Franz Kafka A Question Of Jewish Identity Two Perspectives:

Franz Kafka: A Question of Jewish Identity Sara Loeb, 2001-12-26 Franz Kafka the Jewish writer from Prague who wrote in German grew up after the Emancipation at a time when most Jews in Central and Western Europe suffered from an identity crisis The most prominent characteristic of the experience of this generation of young people was hybridism a kind of partial assimilation that brought them to a dead end In *Franz Kafka A Question of Jewish Identity* Sara Loeb examines this complex dialectic focusing on the question of if how and to what extent Kafka's works reflect the identity crisis he suffered She offers a new perspective of his life through an encounter between the points of view of two well known critics Max Brod Kafka's close friend and Marthe Rober a literary critic who translated Kafka's works into French Each seeks to examine in a different way the source of Kafka's link to his Jewishness Loeb opens a window to Kafka's inner world and examines the man and his work from a new perspective

Franz Kafka Sander L. Gilman, 2005-09-15 The conflation of reality and the fantastic ambiguity the relentless confrontation with horror the fractured sense of identity Franz Kafka created a wholly unique and enduring worldview through his literature and life and he remains one of the central intellectual and cultural figures of our time Sander L. Gilman brings together Kafka's literary works personal writings and biography to create a compelling and wholly accessible narrative of the literary master's life Gilman focuses on the relationship between Kafka's life and work reconstructing both Kafka's cultural environment and the writer's conceptual understanding of his own body Kafka's letters diaries and writings emerge in Gilman's analysis as windows into his ongoing attempt to create an identity in a world where being a Central European Jew dictated an uneasy fate The volume emphasizes in particular the image and role of the Jew in Kafka's modern world and how Kafka responded to prevailing attitudes repressive actions and stereotypes in society at large Gilman also examines the influence of psychoanalytic ideas on Kafka and his works exploring how Kafka wove such psychoanalytic experiences into his literature Gilman concludes with consideration of the Kafka myth and the wealth of material emerging from it over the past eighty years including work by such illustrious minds as Walter Benjamin and Ted Hughes *Franz Kafka* features illuminating archival photographs and illustrations as well as a comprehensive bibliography and filmography of work by and about Kafka This succinct yet penetrating volume offers valuable and original insight into how Kafka's life and work shaped how we perceive our modern society and how indeed some aspect of the world is always Kafkaesque

A History of European Literature Walter Cohen, 2017-01-19 Walter Cohen argues that the history of European literature and each of its standard periods can be illuminated by comparative consideration of the different literary languages within Europe and by the ties of European literature to world literature World literature is marked by recurrent systematic features outcomes of the way that language and literature are at once the products of major change and its agents Cohen tracks these features from ancient times to the present distinguishing five main overlapping stages Within that framework he shows that European literatures ongoing internal and external relationships are most visible at the level of

form rather than of thematic statement or mimetic representation European literature emerges from world literature before the birth of Europe during antiquity whose Classical languages are the heirs to the complex heritage of Afro Eurasia This legacy is later transmitted by Latin to the various vernaculars The uniqueness of the process lies in the gradual displacement of the learned language by the vernacular long dominated by Romance literatures That development subsequently informs the second crucial differentiating dimension of European literature the multicontinental expansion of its languages and characteristic genres especially the novel beginning in the Renaissance This expansion ultimately results in the reintegration of European literature into world literature and thus in the creation of today's global literary system The distinctiveness of European literature is to be found in these interrelated trajectories
