands Thus past training situations and methods should be observed as recorded in the chronological approach of the text to present times **Underdogs** Aaron B. O'Connell,2012-10-29 Exploring the growth of the Marines from disadvantaged to elite force this history offers an excellent analysis of how the marines became the Marines Publishers Weekly The Marine Corps has always considered itself a breed apart This undying faith in its own exceptionalism is what has made the Marines one of the sharpest swiftest tools of American military power Aaron O Connell focuses on the period from World War II to Vietnam when the Marine Corps transformed itself from America s least respected to its most elite armed force Venerating sacrifice and suffering privileging the collective over the individual Corps culture was saturated with romantic and religious overtones that had enormous marketing potential in a postwar America energized by new global responsibilities Capitalizing on this the Marines curried the favor of the nation s best reporters befriended publishers courted Hollywood and Congress and built a public relations infrastructure that would eventually brand it as the most prestigious military service in America But as O Connell suggests the Corps triumphs did not come without costs including a culture of violence that sometimes spread beyond the battlefield A significant and original contribution to both the military history of the Cold War and the ongoing conversation about the militarization of American culture Beth Bailey author of America s Army Making the All Volunteer Force Takes readers inside the culture of the Corps Nathaniel Fick author of One Bullet Away The Making of a Marine Officer Insightful Library Journal A powerful account of the relationship between fighting war and preserving peace viewed through the lens of the stories that built support for both Kirkus Reviews Absorbing The Wall Street Journal
