Francois Mitterrand A Political Odyssey:

François Mitterrand, a Political Odyssey Denis MacShane, 1983 *Francois Mitterrand*, 1982 **Francois Mitterrand** Alistair Cole, 2018-10-24 Francois Mitterrand is one of France's most famous twentieth century politicians yet interpretations of his values and leadership vary widely Alistair Cole's in depth study starts with a chronological overview of Mitterrand's career and proceeds with a policy based assessment of Mitterrand's presidency By evaluating Mitterrand's policies in relation to various key roles such as the party leader the President the dispenser of patronage the European statesman and the World Leader this book places his leadership in comparative perspective and offers a new understanding of him as an individual political leader This fully up dated paperback edition will be invaluable for students of contemporary European politics as well as those interested in the career of one of post war Europe's leading statesmen François Mitterrand Ronald Tiersky, 2003 Tiersky examines the three major themes of Mitterrand's presidency socialism national reconciliation and the reconstruction of Europe and shows that on each count Mitterrand left a decisive mark **François Mitterrand** Denis MacShane, 1982 Beschrijving van leven en politieke ontwikkeling van de socialistische Franse president geb 1916

De Gaulle's Legacy W. Nester, 2014-12-16 This book explores the following What is the art of power What is the art of French power How did Charles de Gaulle understand and assert power establishing the Fifth Republic and breaking centuries of political instability How well or poorly have his successors wielded the art of French power to define defend or enhance French interests **The 20th Century Go-N** Frank N. Magill, 2014-03-05 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history

This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography

The Left's Dirty Job W. Rand Smith, 2010-06-15 The Left's Dirty Job compares the experiences of recent socialist governments in France and Spain examining how the governments of Francois Mitterrand 1981-1995 and Felipe Gonzalez 1982-1996 provide a key test of whether a leftist approach to industrial restructuring is possible This study argues that in fact both governments's policies generally resembled those of other European governments in their emphasis on market adapting measures that eliminated thousands of jobs while providing income support for displaced workers Featuring extensive field work and interviews with over one hundred political labor and business leaders this study is the first systematic comparison of these important socialist governments *Cold War and Decolonization in Guinea, 1946-1958* Elizabeth Schmidt, 2007-09-25 In September 1958 Guinea claimed its independence rejecting a constitution that would have relegated it to junior partnership in the French Community In all the French empire Guinea was the only territory to vote No

Orchestrating the No vote was the Guinean branch of the Rassemblement D mocratique Africain RDA an alliance of political parties with affiliates in French West and Equatorial Africa and the United Nations trusts of Togo and Cameroon Although Guinea s stance vis vis the 1958 constitution has been recognized as unique until now the historical roots of this phenomenon have not been adequately explained Clearly written and free of jargon Cold War and Decolonization in Guinea argues that Guinea s vote for independence was the culmination of a decade long struggle between local militants and political leaders for control of the political agenda Since 1950 when RDA representatives in the French parliament severed their ties to the French Communist Party conservative elements had dominated the RDA In Guinea local cadres had opposed the break Victimized by the administration and sidelined by their own leaders they quietly rebuilt the party from the base Leftist militants their voices muted throughout most of the decade gained preeminence in 1958 when trade unionists students the party s women s and youth wings and other grassroots actors pushed the Guinean RDA to endorse a No vote Thus Guinea s rejection of the proposed constitution in favor of immediate independence was not an isolated aberration Rather it was the outcome of years of political mobilization by activists who despite Cold War repression ultimately pushed the Guinean RDA to the left The significance of this highly original book based on previously unexamined archival records and oral interviews with grassroots activists extends far beyond its primary subject In illuminating the Guinean case Elizabeth Schmidt helps us understand the dynamics of decolonization and its legacy for postindependence nation building in many parts of the developing world Examining Guinean history from the bottom up Schmidt considers local politics within the larger context of the Cold War making her book suitable for courses in African history and politics diplomatic history and Cold War history

Politics in Western Europe: Second Edition , **The French Left and the Fifth Republic** John Gaffney,1989-02-06 An examination of the ways in which the French Left adapted through a series of transformations to the exigencies of presidentialism and the myths which underpin it The study aims to illustrate the crucial role played by language in the political practice of representative democracy **Francois Mitterrand** Sally Baumann-Reynolds,1995-05-19 This book traces the prepresidential career of the Socialist French president covering his early years his participation in the Vichy government the Resistance and the governments of the Fourth Republic and his 23 year march to the pinnacle of national power as leader of the French opposition during the first decades of the Fifth Republic It is the story of a politician who built a solid majority starting from scratch in adopted political territory a chaotic world of utopists anarchists purists ideologues and disciplined militants in short the French left Baumann Reynolds discusses the whats Mitterrand s socialism his republicanism his Machiavellianism and the hows how he reacted to unpredictable events how he took over the Socialist Party and how he recuperated the communist vote This is the first English language biography by an American sensitive to the gaps in U S readers knowledge of French politics **Political Ecumenism** Geoffrey Adams,2006-11-06 Adams examines the contributions of such major Fran ais libres as Ren Cassin Pierre Mend s France and Jacques Soustelle and

explores de Gaulle's troubled relations with Churchill and Roosevelt. The opportunity for Gaullists to offer full membership to the fourth religious family, Algeria's Muslim majority following the liberation of French North Africa, is also considered. In an epilogue, Adams reflects on the impact of Free France's political ecumenism in the postwar era.

King of the Mountain Arnold M. Ludwig, 2002-01-01. People may choose to ignore their animal heritage by interpreting their behavior as divinely inspired, socially purposeful, or even self-serving, all of which they attribute to being human, but they masticate, fornicate, and procreate much as chimps and apes do, so they should have little cause to get upset if they learn that they act like other primates when they politically agitate, debate, abdicate, placate, and administrate. Too from the book *King of the Mountain* presents the startling findings of Arnold M. Ludwig's eighteen-year investigation into why people want to rule. The answer may seem obvious: power, privilege, and perks. But any adequate answer also needs to explain why so many rulers cling to power even when they are miserable, trust nobody, feel besieged, and face almost certain death. Ludwig's results suggest that leaders of nations tend to act remarkably like monkeys and apes in the way they come to power, govern, and rule. Profiling every ruler of a recognized country in the twentieth century, over 1,900 people in all, Ludwig establishes how rulers came to power, how they lost power, the dangers they faced, and the odds of their being assassinated, committing suicide, or dying a natural death. Then, concentrating on a smaller sub-set of 377 rulers for whom more extensive personal information was available, he compares six different kinds of leaders, examining their characteristics, their childhoods, and their mental stability or instability to identify the main predictors of later political success. Ludwig's penetrating observations, though presented in a lighthearted and entertaining way, offer important insight into why humans have engaged in war throughout recorded history, as well as suggesting how they might live together in peace.

Politics and Security in the Southern Region of the Atlantic Alliance Douglas T. Stuart, 1988-06-18

The French Defence Debate R. Utley, 2000-08-22. The French Defence Debate examines assertions of consensus and continuity in and surrounding France's defence since 1958, with primary reference to the political career of François Mitterrand. Mitterrand's influence over defence and security before and after his election to the presidency is often underestimated. Nonetheless, his impact was substantial, if ultimately for his lack of concern to preserve consensus and his reluctance to instigate necessary changes in France's defence, despite the end of the Cold War and the military deficiencies and limitations of national independence it exposed.

France and the Algerian Conflict Camille Bonora-Waisman, 2017-11-01. This title was first published in 2003. *France and the Algerian Conflict* is a study of the French response to political upheavals in Algeria since 1988. In a very short period of time, Algeria has lived through a fast-track democratization process, a coup d'état, and an upsurge of violence bringing the country to the brink of civil war. France's policy towards its ex-colony during this period of political and social hardship has been very tortuous. French leaders from the Left or the Right have shifted back and forth from supporting conciliation in Algeria to backing eradication. This book retraces the main events that occurred in Algeria from 1988 to 1995 and analyses the successive policy shifts of the French government.

both in terms of political discourse and policy means In particular it seeks answers to the issue of the French opposition to the Algerian militant Islamic Salvation Front FIS **The Cold War** J.P.D. Dunbabin,2014-01-14 The Cold War offers a brief but detailed treatment of one of the most complex eras of the 20th Century In this fully revised second edition J P D Dunbabin drawing on international scholarship and using much new material from communist sources describes a world in which covert operations could be as important as outright diplomacy soft power as influential as hard and in which competing ideologies ruled the hearts as much as the heads of the leaders in power Dunbabin s account is global in scope taking into account the importance of players beyond the superpowers and shedding light on the proxy conflicts such as those in Africa and the Middle East that if not caused by the continuing stalemate between the great powers were used as weapons within it Broadcasting and Politics in Western Europe Raymond Kuhn,2005-06-28 First Published in 1985 Routledge is an imprint of Taylor Francis an informa company In Sickness and In Power David Owen,2022-03-17 In Sickness and In Power looks at illness in heads of government business and military leaders between 1901 and 2007 It considers how illness and therapy both physical and mental affect the decision making of heads of government engendering folly in the sense of foolishness stupidity or rashness Owen is particularly interested in leaders who were not ill in the conventional sense whose cognitive faculties functioned well but who developed a hubristic syndrome that powerfully affected their performance and their actions As we learn here they suffer a loss of capacity and become excessively self confident and contemptuous of advice that runs counter to what they believe or sometimes of any advice at all Long fascinated with the inter relationship between politics and medicine David Owen uses his deep knowledge of both to look at sickness in political leaders Owen expertly scrutinises such diverse political personalities as Sir Anthony Eden at the time of Suez in 1956 John F Kennedy and the Bay of Pigs fiasco in 1961 the last Shah of Iran and President Mitterrand of France who suffered from prostate cancer The author also devotes a chapter to the hubristic behaviour and relationship between President Bush and Prime Minister Blair The book ends by outlining some of the safeguards that society needs to address as a consequence of illness in heads of government Revised and Updated Edition for 2016 including a new chapter entitled Hubris Syndrome in the Military
