## **Franklin Long On Arms Control:**

**Franklin Long on Arms Control** Franklin A. Long, 1988      **Franklin Long on Arms Control** Franklin Long, 1988-02-24 In this volume Long addresses himself to some of the central issues of arms control. Having worked with a succession of American presidents, he discusses the role of the president as an initiator of arms control policies, the failures of presidents to educate the American public on the subject, and the neglect by some presidents to support arms control. Long discusses American presidents from Eisenhower through Reagan and helps us understand some of the differences in their approaches.      **Bulletin of the Atomic Scientists**, 1984-05      Bulletin of the Atomic Scientists, 1974-04 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world.      Bulletin of the Atomic Scientists, 1984-05      **Unarmed Forces** Matthew Evangelista, 2018-08-06 Throughout the Cold War, people worldwide feared that the U.S. and Soviet governments could not prevent a nuclear showdown. Citizens from both East bloc and Western countries, among them prominent scientists and physicians, formed networks to promote ideas and policies that would lessen this danger. Two of their organizations, the Pugwash movement and the International Physicians for the Prevention of Nuclear War, won Nobel Peace Prizes. Still, many observers believe that their influence was negligible and that the Reagan administration deserves sole credit for ending the Cold War. The first book to explore the impact these activists had on the Soviet side of the Iron Curtain, *Unarmed Forces* demonstrates the importance of their efforts on behalf of arms control and disarmament. Matthew Evangelista examines the work of transnational peace movements throughout the Khrushchev, Brezhnev, and Gorbachev eras and into the first years of Boris Yeltsin's leadership. Drawing on extensive research in Russian archives and on interviews with Russian and Western activists and policymakers, he investigates the sources of Soviet policy on nuclear testing, strategic defense, and conventional forces. Evangelista concludes that transnational actors at times played a crucial role in influencing Soviet policy, specifically in encouraging moderate as opposed to hard-line responses, for they supplied both information and ideas to that closed society. Evangelista's findings challenge widely accepted views about the peaceful resolution of the Cold War. By revealing the connection between a state's domestic structure and its susceptibility to the influence of transnational groups, *Unarmed Forces* will also stimulate thinking about the broader issue of how government policy is shaped.      **Toward Nuclear Disarmament And Global Security** Burns H. Weston, 2019-06-04 This text is designed to provide students and others with a theoretical and factual base for understanding the complex questions posed by continued reliance on nuclear weapons to protect geopolitical interests. In Part One, the authors examine the destructiveness and cost of modern nuclear arsenals and offer both normative and systemic explanations.      Developments in Technical Capabilities for Detecting and Identifying Nuclear Weapons Tests United States Congress.  remove the threat of nuclear annihilation changes in attitudes are required such as the acceptance of the concept of common  
 security to take the place of reliance on nuclear deterrence to keep the peace This book gives an insight into thinking about

**Review** ,1963      Dialogue Sustained James Voorhees, 2002 The participants in the Dartmouth Conference so named because  
 the first meeting took place at Dartmouth College in 1960 didn t just open up a new level of East West understanding they  
 also pioneered a new kind of dialogue between adversaries They were not government officials yet their aim was somehow to  
 narrow the divide between the Soviet and American governments and indeed their peoples Over the course of more than 40  
 years as relationships warmed and trust developed their dialogue deepened and widened The ideas and information  
 exchanged between them filtered into public discourse and were channeled into policymaking circles on both sides of the  
 Iron Curtain The impact of the Dartmouth Conference can never be measured precisely but it was substantial As James  
 Voorhees demonstrates the concept of the multilevel peace process and especially the idea of sustained dialogue between  
 influential but unofficial members of seemingly implacable groups evolved as the Dartmouth process evolved Unfettered by  
 the constraints on official diplomats the participants could speak with a rare degree of candor and freedom on a wide range  
 of subjects sustaining their conversation from one meeting to the next and building a foundation of shared knowledge As  
 Harold Saunders and Vitaly Zhurkin explain in a concluding chapter the lessons learned and techniques developed at  
 Dartmouth are being applied today in numerous settings Drawing on extensive research and interviews this highly readable  
 account of the evolution of a unique peacemaking venture adds a new perspective on both the Cold War and the conduct of  
 multilevel peace processes      **Departments of State, Justice, and Commerce, the Judiciary, and Related Agencies**
