Haeberle,2009-06 Live Better Spend Less and Save More Spending and Saving How to Get Credit and Your Money to Work for You is about what works for real people in the real world Too much of the financial advice available today is simply not workable for most people in the real world I have included in this book what I have found works for people and left out what I have found does not work for people For example you will not see a budget in this book A budget is one of the most common items of financial advice Use a budget you are told The problem is most people cannot sustain the use of a budget for any length of time In public speaking I ask people how many of them use a budget The number of people using a budget is small Why Because a budget is about limiting spending and most people do not like the limiting concept Instead I have developed tools that are not based on limitation My tools are focused on getting you what you want and less of what you do not want

How to Live Well While Spending Less J.D. Rockefeller, 2015-06-30 We started out with very little We had low paying jobs and one old used car and rental house that had seen its better days We were young in love and all that mattered to us was being together We spent summer afternoons at the lake Our idea of a great Sunday was taking a long car ride Life continued and we found better paying jobs Then we discovered credit We soon had a nicer house a couple of nice cars and two pretty cool kids And we were struggling We wanted to look successful but we were barely paying the bills Minor issues like a sick child causing one of us to miss a day's pay were a catastrophe Working as much as possible became our only focus We used one credit card to pay the bill on another and it was an unending circle We looked at our friends and found most of them in the same situation One couple we knew had an amazing house in the best of neighborhoods but except for a couch and an air mattress had no furniture Another couple we knew drove very nice cars but each worked two jobs and they rarely saw each other We were miserable However we still didn't know why We thought we needed more stuff We bought financed two ATVs We loved to ride We began taking our children riding on our off days which were rare After a while it got to be too stressful so we decided we needed to go to the mountains to ride So we invested in all new camping gear which we bought with our new Sears credit card That we applied for in case of an emergency We began camping and riding every chance we got but the chances were fewer and fewer since we could not afford to turn down any extra hours to earn money As it always does it began to crumble around us We had everything we thought we needed to be happy but we were miserable We looked at our children and realized they were miserable too They just wanted time with us It didn't matter how fine their rooms looked We had put happiness behind possessions We had ignored the look of sadness in their eyes when we waved at them on our way to work another off day The credit cards were to their limits There was no

more paying one with another The house payment was due the ATV payments were due We had no more money The interest and late fees were mounting We soon sold the nice house the ATV s and the other toys we had bought We moved into a rental house that was in very poor condition so we could start paying down the mountain of debt we had accumulated In that shabby little rental we found ourselves We discovered the fun of playing with our children We found the rest of actually taking an off day We rediscovered afternoons at the lake and long Sunday drives We were broke but somehow we were finding happiness Our journey had begun **Live More with Less** Kate Luckins,2024-02-27 Drop the eco guilt and create the sustainable lifestyle you want Sustainability leader Dr Kate Luckins knows how striving for eco perfection sets us up for failure She encourages everyone to act on climate change by living their own shade of green instead Live More with Less is a practical and optimistic guide to balancing planet friendly habits with our imperfect reality It s filled with entertaining anecdotes from sustainability leaders and everyday eco heroes as well as handy tips to reduce consumerism and your mental load It steps you through elevating your wardrobe cutting your grocery bills and restoring the joy of Christmas with ease This book is for anyone wanting to make confident sustainable choices to upgrade their life for good Stress Less, Live More Richard Blonna,2010-04-01 I m never going to finish this project on time This is hopeless everything s going wrong Why do I try to do everything at once A busy life is full of stressful situations that s a given But that doesn t mean there is nothing you can do Your thoughts can actually affect the way your brain processes stress for better or worse Most of the time our brains compound the problem adding thoughts of self doubt and frustration to already difficult situations Stress Less Live More presents a program based in acceptance and commitment therapy ACT that can help you train your brain to react to stress in a different way With the mindfulness and acceptance techniques in this book you ll clear out mental clutter enhance your focus and concentrate on the present moment so that you can channel your energy into what matters most to you It s that simple Learn to mindfully accept what can t be changed Find peace and contentment in the present moment Practice relaxation skills you can use to calm yourself in a crisis Make time for yourself by asserting your right to say no *Worry Less, Live More* Susan M.
