François Villon in his Works Michael Freeman,2022-07-18

Despite the hundreds of books and scholarly articles which have been devoted to him François Villon remains a mysterious figure who in the words of the sort of paradox he applies to himself appears both near yet far Near because he seems to articulate feelings to which readers down the ages have been able to respond far because the world he lived in seems to a modern reader a tantalizingly foreign one No analysis of the poet's work is complete without some description of that world in all its physical and mental strangeness This new book will also show how Villon consciously fashioned his own image manipulating his original readers and offering them a version of himself and his talents designed to amuse impress move and perhaps deceive For he had been a villain as well as a poet and he uses selected episodes from his past together with a very personal treatment of the great literary and moral themes of his age not only to express his own conflicting emotions but also to demonstrate that he is a reformed man who needs and deserves sympathy and understanding This consummate artist comes across in his deliberately ambiguous work as a loveable rogue by turns jaunty and maudlin The baffling persona he created raises many questions The author of the present study looks in particular at the reception of Villon's work in his own day suggesting that it was meant to be presented and perhaps performed as part of a process of rehabilitation and a return to the fold he had been forced to leave by his own behaviour The poet's work might thus help him achieve social acceptance and the longed for *maison et couche molle* However events on the streets of Paris in late 1462 would silence his voice forever

The Politics of Obscenity in the Age of the Gutenberg Revolution Peter Frei,Nelly

Labère,2021-12-30 What does obscene mean What does it have to say about the means through which meaning is produced and received in literary artistic and more broadly social acts of representation and interaction Early modern France and Europe faced these questions not only in regard to the political religious and artistic reformations for which the Renaissance stands but also in light of the reconfiguration of its mediasphere in the wake of the invention of the printing press The Politics of Obscenity brings together researchers from Europe and the United States in offering scholars of early modern Europe a detailed understanding of the implications and the impact of obscene representations in their relationship to the Gutenberg Revolution which came to define Western modernity

Urban Poetics in the French Renaissance Elisabeth

Hodges,2016-12-05 The city view forms the jumping off point for this innovative study which explores how the concept of the city relates to the idea of the self in early modern French narratives At a time when print culture cartography and literature emerged and developed together the city view a picture or topographic image of a city became one of the most distinctive and popular products of the early modern period Through a construct she calls urban poetics Elisabeth Hodges draws out the relationship between the city and the self showing the impact of the city in cultural production to be so profound that it

cannot be extricated from what we know by the name of subjectivity Each chapter of the book brings focus to a crucial text that features descriptions of the self in the city by the writers Villon Corrozet Sc ve and Montaigne and investigate how representations of urban experience prepared the way for the emergence of the autonomous subject Charting a course between cartography literary studies and cultural history this study opens new vistas on some of the period s defining problems the book the subject the city *Francois Villon and His Poetry as Depicted for English Readers* Marian Laird Edmonds,1941 *Urban Space in the Middle Ages and the Early Modern Age* Albrecht Classen,2009-12-15 Although the city as a central entity did not simply disappear with the Fall of the Roman Empire the development of urban space at least since the twelfth century played a major role in the history of medieval and early modern mentality within a social economic and religious framework Whereas some poets projected urban space as a new utopia others simply reflected the new significance of the urban environment as a stage where their characters operate very successfully As today the premodern city was the locus where different social groups and classes got together sometimes peacefully sometimes in hostile terms The historical development of the relationship between Christians and Jews for instance was deeply determined by the living conditions within a city By the late Middle Ages nobility and bourgeoisie began to intermingle within the urban space which set the stage for dramatic and far reaching changes in the social and economic make up of society Legal historical aspects also find as much consideration as practical questions concerning water supply and sewer systems Moreover the early modern city within the Ottoman and Middle Eastern world likewise finds consideration Finally as some contributors observe the urban space provided considerable opportunities for women to carve out a niche for themselves in economic terms

"*Por le soie amisté*" ,2021-11-01 These essays are a tribute to one of North America s most distinguished scholars of Old French literature Norris J Lacy Dealing with a wide range of medieval works they reflect the honorand s own scholarly interests in medieval narrative and its reception in later periods Together the contributions are witness not only to the esteem in which Norris Lacy is held by the profession but also to the collegial spirit of the international community of medievalists **The Symphonic Poem in Britain, 1850-1950** Michael Allis,Paul Watt,2020 The Symphonic Poem in Britain 1850 1950 aims to raise the status of the genre generally and in Britain specifically The volume reaffirms British composers confidence in dealing with literary texts and takes advantage of the contributors interdisciplinary expertise by situating discussions of the tone poem in Britain in a variety of historical analytical and cultural contexts This book highlights some of the continental models that influenced British composers and identifies a range of issues related to perceptions of the genre Richard Strauss became an important figure in Britain during this time not only in terms of the clear impact of his tone poems but the debates over their value and even their ethics A focus on French orchestral music in Britain represents a welcome addition to scholarly debate and links to issues in several other chapters The historical development of the genre the impact of compositional models issues highlighted in critical reception as well as programming strategies all contribute

to a richer understanding of the symphonic poem in Britain Works by British composers discussed in more detail include William Wallace's Villon 1909 Gustav Holst's Beni Mora 1909 10 Hubert Parry's From Death to Life 1914 John Ireland's Mai Dun 1921 and Frank Bridge's orchestral poems 1903 15 The Waxing of the Middle Ages Charles-Louis Morand-Métivier, Tracy Adams, 2023-04-14 Johan Huizinga's much loved and much contested Autumn of the Middle Ages first published in 1919 encouraged an image of the Late French Middle Ages as a flamboyant but empty period of decline and nostalgia Many studies particularly literary studies have challenged Huizinga's perceptions of individual works or genres Still the vision of the Late French and Burgundian Middle Ages as a sad transitional phase between the High Middle Ages and the Renaissance persists Yet a series of exceptionally significant cultural developments mark the period The Waxing of the Middle Ages sets out to provide a rich complex and diverse study of these developments and to reassert that late medieval France is crucial in its own right The collection argues for an approach that views the late medieval period not as an afterthought or a blind spot but as a period that is key in understanding the fluidity of time traditions culture and history Each essay explores some cultural form to borrow Huizinga's expression to expose the false divide that has dominated modern scholarship **The New Book-illustration in France** Léon Pichon, 1924 **Telling the Story in the Middle Ages** Kathryn A. Duys, Elizabeth Nicole Emery, Laurie Postlewait, 2015 Much of our modern understanding of medieval society and cultures comes through the stories people told and the way they told them Storytelling was for this period not only entertainment it was central to the law religious ritual and teaching as well as the primary mode of delivering news The essays in this volume raise and discuss a number of questions concerning the strategies contexts and narratological features of medieval storytelling They look particularly at who tells the story the audience how a story is told and performed and the manuscript and social context for such tales Laurie Postlewait is Senior Lecturer Department of French Barnard College Kathryn Duys is Associate Professor Department of English and Foreign Languages University of St Francis Elizabeth Emery is Professor of French Montclair State University *The Life of Ezra Pound* Noel Stock, 2013-05-13 First published in 1970 this is a detailed and balanced biography of one of the most controversial literary figures of the twentieth century Ezra Pound an American who left home for Venice and London at the age of twenty three was a leading member of the modern movement a friend and helper of Joyce Eliot Yeats Hemingway an early supporter of Lawrence and Frost As a critic of modern society his far reaching and controversial theories on politics economics and religion led him to broadcast over Rome Radio during the Second World War after which he was indicted for treason but declared insane by an American court He then spent more than twelve years in St Elizabeth's Hospital for the Criminally Insane in Washington D C In 1958 the charges against him were dropped and he returned to Italy where he had lived between 1924 and 1945 *Saturday Review of Literature* , 1926

Sappho to Valéry John Frederick Nims, 1990-07-01 Poems in original languages with English translations *The Athenaeum* , 1915 **Ezra Pound's Early Verse and Lyric Tradition** Robert Stark, 2012-10-15 Traces the lyricism and

musicality in Pound's early verse through to his radical Modernist style Robert Stark argues that Pound learned how to write poetry more or less as if it was a foreign tongue or poetic jargon with a unique lexicon grammar and even morphology and that his most innovative poetry is the result of his ambivalent orientation towards different European literary traditions Stark contextualizes Pound's poetic craft by examining his relationship to the Mediaeval and Classical originators of the methods he employs and by considering the practice and criticism of his immediate Victorian and Romantic predecessors He explores the influence of poets such as Francois Villon Guido Cavalcanti Robert Burns Robert Browning Algernon Charles Swinburne and Walt Whitman on Pound's lyrical style For Stark Pound's multi vocalism arises out of his interest in dialect and the acoustic qualities of speech which leads to a modern barbarous language marked by polysemy and heterogeneity **The Reader's Adviser**, 1986
