*Social and Environmental Dimensions of Organizations and Supply Chains* Marcus Brandenburg, Gerd J. Hahn, Tobias Rebs, 2017-07-13 This book focuses on environmental and social factors in international supply chains and industry networks It explores whether socially responsible and environmentally conscious operations are complementary or conflictive to economic targets The book elaborates on innovative approaches to manage the economic ecological and social performance in supply networks from different perspectives In addition it links sustainability to operational processes and illustrates specific application contexts Moreover it covers the social dimension of sustainability The rise of sustainability in management forces enterprises to revisit the concept of profitability that drives their operations Social standards and ecological targets represent critical factors that challenge industry networks The interplay of these goals requires new insights from scientific research and managerial practice New approaches and systems are needed to minimize environmental and social harms and to promote sustainability

*Philosophy of Educational Knowledge* W. Brezinka, 2012-12-06 For two reasons we are particularly proud to include Wolfgang Brezinka's *Philosophy of Educational Knowledge* in this series of books on *Philosophy of Education* The first is the philosophical interest of the work itself its remarkable scholarship and the importance of the philosophical positions will be obvious to all readers The second is that it brings to the English speaking world a wonderful example of educational philosophy as now being practiced in the German speaking world All too often philosophers in the Anglo American tradition have not seen the sort of perspective on educational thinking that infuses this work And since this book has been widely read in its original version it has had a considerable impact upon philosophy of educational research and science in the German speaking countries An understanding of this may help in the development of even more cooperative relations among students of education in all countries

C 1 B Macmillan D C Phillips PREFACE TO THE ENGLISH EDITION 1 am not unmindful how little can be done in a mere treatise on Logic or how vague and unsatisfactory all precepts of Method must necessarily appear when not practically exemplified in the establishment of a body of doctrine Doubtless the most effectual mode of showing how the sciences may be constructed would be to construct them

JOHN STUART MILL 1843 1 Parents have a duty to educate their children teachers to educate their pupils For this reason there is widespread interest in education Knowledge of education has long been offered under names like pedagogy pedagogics pedagogy or educational theory Originally this meant practical knowledge based on common sense Since the Enlightenment however attempts have been made to acquire scientific knowledge of education

**Microweighing in Vacuum and Controlled Environments** A.W. Czanderna, S.P. Wolsky, 2012-12-02 *Methods and Phenomena* 4 Their Applications in Science and Technology *Microweighing in Vacuum and Controlled Environments* focuses on the principles

methodologies and approaches involved in micro mass measurements The selection first elaborates on introduction and microbalance review beam microbalance design construction and operation and sources of error in microweighing in controlled environments Discussions focus on Brownian motion Knudsen forces gravitational forces microbalance construction and operation auxiliary equipment for operation of a vacuum microbalance undesirable disturbances or forces calibration techniques and classification of various types of microbalances The text then takes a look at physical adsorption studies and chemisorption studies with the vacuum microbalance simultaneous microgravimetric and residual gas analyzer measurements and simultaneous measurement of mass change and infrared spectra Topics include chemisorption results obtained on other solids and silver powders probing the surface phase quantitative information from adsorption and desorption measuring techniques and examples of physisorption measurements and their evaluation The manuscript examines unusual applications of the vacuum microbalance and high temperature reaction studies as well as empirical and theoretical rate laws permeation of water vapor through plastic membranes and measurement of permittivity and dielectric loss factor The selection is a valuable source of data for researchers wanting to explore microweighing in vacuum and controlled environments

**Johann Jakob Wettstein's Principles for New Testament Textual Criticism** Silvia Castelli, 2020-08-17 In Johann Jakob Wettstein's Principles for New Testament Textual Criticism Silvia Castelli investigates the genesis development and legacy of Wettstein's criteria for evaluating New Testament variant readings Wettstein's guidelines the *Animadversiones et cautiones* are the first well organized essay on New Testament text critical methodology first published in the *Prolegomena* to his New Testament in 1730 and republished with some changes in 1752 In his essay Wettstein presents a new text critical method based on the manuscripts evidence and on the critic's judgment Moving away from the authority invested in established printed editions Wettstein's methodology thus effectively promotes and enhances intellectual freedom The second part of this volume offers a critical text and an annotated English translation of Wettstein's text critical principles

**Computing Methods in Applied Sciences and Engineering** R. Glowinski, J. L. Lions, 2012-12-06 IRIA LABORIA Institut de Recherche d Informatique et d Automatique

**The Semiotic Sphere** Thomas A. Sebeok, Jean Umiker-Sebeok, 2012-12-06 Although semiotics has in one guise or another flourished uninterruptedly since pre Socratic times in the West and important semiotic themes have emerged and developed independently in both the Brahmanic and Buddhist traditions semiotics as an organized undertaking began to bloom only in the 1960s Workshops materialized with a perhaps surprising spontaneity over much of Europe Eastern and Western and in North America Thereafter others quickly surfaced almost everywhere over the literate globe Different places strategically allied themselves with different legacies but all had a common thrust to aim at a general theory of signs by way of a description of different sign systems their comparative analysis and their classification More or less permanent confederations were forged with the most diverse academic disciplines and amazingly varied frameworks were devised suited to the needs of the times and the sites to carry

the work of consolidation forward Bit by bit mutually supportive international networks were put together Today it can truly be asserted that semiotics has become a global enterprise This of course is far from saying that the map is uniform or even that world wide homogeneity is in the least desirable While our conjoint ultimate goal remains steadily in focus the multiplicity of avenues available for its realization is inherent in the advent ure of the search itself **Paul, Christian**

**Textuality, and the Hermeneutics of Late Antiquity**, 2023-12-07 The essays in the present volume celebrate the work of Margaret M Mitchell University of Chicago by engaging extending and challenging her ground breaking research in three areas 1 the letters of Paul the Apostle both authentic and pseudepigraphic 2 the emergence and rapid development of early Christian literary culture over the first few centuries of the cult s existence and 3 Late Antique interpretive practices and perspectives particularly among patristic readers of the scriptures *Retailing in a SCM-perspective* Herbert

Kotzab, Mogens Bjerre, 2005 The book presents a cutting edge SCM framework and integrates it with basic principles of operations management and marketing Out of this integration of standard marketing principles and innovative relationship marketing thinking comes new marketing strategic typologies and paradigms that promote the understanding of relationship dynamics and equips the reader with tools for identifying and implementing these strategies Handbook on Evaluation

Reinhard Stockmann, 2024-08-06 In this Handbook Reinhard Stockmann and other esteemed experts in the field provide a systematic and comprehensive exploration into the planning process implementation and utilisation of evaluations Covering the process and individual steps of evaluation in detail in chronological order and in terms of practical application it identifies the characteristics and standards that distinguish a professionally and competently conducted evaluation Variable

Structure Systems with Application to Economics and Biology R. R. Mohler, A. Ruberti, 2012-12-06 The proceedings of the Second US Italy Seminar on Variable Structure Systems is published in this volume Like the first seminar its conception evolved from common research interests on bilinear systems at the Istituto di Automatica of Rome University and at the Electrical and Computer Engineering Department of Oregon State University Again the seminar was focused on variable structure systems in general In this case however emphasis is given to applications in biology and economics along with theoretical investigations which are so necessary to establish a unified theory and to motivate further developments in these applications of social significance By bringing together the talents of social and biological scientists with those of engineers and mathematicians from throughout Italy and the United States the seminar was intended to yield a cross pollination of significant results and a base for more meaningful future research The editors are encouraged by the progress with which they hope the reader will agree is made in this direction No pretense is made however that completely satisfactory integration of theoretical results and applications has been accomplished at this time Among the more important conclusions which have resulted from this seminar are that bilinear and more general variable structure models arise in a natural manner from basic principles for certain biological and economic processes **Current Research in Biology Education**

Konstantinos Korfiatis, Marcus Grace, 2022-03-16 This book is a collection of full papers based on the peer reviewed submissions accepted for the ERIDOB 2020 conference which was cancelled due to COVID 19 ERIDOB brings together researchers in Biology Education from around the world to share and discuss their research work and results It is the only major international conference on biology education research and all the papers therefore are written by international researchers from across Europe and beyond which present the findings from a range of contemporary biology education research projects They are all entirely new papers describing new research in the field The papers are peer reviewed by experienced international researchers selected by the ERIDOB Academic Committee The papers reflect the ERIDOB conference strands by covering topics on Socioscientific issues Nature of Science and scientific thinking Teaching and learning in biology Perceptions of biology and biology education Textbook analysis Outdoor and environmental education By providing a collection of new research findings from many countries this book is a great resource for researchers and practitioners such as school college and university biology teachers around the world It is useful for training biology teachers and therefore valuable to teacher training institutions **School Management, Leadership and Improvement** Roman Capaul, Hans Seitz, Martin Keller, 2023-08-14 Roman Capaul Hans Seitz and Martin Keller have developed their own school management model based on their many years of experience in the training of school management members and on the basis of the St Gallen management model Their work shows the reader fundamental connections answers the central questions of school management and school development and contains numerous practical recommendations for action for everyday school management **Controlling and Berlin Balanced Scorecard Approach** Wilhelm Schmeisser, Lydia Clausen, Rebecca Popp, Carsten Ennemann, Olaf Drewicke, 2012-09-17 The Harvard Balanced Scorecard model by Kaplan and Norton wishes to make strategies communicable and more manageable for companies across all management levels within the company To this effect the balanced scorecard is a qualitative controlling or performance management instrument
