Judith T. Marcus, Zoltan Tar

Frankfurt School:

Frankfurt School J. M. Bernstein, 1994 The Frankfurt School refers to the members associated with the Institut für Sozialforschung Institute for Social Research which was founded in Frankfurt in 1923 The work of this group is generally agreed to have been a landmark in twentieth century social science It is of seminal importance in our understanding of culture progress politics production consumption and method This set of six volumes provides a full picture of the School by examining the important developments that have occurred since the deaths of the original core of Frankfurt scholars All the major figures Adorno Horkheimer Marcuse Benjamin are represented In particular the important post war work of Jürgen Habermas is fully assessed The collection also covers the work of many of the minor figures associated with the School who have been unfairly neglected in the past resulting in the most complete survey and guide to the oeuvre of the Frankfurt School The Frankfurt School on Religion Eduardo Mendieta, 2005-07-22 In The Frankfurt School on Religion Mendieta

has brought together a selection of readings and essays which will make available the significant and much needed contribution of the thinkers of the Frankfurt School on the religion **The Frankfurt School and Its Critics** T. B. Bottomore, 2002 Controversial look at the School's contribution to modern sociology examining issues previously not discussed such as the neglect of history and political economy by the critical theorists and the relationship of the School to radical movements *The Frankfurt School*, 2011 Originally published New York Wiley c1977 **Origin and Significance of the Frankfurt School (RLE Social Theory)** Phil Slater, 2020-07-26 The term Frankfurt School is used widely but sometimes loosely to describe both a group of intellectuals and a specific social theory Focusing on the formative and most radical years of the Frankfurt School during the 1930s this study concentrates on the Frankfurt School's most original contributions made to the work on a critical theory of society by the philosophers Max Horkheimer and Herbert Marcuse the psychologist Erich Fromm and the aesthetician Theodor W Adorno Phil Slater traces the extent and ultimate limits of the Frankfurt School's professed relation to the Marxian critique of political economy In considering the extent of the relation to revolutionary praxis he discusses the socio economic and political history of Weimar Germany in its descent into fascism and considers the work of such people as Karl Korsch Wilhelm Reich Walter Benjamin and Bertolt Brecht which directs a great deal of critical light on the Frankfurt School While pinpointing the ultimate limitations of the Frankfurt School's frame of reference Phil Slater also looks at the role their work played largely against their wishes in the emergence of the student anti authoritarian movement in the 1960s He shows that in particular the analysis of psychic and cultural manipulation was central to the young rebels theoretical armour but that even here the lack of economic class analysis seriously restricts the critical edge of the Frankfurt School's theory His conclusion is that the only way forward is to rescue the most radical roots of the Frankfurt School's work and to recast these in the context of a practical theory of economic and political emancipation

The Frankfurt School, Jewish Lives, and Antisemitism Jack Jacobs, 2014-09-25 The history of the Frankfurt School

cannot be fully told without examining the relationships of Critical Theorists to their Jewish family backgrounds Jewish matters had significant effects on key figures in the Frankfurt School including Max Horkheimer Theodor W Adorno Erich Fromm Leo Lowenthal and Herbert Marcuse At some points their Jewish family backgrounds clarify their life paths at others these backgrounds help to explain why the leaders of the School stressed the significance of antisemitism In the post Second World War era the differing relationships of Critical Theorists to their Jewish origins illuminate their distinctive stances toward Israel This book investigates how the Jewish backgrounds of major Critical Theorists and the ways in which they related to their origins impacted upon their work the history of the Frankfurt School and differences that emerged among them over time

The Frankfurt School Rolf Wiggershaus, 1995-07-05 This widely acclaimed book is a comprehensive and authoritative account of the history and ideas of the Frankfurt School the most important and influential group of leftist intellectuals philosophers and social theorists in Germany this century Wiggershaus traces the history of the School from its establishment in the early years of the Weimar Republic through the period of exile in America to the post war phase in Frankfurt and the emergence of a younger generation of critical theorists in the 1960s He combines biographical profiles of the key figures in the Frankfurt School including Horkheimer Adorno Benjamin Marcuse Fromm Neumann Pollock Kirchheimer and Habermas with a rigorous analysis of their main theories and ideas Through the careful use of documentary material much of which has only recently become available Wiggershaus is able to shed new light on internal disputes and controversies among members of the School The Frankfurt School will be welcomed by students and researchers in the social sciences and philosophy modern history and German studies as well as anyone interested in the history and influence of the Frankfurt School

The Frankfurt School Zoltan Tarr, 2017-07-12 The Frankfurt School refers to a school of neo Marxist interdisciplinary social theory particular established at the Institute for Social Research at the University of Frankfurt Germany in 1923 Tarr s investigation focuses on three key issues The first is the Frankfurt School s original program of providing a general theory of modern capitalist society The second is the claim to represent a continuation of the original Marxian theory through the school s Critical Theory The third is the scientific validity of Critical Theory in light of the generally accepted canons of the natural and social sciences Tarr proposes that in the last analysis Critical Theory is simply another existentialist philosophy As such it is a specific expression of certain socio historical conditions and of the situation of a particular social group the marginal Jewish bourgeois intelligentsia of Central Europe This European Jewish contribution became apparent after the great metaphysical impulse of the pre Socratic and Platonic Aristotelian philosophies had run their respective courses Both philosophies represented philosophical schools of ethics and both wanted to help man take up a defense against the storms of passions and fate It was from these ancient sources that the Frankfurt School emerged The Frankfurt School derived its impetus in the twentieth century in which Tarr claims a shift occurred from the ontological to the subjective realm This in turn led to deep changes in philosophical theory and practice which led to a more psychologically

oriented mode of social thought This in depth study covers the entire career of the Frankfurt School s Critical Theory from 1923 to 1974 It does so by applying the same standards of criticism to its primary doctrines as it turned on other theories but with a keen sense of balance and fairness **Rethinking the Frankfurt School** Jeffrey T. Nealon,Caren Irr,2012-02-01 A reexamination of key Frankfurt School thinkers Benjamin Adorno Horkheimer Marcuse in the light of contemporary theory and cultural studies across the disciplines Rethinking the Frankfurt School asks what consequences such a rethinking might have for study of the Frankfurt School on its own terms Ironically contemporary theorists find themselves turning back toward the Frankfurt School precisely for the reasons it was once scorned for a notion of subjects whose desires are less liberated and multiplied than they are produced and regulated by a far reaching very nearly totalizing global culture industry Indeed as new questions concerning globalization and economic redistribution emerge while analyses of identity politics and subjective transgression become less central to contemporary theory and cultural studies the future of the Frankfurt School looks as promising and productive as its past has proven to be Max Horkheimer and the Foundations of the Frankfurt School John Abromeit,2011-10-10 This book is the first comprehensive intellectual biography of Max Horkheimer during the early and middle phases of his life 1895 1941 Drawing on unexamined new sources John Abromeit describes the critical details of Horkheimer s intellectual development This study recovers and reconstructs the model of early Critical Theory that guided the work of the Institute for Social Research in the 1930s Horkheimer is remembered primarily as the co author of Dialectic of Enlightenment which he wrote with Theodor W Adorno in the early 1940s But few people realize that Horkheimer and Adorno did not begin working together seriously until the late 1930s or that the model of Critical Theory developed by Horkheimer and Erich Fromm in the late 1920s and early 1930s differs in crucial ways from Dialectic of Enlightenment Abromeit highlights the ways in which Horkheimer s early Critical Theory remains relevant to contemporary theoretical discussions in a wide variety of fields **The Frankfurt School and its Critics** The late Tom Bottomore,2002-11-01 The Institute of Social Research from which the Frankfurt School developed was founded in the early years of the Weimar Republic It survived the Nazi era in exile to become an important centre of social theory in the postwar era Early members of the school such as Adorno Horkheimer and Marcuse developed a form of Marxist theory known as Critical Theory which became influential in the study of class politics culture and ideology The work of more recent members and in particular Habermas has received wide attention throughout Europe and North America Tom Bottomore s study takes a new and controversial look at the contributions of the Frankfurt School to modern sociology examining several issues not previously discussed elsewhere He discusses the neglect of history and political economy by the critical theorists and considers the relationship of the later Frankfurt School to the radical movements of the 1960s and the present time His critical analysis makes the school s writers accessible through an assessment of their work and an exploration of the relationship of Critical Theory to other forms of sociological thought especially positivism and structuralism *Immanent Critiques* Martin

Jay,2023-10-17 The Frankfurt School's own legacy is best preserved by exercising an immanent critique of its premises and the conclusions to which they often led By distinguishing between what is still and what is no longer alive in Critical Theory these essays seek to demonstrate its continuing relevance in the 21st century Fifty years after the appearance of *The Dialectical Imagination* his pioneering history of the Frankfurt School Martin Jay reflects on what may be living and dead in its legacy Rather than treating it with filial piety as a fortress to be defended he takes seriously its anti systematic impulse and sensitivity to changing historical circumstances Honouring the Frankfurt School's practice of immanent critique he puts critical pressure on a number of its own ideas by probing their contradictory impulses Among them are the pathologization of political deviance through stigmatizing authoritarian personalities the undefended theological premises of Walter Benjamin's work and the ambivalence of its members analyses of anti-Semitism and Zionism Additional questions are asked about other time honored Marxist themes the meaning of alienation the alleged damages of abstraction and the advocacy of a politics based on a singular notion of the truth Rather however than allowing these questions to snowball into an unwarranted repudiation of the Frankfurt School legacy as a whole the essays also acknowledge a number of its still potent arguments They explore its neglected but now timely analysis of racket society Adorno's dialectical reading of aesthetic sublimation and the unexpected implications of Benjamin's focus on the corpse for political theory Jay shows that it is a still evolving theoretical tradition which offers resources for the understanding of and perhaps even practical betterment of our increasingly troubled world

Re-Imagining Public Space D. Boros,J. Glass,2014-12-09 Public space both literally and figuratively is foundationally important to political life From Socratic lectures in the public forum to Occupy Wall Street and the Arab Spring public spaces have long played host to political discussion and protest The book provides a direct assessment of the role that public space plays in political life

Revisiting the Frankfurt School David Berry,2012 What has become known as the Frankfurt School is often reduced to a small number of theorists in media communication and cultural studies Challenging this limitation *Revisiting The Frankfurt School* introduces a wider theoretical perspective by introducing critical assessments on a number of writers associated with the school that have been mostly marginalized from debate

Group Experiment and Other Writings Friedrich Pollock,Theodor W. Adorno,2011-02-15 During the occupation of West Germany after the Second World War the American authorities commissioned polls to assess the values and opinions of ordinary Germans They concluded that the fascist attitudes of the Nazi era had weakened to a large degree The author and his colleagues who returned in 1949 from the United States were skeptical In their view public opinion is not simply an aggregate of individually held opinions but is fundamentally a public concept formed through interaction in conversations and with prevailing attitudes and ideas in the air In this book they published their findings on their group discussion experiments that delved deeper into the process of opinion formation

German 20th-century Philosophy Wolfgang Schirmacher,2000 Adorno an important selection by Horkheimer and Adorno from *Dialectic of Enlightenment* as well as

works by Walter Benjamin Leo Lowenthal Herbert Marcuse Norbert Elias and Jurgen Habermas BOOK JACKET

Foundations of the Frankfurt School of Social Research Judith T. Marcus, Zoltan Tar, 2020-03-06 This interdisciplinary volume provides the most comprehensive evaluation to date of the merits and problems of Critical Theory of the Frankfurt School Outstanding representatives of several academic disciplines assess from opposite intellectual and political positions the achievements and shortcomings of the social theory that emerged from this school of thought The volume also includes several newly translated but previously inaccessible essays by leading critical theorists such as Georg Lukacs and Jurgen Habermas

Subject and Object Ruth Groff, 2014-04-24 Subject the limits of empiricism pragmatism and Kantian transcendental idealism the case for materialism the difficulty of thinking counterfactually and the ideological character of mainstream social science Many of the pieces in the volume are otherwise out of print Subject Object will be a resource for social political and cultural theorists who may be less familiar with the philosophical aspects of the Frankfurt School for analytic philosophers who may not have had previous exposure to their work at all and for anyone wanting access to these seminal texts

The Dialectical Imagination Martin Jay, 1996-03-05 Herbert Marcuse Erich Fromm Max Horkheimer Franz Neumann Theodor Adorno Leo Lowenthal the impact of the Frankfurt School on the sociological political and cultural thought of the twentieth century has been profound The Dialectical Imagination is a major history of this monumental cultural and intellectual enterprise during its early years in Germany and in the United States Martin Jay has provided a substantial new preface for this edition in which he reflects on the continuing relevance of the work of the Frankfurt School

The Frankfurt School Critique of Capitalist Culture Ronald Jeremiah Schindler, 2019-05-23 First published in 1998 this volume is an impressive contradictory cultural phenomenon It addresses almost every existing contemporary school of thought whilst belonging completely to none of them through an absence of external signifiers With remarkable erudition Ronald Schindler reveals to official society the truth about itself through explorations of areas including the origins of dialectical intelligence a metatheoretical reconstruction of Marxism Habermas historical materialism and hermeneutics and political visions for the universities
