Trench Art Jane A. Kimball,2004 Trench art is a highly evocative term conjuring up the image of a mud spattered soldier in a soggy trench hammering out a souvenir for a loved one at home while dodging bullets and artillery shells This is an appealing but very false conception of the reality of this art form A few types of trench art could be made easily in a trench during lulls in the fighting but the hammering involved in making many trench art pieces would have been greeted with unwelcome hostile fire from the enemy Trench art items made during wars were in fact created at a distance from the front line trenches either by soldiers at rest behind the front lines by skilled artisans among the civilian population by prisoners of war or by soldiers Why Do Kamikaze Pilots Wear Helmets - Answers to the questions you've always wanted to ask Andrew Thompson,2016-10-31 A fascinating and fun volume providing concise answers to hundreds of the questions we all ponder from time to time and also sets us straight about many things that most of us assume to be true giving us the often surprising low down on an astonishing variety of topics Essential reading for any lover of learned knowledge combined with memorable trivia *The Encyclopedia Americana* ,1927 The Twentieth-Century World, 1914 to the Present John C. Corbally,2025-01-09 The Twentieth Century World 1914 to the Present introduces students to six distinct historical themes in 20th century history politics economics religion technology migration and the environment Each theme is set in a social and cultural history framework that emphasizes the commonalities and diversity in human experiences throughout the modern era A genuinely global textbook that takes a non nationalistic approach to history and incorporates events actors and communities from around the world Corbally explores the connections interactions and exploitations of global resources and peoples that were part and parcel of 20th century history Economically the book shows how people were connected by the spread of global capitalism and communism It explores the spread of traditional religions and philosophies and traces how technology has increasingly reached into our lives This fully revised second edition includes updated historiography throughout plus A new chapter on mobility and migration Expanded material on the history of class race and gender throughout Expanded material on modern African history New further reading sections at the end of each chapter A new companion website Ideal for undergraduate level students of 20th century history this is a book that offers a balanced multi perspective approach to recent global history helping the 21st century student understand today s world and interrogate commonly held assumptions about its history France ,1920 **Rendezvous with Destiny** Michael Fullilove,2013-07-03

The remarkable untold story of Franklin D Roosevelt and the five extraordinary men he used to pull America into World War II In the dark days between Hitler s invasion of Poland in September 1939 and Japan s attack on Pearl Harbor in December 1941 Franklin D Roosevelt sent five remarkable men on dramatic and dangerous missions to Europe The missions were highly unorthodox and they confounded and infuriated diplomats on both sides of the Atlantic Their importance is little understood to this day In fact they were crucial to the course of the Second World War The envoys were magnificent unforgettable characters First off the mark was Sumner Welles the chilly patrician under secretary of state later ruined by his sexual misdemeanors who was dispatched by FDR on a tour of European capitals in the spring of 1940 In summer of that year after the fall of France William Wild Bill Donovan war hero and future spymaster visited a lonely United Kingdom at the president s behest to determine whether she could hold out against the Nazis Donovan s report helped convince FDR that Britain was worth backing After he won an unprecedented third term in November 1940 Roosevelt threw a lifeline to the United Kingdom in the form of Lend Lease and dispatched three men to help secure it Harry Hopkins the frail social worker and presidential confidant was sent to explain Lend Lease to Winston Churchill Averell Harriman a handsome ambitious railroad heir served as FDR s man in London expediting Lend Lease aid and romancing Churchill s daughter in law Roosevelt even put to work his rumpled charismatic opponent in the 1940 presidential election Wendell Willkie whose visit lifted British morale and won wary Americans over to the cause Finally in the aftermath of Germany s invasion of the Soviet Union Hopkins returned to London to confer with Churchill and traveled to Moscow to meet with Joseph Stalin This final mission gave Roosevelt the confidence to bet on the Soviet Union The envoys missions took them into the middle of the war and exposed them to the leading figures of the age Taken together they plot the arc of America s transformation from a divided and hesitant middle power into the global leader At the center of everything of course was FDR himself who moved his envoys around the globe with skill and Ian We often think of Harry S Truman George Marshall Dean Acheson and George F Kennan as the authors of America s global primacy in the second half of the twentieth century But all their achievements were enabled by the earlier work of Roosevelt and his representatives who took the United States into the war and by defeating domestic isolationists and foreign enemies into the world In these two years America turned FDR and his envoys were responsible for the turn Drawing on vast archival research *Rendezvous with Destiny* is narrative history at its most delightful stirring and important

Great Britain and the East ,1916 **The Americana** ,1923 *American Book Publishing Record* ,2001 **Tools of War** Syed Ramsey,2016-09-01 Warfare of the early modern period is associated with the start of the widespread use of gunpowder and the development of suitable weapons to use the explosive including artillery and handguns for this reason the era is also referred to as the age of gunpowder warfare a concept introduced by Michael Roberts in the 1950s Shock weapons that extend or enhance the deadly force of the humans at close contact These would include clubs axes tomahawks knives swords sabres spears halberds and pikes The most important surviving shock
