*Franz Kafka: Geometrician of Metaphor. [Mit Abb.]* Henry Stephen Sussmann, 1975      Metaphor, 1985-01-01 The aim of the present bibliography is to provide the student of metaphor with an up to date and comprehensive albeit not exhaustive overview of recent publications dealing with various aspects of metaphor in a variety of disciplines Where the emphasis is primarily on specific works about metaphor mainly in philosophy linguistics and psychology the list has been supplemented with references to studies where metaphor is explicitly recognized as an instrument of research or analysis e g in literature or in the elaboration of scientific and religious models or where its use is illustrated      **A Franz Kafka Encyclopedia** Richard T. Gray, Ruth V. Gross, Rolf J. Goebel, Clayton Koelb, 2005-08-30 Known for depicting alienation frustration and the victimization of the individual by impenetrable bureaucracies Kafka's works have given rise to the term Kafkaesque This encyclopedia details Kafka's life and writings Included are more than 800 alphabetically arranged entries on his works characters family members and acquaintances themes and other topics Most of the entries cite works for further reading and the Encyclopedia closes with a selected general bibliography      *Kafka's Rhetoric* Clayton Koelb, 2019-05-15 In the first book to study Franz Kafka from the perspective of modern rhetorical theory Clayton Koelb explores such questions as how Kafka understood the reading process how he thematized the problematic of reading and how his highly distinctive style relates to what Koelb describes as the passion of reading      **Franz Kafka** Stanley Corngold, 2018-03-15 In Stanley Corngold's view the themes and strategies of Kafka's fiction are generated by a tension between his concern for writing and his growing sense of its arbitrary character Analyzing Kafka's work in light of the necessity of form which is also a merely formal necessity Corngold uncovers the fundamental paradox of Kafka's art and life The first section of the book shows how Kafka's rhetoric may be understood as the daring project of a man compelled to live his life as literature In the central part of the book Corngold reflects on the place of Kafka within the modern tradition discussing such influential precursors of Cervantes Flaubert and Nietzsche whose works display a comparable narrative disruption Kafka's distinctive narrative strategies Corngold points out demand interpretation at the same time they resist it Critics of Kafka he says must be aware that their approaches are guided by the principles that Kafka's fiction identifies dramatizes and rejects      **Kafka: A Guide for the Perplexed** Clayton Koelb, 2010-08-19 Student guide to Franz Kafka focusing on giving guidance through the difficulties readers can encounter in studying his work      **Transgressive Readings** Valerie D. Greenberg, 1990 Argues for a critical awareness of language across the boundaries of disciplines      **Pragmatism and Diversity** J. Green, S. Neubert, 2012-01-30 Diversity is an unavoidable aspect of twenty first century living The authors in this volume engage in cross difference conversations with other thinkers from earlier periods and other philosophical traditions in order to reconstruct pragmatism and cosmopolitanism in ways that are more attuned to our lived experience of diversity      **Kafka's Cognitive Realism** Emily Troschianko, 2014-02-03 This book uses insights from the cognitive sciences to illuminate Kafka's poetics exemplifying a

paradigm for literary studies in which cognitive scientific insights are brought to bear directly on literary texts The volume shows that the concept of cognitive realism can be a critically productive framework for exploring how textual evocations of cognition correspond to or diverge from cognitive realities and how this may affect real readers In particular it argues that Kafka's evocations of visual perception including narrative perspective and emotion can be understood as fundamentally enactive and that in this sense they are cognitively realistic These cognitively realistic qualities are likely to establish a compellingly direct connection with the reader's imagination but because they contradict folk psychological assumptions about how our minds work they may also leave the reader unsettled This is the first time a fully interdisciplinary research paradigm has been used to explore a single author's fictional works in depth opening up avenues for future research in cognitive literary science

Kafka's Architectures Ayad B. Rahmani, 2015-01-02 Adopting Kafka as a lens to examine modern concepts in architecture this book pries open new interpretations in Kafka scholarship Each of eight chapters takes up an architectural element with which to explore meanings central to both literature and architecture Stairs function as vertical access but in Kafka's hands become an instrument of science testing the merit of natural selection Kafka's doors open and close less to allow passage than to reconcile one psychological interior with the next Notions of plumbing and hygiene begin to acquire new meaning The architecture of Mies van der Rohe begins to make more sense especially his tabula rasa approach to design signifying less a harsh disdain for site and more a response to a reality in which the ceremony of the stairs had died and was replaced by the pervasive flatness of the modern floor

*Prodigal Son/Elder Brother* Jill Robbins, 1991-07-30 I don't know of any other book that deals with the hermeneutical problem of the relationship between Christianity and Judaism in the way this one does Full of cunning and unpredictable turns *Prodigal Son Elder Brother* addresses the question of the elder brother's fate by opposing two sets of readings Christian and Jewish ancient and modern figural and midrashic No one after reading this book will any longer connect Judaism and Christianity with a hyphen Gerald L Burns University of Notre Dame Through a creative reading of the prodigal son parable Jill Robbins demonstrates the hermeneutical impasse of the Christian exegete who must and yet cannot incorporate the Old Testament Having disclosed the aporia at the heart of Christian hermeneutics she proposes an alternative approach to the Hebrew Bible and new interpretations of Augustine Petrarch Kafka and Levinas Robbins brilliantly integrates the discourses of biblical texts literary works and critical analysis Mark C Taylor Williams College

Investigating Franz Kafka's "Der Bau" Andrea Ebarb, 2023-04-27 In 2016 the Israeli Supreme Court ruled that Max Brod's posthumous papers which included a collection of Kafka's manuscripts be transferred to the National Library of Israel in Jerusalem If Kafka's writings may be seen to belong to Jewish national culture and if they may be considered part of Israel's heritage then their analysis within a Jewish framework should be both viable and valuable This volume is dedicated to the research of Franz Kafka's late narrative *The Burrow* and its autobiographical and theological significance Research is extended to incorporate many fields of study architecture sound

studies philosophy cultural studies Jewish studies literary studies to illustrate the dynamics at work within the text which reveal the Jewish aspects implicitly thematicized Examination of the structure created the nature of sound perceived the atmosphere experienced and the acts performed by the protagonist serve as the foundation of this analysis and offer new access to Kafka's work by presenting an interpretive space semantic approach Der Bau is presented as a life concept given the task of constituting identity highlighting the critical link between the literary and biographical Kafka and demonstrating the necessity of understanding the author as a Jewish writer to understand his late narrative For her outstanding research project Andrea Newsom Ebarb was awarded the Forschungsförderpreis der Vereinigung der Freunde der Universität Mainz e.V. in 2023

The Rhetoric of Failure Ewa Płonowska Ziarek, 1995-01-01 This book makes a significant and needed contribution to post structural philosophy and literary theory In this impressive analysis that delicately weaves together philosophical and literary texts Ewa Ziarek powerfully and persuasively demonstrates that the rhetoric of the failure of traditional subject centered rationality does not lead to nihilism or nominalism Kelly Oliver University of Texas at Austin

Freedom from the Free Will Dimitris Vardoulakis, 2016-08-30 Many of Kafka's narratives place their heroes in situations of confinement Gregor Samsa is locked in his room in the Metamorphosis and the land surveyor in The Castle is stuck in the village unable either to leave or to gain access to the castle Dimitris Vardoulakis argues that Kafka constructs these plots of confinement in order to laugh at his heroes futile attempts to express their will In this way Kafka emerges as a critic of the free will and as a proponent of a different kind of freedom one focused within the confines of one's experience and mediated by one's circumstances Vardoulakis contends that his sense of humor is the key to understanding Kafka as a political thinker Laughter in this account is the tool used to deconstruct power By placing Kafka in dialogue with philosophy and political theory Vardoulakis shows that Kafka can give us invaluable insights into how to be free and how to laugh

**The German Picaresque and Modernity** Bernhard Malkmus, 2014-03-13 The German Picaresque and Modernity reads the re emergence of the picaresque narrative in twentieth century German language writing as an expression of modernity and its social imaginaries Malkmus argues that the picaresque whose origins date back to the Spanish Renaissance and the Baroque Age re emerged as a reflection both of Germany's explosive modernizing processes between 1880 and 1930 and of the most barbarous implosion of modern civilization under National Socialism Another reason for the fertility of this literary form at that particular cultural moment is rooted in the complexities of German Jewish relations and the history of Jewish assimilation in central Europe A considerable number of authors who used the picaresque form in the twentieth century are from a Jewish background and Malkmus demonstrates how the picaresque narrative template also offers a medium for German Jewish self reflection In highlighting these connections he contributes not only to scholarship in European literature but also but also to our understanding of major social economic and political issues at stake in modernity

**Biblical Parables and Their Modern Re-creations** Gila Safran Naveh, 2012-02-01 In Biblical Parables and Their Modern Re creations Gila Safran Naveh

carefully charts the historical transformation of these deceptively simple narratives to reveal fundamental shifts in their form function and most significantly their readers cognitive processes Bringing together for the first time parables from the Scriptures the synoptic Gospels Chassidic tales and medieval philosophy with the mashal the rabbinic parables commonly used to interpret Scripture this book brilliantly contrasts the rhetorical strategies of ancient parables with more recent examples of the genre by Kafka Borges Calvino and Agnon By using an interdisciplinary approach and insights from current semiotic linguistic psychoanalytic and gender theories Naveh reveals a dramatic social cultural and political shift in the way we view the divine

**The Bond of the Furthest Apart** Sharon Cameron, 2017-04-10 In the French filmmaker Robert Bresson's cinematography the linkage of fragmented dissimilar images challenges our assumption that we know either what things are in themselves or the infinite ways in which they are entangled The bond of Sharon Cameron's title refers to the astonishing connections found both within Bresson's films and across literary works by Tolstoy Dostoevsky and Kafka whose visionary rethinkings of experience are akin to Bresson's in their resistance to all forms of abstraction and classification that segregate aspects of reality Whether exploring Bresson's efforts to reassess the limits of human reason and will Dostoevsky's subversions of Christian conventions Tolstoy's incompatible beliefs about death or Kafka's focus on creatures neither human nor animal Cameron illuminates how the repeated juxtaposition of disparate even antithetical phenomena carves out new approaches to defining the essence of being one where the very nature of fixed categories is brought into question An innovative look at a classic French auteur and three giants of European literature The Bond of the Furthest Apart will interest scholars of literature film ethics aesthetics and anyone drawn to an experimental venture in critical thought

**Cartographic Strategies of Postmodernity** Peta Mitchell, 2013-01-11 The last fifty years have witnessed the growing pervasiveness of the figure of the map in critical theoretical and fictional discourse References to mapping and cartography are endemic in poststructuralist theory and similarly geographically and culturally diverse authors of twentieth century fiction seem fixated upon mapping While the map metaphor has been employed for centuries to highlight issues of textual representation and epistemology the map metaphor itself has undergone a transformation in the postmodern era This metamorphosis draws together poststructuralist conceptualizations of epistemology textuality cartography and metaphor and signals a shift away from modernist preoccupations with temporality and objectivity to a postmodern pragmatics of spatiality and subjectivity *Cartographic Strategies of Postmodernity* charts this metamorphosis of cartographic metaphor and argues that the ongoing reworking of the map metaphor renders it a formative and performative metaphor of postmodernity
