**Fredson Bowers and the Irish Wolfhound** J. C. C. Mays, 2002 Cultural Writing Bibliography is the study of books as physical objects Fredson Bowers became its most famous American exponent abandoning his earlier interest in breeding wolfhounds as he did so Jim Mays suggests that Anglo American bibliography would be different if Bowers had not passed over the distinctive features of the Irish book as he theorised his subject Why does this matter Because books store transmit and determine the shape of knowledge because the 1500 year history of the book in Ireland is the most extensive and continuous in Europe because conjoined features of the Irish book represent recurring features of a distinct cultural position and because they suggest that the prevailing consensus about the creation and transmission of knowledge rests on too narrow a ground This unusual essay contains more ideas than tomorrow's news It is awkward and timely and proceeds at a spanking pace The Life and Work of Fredson Bowers George Thomas Tanselle, Martin C. Battestin, 1993 *Traces of the Old, Uses of the New* Amy E. Earhart, 2015-10-30 Mapping the history of digital literary scholarship Earhart stakes a claim for discipline specific histories of digital study **In Search of the Irish Wolfhound** Owen Dickey, 2024-04-28 The first of its kind In Search of the Irish Wolfhound takes a real in depth look into the history and origins of the Irish wolfhound Owen Dickey details his research into the origins of one of his favourite dog breeds and recounts stories of its loyalty courage and devotion He answers the common questions and misconceptions related to the breed and whether the modern dog is the original breed revived or a more modern creation The book features chapters which focus on the myths and legends and a description of the most important personages associated with the wolfdog from the third century to the nineteenth Owen furthers his research using only contemporary sources both literary and artistic to answer what the Irish wolfdog looked like in the past Dickey leaves no stone unturned in In Search of the Irish Wolfhound He takes a closer look into the legendary ancestors of the Irish wolfhound one of the most famous dog breeds of the Middle Ages and their equally legendary reputation as guard and hunting dogs The Oxford History of the Irish Book, Volume II Éamonn Ó Ciardha, Frank Sewell, Alan Titley, 2025-07-10 The Oxford History of the Irish Book is a major series that charts one of the most venerable book cultures in Europe from the earliest manuscript compilations to the flourishing book industries of the late twentieth century For the first time it offers a history of the Irish book as a created object situated in a world of communications trade transport power and money and examines the ways in which books have both reflected and influenced social political and intellectual formations in Ireland It is an important project for the understanding of Ireland's written and printed heritage and is by its nature of profound cross cultural significance embracing as it does all the written and printed traditions and heritages of Ireland and placing them in the global context of a worldwide interest in book histories Volume II with eighty two chapters by seventy leading commentators on and participants in Irish book history spans approximately 450 years of Irish language book production distribution and reception It begins with the 1567 publication of John Carswell's Gaelic

Frost, 2021-05-01 Uses a historical study of bookselling and readers as a way to question and rethink our understanding of the market for symbolic goods Combining historical study theorization and experimental fiction this book takes commodity culture and book retail around 1900 as the prime example of a market of symbolic goods With the port of Southampton England as his case study Simon R Frost reveals how the city's bookshops with their combinations of libraries haberdashery stationery and books sustained and were sustained by the dreams of ordinary readers and how together they created the values powering this market The goods in this market were symbolic and were not consumed but read Their readings were created between other readers and texts in happy disobedience to the neoliberal laws of the free market Today such reader created social markets comprise much of the world's branded economies which is why Frost calls for a new understanding of both literary and market values **The Book Collector**, 2006 [Profiling Shakespeare](#) Marjorie Garber, 2008-03-25 The title of this collection Profiling Shakespeare is meant strongly in its double sense These essays show the outline of a Shakespeare rather different from the man sought by biographers from his time to our own They also show the effects the ephemera the clues and cues welcome and unwelcome out of which Shakespeare's admirers and dedicated scholars have pieced together a vision of the playwright whether as sage psychologist lover theatrical entrepreneur or moral authority This collection brings together classic pieces hard to find chapters and two new essays Here Garber has produced a book at once serious and highly readable ranging broadly across time periods early modern to postmodern and touching
