Franco Americans Of New England Dreams And Realities:

Franco-Americans of New England Yves Roby, 2004-09-23 What became of these millions of immigrant descendants In The Franco Americans of New England Yves Roby describes the first person accounts of French Canadians immigration to New England as well as those of their descendants and the Franco Americans Roby seeks to explain the genesis and evolution of this group and raises insightful questions regarding not only the Franco Americans but also the integration of ethnocultural groups into Canadian society and the future of North American Francophonies **The Franco-Americans of New-England** Yves Roby, 2004 **The Franco-Americans of New England** Yves Roby, 2004 Between 1840 and 1930 approximately 900 000 people left Quebec for the United States and settled in French Canadian colonies in New England s industrial cities Yves Roby draws from first person accounts to explore the conversion of these immigrants and their descendants from French Canadian to Franco American The first generation of immigrants saw themselves as French Canadians who had relocated to the United States They were not involved with American society and instead sought to recreate their lost homeland The Franco Americans of New England reveals that their children however did not see a need to create a distinct society Although they maintained aspects of their language religion and customs they felt no loyalty to Canada and identified themselves as Franco American Roby s analysis raises insightful questions about not only Franco Americans but also the integration of ethno cultural groups into Canadian society and the future of North American Francophonies Race and Ethnicity in America Russell M. Lawson, Benjamin A. Lawson, 2019-10-11 Divided into four volumes Race and Ethnicity in America provides a complete overview of the history of racial and ethnic relations in America from pre contact to the present The five hundred years since Europeans made contact with the indigenous peoples of America have been dominated by racial and ethnic tensions During the colonial period from 1500 to 1776 slavery and servitude of whites blacks and Indians formed the foundation for race and ethnic relations After the American Revolution slavery labor inequalities and immigration led to racial and ethnic tensions after the Civil War labor inequalities immigration and the fight for civil rights dominated America s racial and ethnic experience From the 1960s to the present the unfulfilled promise of civil rights for all ethnic and racial groups in America has been the most important sociopolitical issue in America Race and Ethnicity in America tells this story of the fight for equality in America The first volume spans pre contact to the American Revolution the second the American Revolution to the Civil War the third Reconstruction to the Civil Rights Movement and the fourth the Civil Rights Movement to the present All volumes explore the culture society labor war and politics and cultural expressions of racial and ethnic groups *French Connections* Andrew N. Wegmann, Robert Englebert, 2020-11-04 French Connections examines how the movement of people ideas and social practices contributed to the complex processes and negotiations involved in being and becoming French in North America and the Atlantic World between the years 1600 and 1875 Engaging a wide range of topics from religious and diplomatic performance to labor

migration racialization and both imagined and real conceptualizations of Frenchness and Frenchification this volume argues that cultural mobility was fundamental to the development of French colonial societies and the collective identities they housed Cases of cultural formation and dislocation in places as diverse as Quebec the Illinois Country Detroit Haiti Acadia New England and France itself demonstrate the broad variability of French cultural mobility that took place throughout this massive geographical space Nevertheless these communities shared the same cultural root in the midst of socially and politically fluid landscapes where cultural mobility came to define and indeed sustain communal and individual identities in French North America and the Atlantic World Drawing on innovative new scholarship on Louisiana and New Orleans the editors and contributors to French Connections look to refocus the conversation surrounding French colonial interconnectivity by thinking about mobility as a constitutive condition of culture from this perspective separate spheres of French colonial culture merge to reveal a broader more cohesive cultural world The comprehensive scope of this collection will attract scholars of French North America early American history Atlantic World history Caribbean studies Canadian studies and frontier studies With essays from established award winning scholars such as Brett Rushforth Leslie Choquette Jay Gitlin and Christopher Hodson as well as from new progressive thinkers such as Mairi Cowan William Brown Karen L Marrero and Robert D Taber French Connections promises to generate interest and value across an extensive and diverse range of concentrations

Following Father Chiniquy Caroline Brettell, 2015-06-05 4 From First to Second Generation Demography Economy and Society of the French Canadian Immigrants 1860 1900 5 Disputes and Social Boundaries 6 The Miracles of St Anne The Historical Origins and Meaning of a Religious Pilgrimage *Encyclopedia of U.S. Labor and Working-class History* Eric Arnesen, 2007 Publisher Description **Manufacturing Catastrophe** Shaun S.

Nichols, 2024-01-12 American economic history has traditionally been told as a narrative of industrialization and affluence collapsing into globalization and industrial decay Offering a reappraisal of this pattern Manufacturing Catastrophe traces the successive rise and fall of the whaling textile garment electronics and high tech industries in Massachusetts over the past two hundred years It shows how business labor and political leaders repeatedly mobilized the lure of crisis cheap labor low taxes and generous manufacturing subsidies to pull and push both capital and workers across the continents repeatedly remaking the pioneering industrial cities of Fall River and New Bedford Workers ranging from migrating Azorean seamen to British weavers to Quebecois farmers and capitalists including mobile manufacturers globetrotting whalers and multinational conglomerators participated in the creation of regional growth and with it American industrial ascendancy Exploring the paradoxical and recurring coexistence of high unemployment and labor shortages in these cities this book explains why recovery and growth have not necessarily translated into long term prosperity In doing so it illuminates how economic catastrophe was ironically a critical ingredient in the making of America's industrial hegemony *Disaster Citizenship* Jacob A.C. Remes, 2015-12-30 A century ago governments buoyed by Progressive Era beliefs began to assume greater responsibility

for protecting and rescuing citizens Yet the aftermath of two disasters in the United States Canada borderlands the Salem Fire of 1914 and the Halifax Explosion of 1917 saw working class survivors instead turn to friends neighbors coworkers and family members for succor and aid Both official and unofficial responses meanwhile showed how the United States and Canada were linked by experts workers and money In *Disaster Citizenship* Jacob A C Remes draws on histories of the Salem and Halifax events to explore the institutions both formal and informal that ordinary people relied upon in times of crisis He explores patterns and traditions of self help informal order and solidarity and details how people adapted these traditions when necessary Yet as he shows these methods though often quick and effective remained illegible to reformers Indeed soldiers social workers and reformers wielding extraordinary emergency powers challenged these grassroots practices to impose progressive solutions on what they wrongly imagined to be a fractured social landscape

Horrible Mothers Loïc Bourdeau, 2019-12-01 For too long the main narratives of motherhood have been oppressive and exclusionary frequently ignoring issues of female identity especially regarding those not conforming to traditional female stereotypes *Horrible Mothers* offers a variety of perspectives for analyzing representations of the mother in francophone literature and film at the turn of the twenty first century in North America including Qu bec Ontario New England and California Contributors reexamine the horrible mother paradigm within a broad range of sociocultural contexts from different locations to broaden the understanding of mothering beyond traditional ideology The selections draw from long established scholarship in women s studies as well as from new developments in queer studies to make sense of and articulate strategies of representation to show how contemporary family models are constantly evolving reshaping and moving away from heteronormative expectations and to reposition mothers as subjects occupying the center of their own narrative rather than as objects The contributors engage narratives of mothering from myriad perspectives referencing the works of writers or filmmakers such as Marguerite Andersen Nelly Arcan Gr goire Chabot Xavier Dolan Nancy Huston and Lucie Joubert

Kerouac Hassan Melehy, 2017-09-21 Given Jack Kerouac s enduring reputation for heaving words onto paper it might surprise some readers to see his name coupled with the word poetics But as a native speaker of French he embarked on his famous spontaneous prose only after years of seeking techniques to overcome the restrictions he encountered in writing in a single language English The result was an elaborate poetics that cannot be fully understood without accounting for his bilingual thinking and practice Of the more than twenty five biographies of Kerouac few have seriously examined his relationship to the French language and the reason for his bilingualism the Qu bec Diaspora Although this background has long been recognized in French language treatments it is a new dimension in Anglophone studies of his writing In a theoretically informed discussion Hassan Melehy explores how Kerouac s poetics of exile involves meditations on moving between territories and languages Far from being a na ve pursuit Kerouac s writing practice not only responded but contributed to some of the major aesthetic and philosophical currents of the twentieth century in which notions such as otherness and nomadism took shape Kerouac

Language Poetics and Territory offers a major reassessment of a writer who despite a readership that extends over much of the globe remains poorly appreciated at home

Catholics across Borders Mark Paul Richard, 2024-02-01 Catholics across Borders examines the evolution of a French speaking population in Plattsburgh over a century Contrasting with New England's francophone textile mill centers Plattsburgh featured interethnic cooperation instead of conflict The book explores how international events affected French Catholic identity at the local level drawing from French language newspapers and Catholic archives Transnational Catholic migrants from Canada and France played a significant role in shaping local regional national and international history in Plattsburgh and beyond contributing to the larger narrative of the U S immigrant experience This study provides a historic perspective for understanding the present

Multicultural America Carlos E. Cortés, 2013-08-15 This comprehensive title is among the first to extensively use newly released 2010 U S Census data to examine multiculturalism today and tomorrow in America This distinction is important considering the following NPR report by Eyder Peralta Based on the first national numbers released by the Census Bureau the AP reports that minorities account for 90 percent of the total U S growth since 2000 due to immigration and higher birth rates for Latinos According to John Logan a Brown University sociologist who has analyzed most of the census figures The futures of most metropolitan areas in the country are contingent on how attractive they are to Hispanic and Asian populations Both non Hispanic whites and blacks are getting older as a group These groups are tending to fade out he added Another demographer William H Frey with the Brookings Institution told The Washington Post that this has been a pivotal decade We're pivoting from a white black dominated American population to one that is multiracial and multicultural Multicultural America A Multimedia Encyclopedia explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of specific ethnic groups and their histories but also covering the full spectrum of issues flowing from the increasingly multicultural canvas that is America today Pedagogical elements include an introduction a thematic reader's guide a chronology of multicultural milestones a glossary a resource guide to key books journals and Internet sites and an appendix of 2010 U S Census Data Finally the electronic version will be the only reference work on this topic to augment written entries with multimedia for today's students with 100 videos with transcripts from Getty Images and Video Vault the Agence France Press and Sky News as reviewed by the media librarian of the Rutgers University Libraries working in concert with the title's editors

Roads to Confederation Jacqueline D. Krikorian, David R. Cameron, Marcel Martel, Andrew W. McDougall, Robert C. Vipond, 2017-10-31 Roads to Confederation surveys the way in which scholars from different disciplines writing in different periods viewed the Confederation process and the making of Canada Recognizing that Confederation has been traditionally defined as a process affecting only British North America's Anglophone and Francophone communities Roads to Confederation offers a broader approach to the making of Canada and includes scholarship written over 145 years Volume 2 of this collection focuses on three major themes It presents research from the perspective of Canada's regions with

one chapter focusing exclusively on the competing understandings of 1867 from the perspective of Quebec Next it includes material pertaining to the geopolitical underpinnings of 1867 that addresses the relationship between Confederation the U S Civil War and American expansionism Great Britain and war in the European theatre Also included is leading scholarship by Stanley B Ryerson Adele Perry Fernand Dumond Ian McKay and James W Daschuk that questions whether Confederation itself was a formative event Together with its companion volume this is an invaluable resource for those who wish to deepen their understanding of the historical foundations on which Canada rests

Mad Flight? John Zucchi, 2018-04-30 On 15 September 1896 nearly a thousand people prepared to board a steamer in the port of Montreal headed for Santos Brazil and on to the coffee plantations of S o Paulo while a crowd of a few thousand pleaded with them to stay Families were split as wives boarded without husbands or husbands without wives While many prospective migrants were convinced to get off the boat close to five hundred people departed for South America Ultimately the experience was a disaster Some died on board the ship others in Brazil yet others became indigent labourers on coffee plantations or beggars on the streets of S o Paulo The vast majority returned to Canada many of them helped back by British consular representatives While the story was widely covered in the international press at the time a century later it is virtually unknown In *Mad Flight* John Zucchi consults a range of primary and secondary sources including archival material in Canada Brazil France and the United Kingdom to recreate the stories of the migrants and open up an important research question why do some people migrate on impulse and begin a journey that will almost inevitably end up in failure Historical studies on migration most often account for successful outcomes but rarely consider why some immigrant experiences are destined to fail *Mad Flight* uncovers the history of an otherwise little known episode of Canadian migration to Brazil and provokes further discussion and debate

The Bourgeois Frontier Jay Gitlin, 2009-12-01 Histories tend to emphasize conquest by Anglo Americans as the driving force behind the development of the American West In this fresh interpretation Jay Gitlin argues that the activities of the French are crucial to understanding the phenomenon of westward expansion The Seven Years War brought an end to the French colonial enterprise in North America but the French in towns such as New Orleans St Louis and Detroit survived the transition to American rule French traders from Mid America such as the Chouteaus and Robidoux of St Louis then became agents of change in the West perfecting a strategy of middle grounding by pursuing alliances within Indian and Mexican communities in advance of American settlement and re investing fur trade profits in land town sites banks and transportation The *Bourgeois Frontier* provides the missing French connection between the urban Midwest and western expansion

The Palgrave Handbook of Methodological Individualism Nathalie Bulle, Francesco Di Iorio, 2023-12-28 While methodological individualism is a fundamental approach within the social sciences it is often misunderstood This highlights the need for a discursive and up to date reference work analyzing this approach s classic arguments and assumptions in the light of contemporary issues in sociology economics and philosophy This two volume handbook presents the first

comprehensive overview of methodological individualism Chapters discuss historical and contemporary debates surrounding this central approach within the social sciences as well as cutting edge developments related to the individualist tradition with philosophical and scientific implications Bringing together multiple contributions from the world's leading experts on this important tradition of theorizing this collective endeavor provides teachers researchers and students in sociology economics and philosophy with a reliable and critical understanding of the founding principles key thinkers and intellectual development of MI since the late 19th century

French North America in the Shadows of Conquest Ryan André Brasseaux, 2020-12-29 French North America in the Shadows of Conquest is an interdisciplinary postcolonial and continental history of Francophone North America across the long twentieth century revealing hidden histories that so deeply shaped the course of North America Modern French North America was born from the process of coming to terms with the idea of conquest after the fall of New France The memory of conquest still haunts those 20 million Francophones who call North America home The book re-examines the contours of North American history by emphasizing alliances between Acadians Cajuns and Québécois and French Canadians in their attempt to present a unified challenge against the threat of assimilation linguistic extinction and Anglophone hegemony It explores cultural trauma narratives and the social networks Francophones constructed and shows how North American history looks radically different from their perspective This book presents a missing chapter in the annals of linguistic and ethnic differences on a continent defined in part by its histories of dispossession It will be of interest to scholars and students of American and Canadian history particularly those interested in French North America as well as ethnic and cultural studies comparative history the American South and migration

The Transnational Beat Generation N. Grace, 2012-03-15 This collection maps the Beat Generation movement exploring American Beat writers alongside parallel movements in other countries that shared a critique of global capitalism Ranging from the immediate post World War II period and continuing into the 1990s the essays illustrate Beat participation in the global circulation of a poetics of dissent

Visibly Canadian Karen Stanworth, 2014-11-01 Spectacular scientific and educational cultural practices were used to establish and define public identities in the British colonies of nineteenth century Canada In *Visibly Canadian* Karen Stanworth argues that visual representations were the era's primary mode of expressing identity and shows how the citizenry of Quebec and Ontario was or was not represented in the visual culture of the time Through nine case studies each representing key moments of identity formation and contestation Stanworth investigates how a broad range of cultural phenomena from fine arts to institutional histories to public spectacles were used to order resist and articulate identities within specific social and economic contexts The negotiation and planning underpinning civic culture are evident in rare moments of compromise such as the surprising proposal from the Saint Jean Baptiste Society to merge their annual parade with the celebration of Queen Victoria's Diamond Jubilee in 1897 Equally astounding is the scale of nineteenth century public spectacles reenactments of Victorian scenes of war often attracted crowds of upwards of 10 000 people

Illustrated with over fifty images many unseen for over a century Visibly Canadian establishes the extraordinary significance of artwork and public spectacles in cutting across language religion and class to tell stories of nationhood belonging and difference
