**Urban America Reconsidered** David L. Imbroscio, 2011-01-15 The aftermath of Hurricane Katrina laid bare the tragedy of American cities What the storm revealed about the social conditions in New Orleans shocked many Americans Even more shocking is how widespread these conditions are throughout much of urban America Plagued by ineffectual and inequalitarian governance acute social problems such as extreme poverty and social and economic injustice many American cities suffer a fate similar to that of New Orleans before and after the hurricane Gentrification and corporate redevelopment schemes merely distract from this disturbing reality Compounding this tragedy is a failure in urban analysis and scholarship Little has been offered in the way of solving urban America's problems and much of what has been proposed or practiced remains profoundly misguided in David Imbroscio's view In *Urban America Reconsidered* he offers a timely response He urges a reconsideration of the two reigning orthodoxies in urban studies regime theory which provides an understanding of governance in cities and liberal expansionism which advocates regional policies linking cities to surrounding suburbs Declaring both approaches to be insufficient and sometimes harmful Imbroscio illuminates another path for urban America remaking city economies via an array of local economic alternative development strategies or LEADS Notable LEADS include efforts to build community based development institutions worker owned firms publicly controlled businesses and webs of interdependent entrepreneurial enterprises Equally notable is the innovative use of urban development tools to generate indigenous stable and balanced growth in local economies *Urban America Reconsidered* makes a strong case for the LEADS approach for constructing progressive urban regimes and addressing America's deepest urban problems National Urban Recreation Study: Technical report 13, 1978 The Fate of Cities Roger Biles, 2011 The first major comprehensive treatment of urban revitalization in 35 years Examines the federal government's relationship with urban America from the Truman through the Clinton administrations Provides a telling critique of how in the long run government turned a blind eye to the fate of cities *Forbidden Bookshelf's Resistance in America Collection* Nancy Howell Lee, Peter Dale Scott, Bertram

Gross,2017-06-13 From creeping capitalism to abortion to government corruption these three books shed light on controversial topics that are too often left in the dark Curated by NYU professor Mark Crispin Miller the Forbidden Bookshelf series resurrects books from America's repressed history All touching on bold and debated topics these three books are more relevant today than ever Friendly Fascism Bertram Gross a presidential adviser in the New Deal era explores the insidious way that capitalist politics could subvert America's constitutional democracy First published over three decades ago this book predicted the threats and realities that occur when big business and big government become bedfellows while demonstrating how US citizens can build a truer democracy The Search for an Abortionist Nancy Howell Lee's eye opening account reveals the dangerous and illegal options for women seeking an abortion before Roe v Wade Based on interviews with 114 women this groundbreaking work takes an intimate look at the abortion process Dallas 63 Peter Dale Scott exposes the deep state an intricate network within the American government linking Wall Street influence corrupt bureaucracy and the military industrial complex Since World War II its power has grown unchecked and nowhere has it been more apparent than at Dealey Plaza on November 22 1963 Scott details the CIA and FBI's involvement in the JFK assassination and shows how events like Watergate the Iran Contra affair and 9 11 are all connected to this behind the scenes web of corruption
