AUTHOR S MESSAGE TO READERS No matter what our perception is in relation to the subject of war and peace in our modern times we have an inherent obligation to inculcate a spirit of lucidity and responsibility to reject erratic and ferment principles of politics that may jeopardize our determination to make our world a peaceful place What is required is that we open up to the truth of the past and inculcate the good principles of politics into our contemporary culture of peace The rethinking of ancient philosophy of peace is to reanimate us once again with the wisdom of the past in our search today for order and tranquility tranquillitas ordinis The philosophy of peace of the ancient times is not a monolith for sure we can detect minor deficiencies and utopian elements in it nevertheless its profundity and uniqueness offers those who study it something exceptional distinctive and pure that has stood the test of time and all forms of cultural alterations over the centuries Ancient philosophy has introduced us to the basic truth thus peace is inner repose and outer harmony and the person is at peace when he is not anguished inwardly by conflicting desires whilst living in harmony with others Ancient philosophy affirms that men are intelligent and willing beings and are naturally called to build peace in their lives and in the society this is true because any man who has examined history and human nature will agree with me that there is no such thing as a human heart that does not crave for peace and happiness With a good modus operandi and determination we can build sound politics and social organization of peace because peace is the only thing that can hold the human family together

The Collected Works of J. Krishnamurti Jiddu Krishnamurti,J. Krishnamurti,1991 In this volume Krishnamurti takes great care to elucidate this necessity of a revolution within our consciousness where the problem lies before we expect any kind of revolutionary change outside of ourselves Krishnamurti posits that if the politicians and scientists wanted to end starvation in the world it could be done It could be done but they are not going to do it as long as their thinking is based on nationalism on motives of their own personal profit And even if this far reaching outward change were brought about it seems to me that the problem is much deeper The problem is not merely starvation war the brutality of man to man it is the crisis in our own consciousness Fundamentally the problem lies within p 295 **The Forum** ,1920 Current political social scientific education and literary news written about by many famous authors and reform movements **Forum and Column Review**
