El Escribano the Notary:

Into the Archive Kathryn Burns, 2010-09-27 Writing has long been linked to power For early modern people on both sides of the Atlantic writing was also the province of notaries men trained to cast other people's words in official forms and make them legally true Thus the first thing Columbus did on American shores in October 1492 was have a notary record his claim of territorial possession It was the written notarial word backed by all the power of Castilian enforcement that first constituted Spanish American empire Even so the Spaniards who invaded America in 1492 were not fond of their notaries who had a dismal reputation for falsehood and greed Yet Spaniards could not do without these men Contemporary scholars also rely on the vast paper trail left by notaries to make sense of the Latin American past How then to approach the question of notarial truth Kathryn Burns argues that the archive itself must be historicized Using the case of colonial Cuzco she examines the practices that shaped document making Notaries were businessmen selling clients a product that conformed to local custom as well as Spanish templates Clients for their part were knowledgeable consumers with strategies of their own for getting what they wanted In this inside story of the early modern archive Burns offers a wealth of possibilities for seeing sources in fresh perspective Don Basilio J. Tolerance and Coexistence in Early Modern Spain Trevor J. Dadson, 2014 There has been a widely held consensus among historians that the Moriscos of Spain made little or no attempt to assimilate to the majority Christian culture around them and that this apparent obduracy made their expulsion between 1609 and 1614 both necessary and inevitable This book challenges that view Assimilation coexistence and tolerance between Old and New Christians in early modern Spain were not a fiction or a fantasy but could be a reality made possible by the thousands of ordinary individuals who did not subscribe to the negative vision of the Moriscos put around by the propagandists of the government and who had lived in peace and harmony side by side for generations For some this may be a new and surprising vision of early modern Spain which for too long and thanks in large part to the Black Legend has been characterized as a land of intolerance and fanaticism This book will help to rebalance the picture and show sixteenth and seventeenth century Spain in a new infinitely richer and more rewarding light Trevor J Dadson FBA is Professor of Hispanic Studies at Queen Mary University of London and is currently President of the Association of Hispanists of Great Britain Ireland In 2008 he was elected a Fellow of the British Academy
