**Global Economy, Global Justice** George DeMartino, 2000 *Global Economy, Global Justice* George DeMartino, 2002-09-11 This text presents a devastating critique of the currently fashionable idea of globalisation Using comprehensive and non technical language this book looks at the world s cultural and value diversity and questions whether it is possible to impose a global policy given these differences Topics covered include theories of distribution and welfare what leads to a good economic outcome Egalitarian theories of welfarism global neoliberalism and the free market culture

*Global Justice and International Economic Law* Chi Carmody, Frank J. Garcia, John Linarelli, 2012-01-09 Since the beginnings of the GATT and the Bretton Woods institutions and on to the creation of the WTO states have continued to develop institutions and legal infrastructure to promote global interdependence International lawyers are experts in understanding how these institutions operate in practice but they tend to uncritically accept comparative advantage as the principal normative criterion to justify these institutions In contrast moral and political philosophers have developed accounts of global justice but these accounts have had relatively little influence on international legal scholarship and on institutional design This volume reflects the results of a symposium held at Tillar House the American Society of International Law headquarters in Washington DC in November 2008 which brought together philosophers legal scholars and economists to discuss the problems of understanding international economic law from the standpoints of rights and justice in particular from the standpoint of distributive justice

**Local Democracy Under Siege** Dorothy Holland, Catherine Lutz, Lesley Bartlett, Marla Frederick-McGlathery, 2007-02-07 2007 Society for the Anthropology of North America SANA Book Award Complete List of Authors Dorothy Holland Donald M Nonini Catherine Lutz Lesley Bartlett Marla Frederick McGlathery Thaddeus C Guldbrandsen and Enrique G Murillo Jr What is the state of democracy at the turn of the twenty first century To answer this question seven scholars lived for a year in five North Carolina communities They observed public meetings of all sorts had informal and formal interviews with people and listened as people conversed with each other at bus stops and barbershops soccer games and workplaces Their collaborative ethnography allows us to understand how diverse members of a community not just the elite think about and experience politics in ways that include much more than merely voting This book illustrates how the social and economic changes of the last three decades have made some new routes to active democratic participation possible while making others more difficult Local Democracy Under Siege suggests how we can account for the current limitations of U S democracy and how remedies

can be created that ensure more meaningful participation by a greater range of people Complete List of Authors pictured From Left to Right bottom row Enrique Murillo Jr Thaddeus Guldbrandsen Marla Frederick McGlathery Top row Dorothy Holland Catherine Lutz Lesley Bartlett and Don Nonini

**Flourishing** Miroslav Volf, 2015-01-01 A celebrated theologian explores how the greatest dangers to humanity as well as the greatest promises for human flourishing are at the intersection of religion and globalization More than almost anything else globalization and the great world religions are shaping our lives affecting everything from the public policies of political leaders and the economic decisions of industry bosses and employees to university curricula all the way to the inner longings of our hearts Integral to both globalization and religions are compelling overlapping and sometimes competing visions of what it means to live well In this perceptive deeply personal and beautifully written book a leading theologian sheds light on how religions and globalization have historically interacted and argues for what their relationship ought to be Recounting how these twinned forces have intersected in his own life he shows how world religions despite their malfunctions remain one of our most potent sources of moral motivation and contain within them profoundly evocative accounts of human flourishing Globalization should be judged by how well it serves us for living out our authentic humanity as envisioned within these traditions Through renewal and reform religions might in turn shape globalization so that can be about more than bread alone

**Globalization and the Gulf** John W. Fox, Nada Mourtada-Sabbah, Mohammed Al Mutawa, 2006-09-27 For centuries the Arabian Gulf has been a crossroads where seafaring people and Bedouins alike travelled great distances transacting business Events of the past few years both good and bad have directed the world's attention to the Arabian Peninsula where a rich cultural tradition is rapidly incorporating the latest innovations from around the world This is the process of globalization New economies create enormous potential but it will require great care for the people of the region to steer through a period of profound change Political and economic interests intent on maintaining the flow of petroleum products on one hand and people in the Gulf region who assess their own interests from quite a different perspective on the other exert pressures from conflicting directions Reconciling these interests in a time of rapid globalization poses enormous challenges This timely volume brings together the work of scholars from both the Middle East and the West who have the expertise to evaluate the interaction of new ideas new technologies and new economies Brought together by the American University of Sharjah and the Sociological Association of the UAE the contributors reflect on both the process of globalism and on the traditions of Gulf society and culture offering views on how these trends interact within the global system

Community College Faculty J. Levin, S. Kater, Richard L. Wagoner, 2006-01-31 John S Levin Susan T Kater and Richard L Wagoner collectively argue that as community colleges organize themselves to respond to economic needs and employer demands and as they rely more heavily upon workplace efficiencies such as part time labor they turn themselves into businesses or corporations and threaten their social and educational mission

*Social Capital Versus Social Theory* Ben Fine, 2002-05-03 The idea of Social Capital is an attempt to incorporate social considerations into mainstream economic thinking Its proponents feel that social factors are properly quantifiable So they use the complex algebra and statistics beloved of mainstream economic theory and measure units of health care or education in the same way that they would machinery or transport Ben Fine's main argument in this book is that such concerns cannot be judged in terms of mathematical methods and that to try to do so is overly simplistic Fine assesses the impact of Social Impact across the social sciences and shows how economic analysis is being subsumed into these areas and how thinking in sociology and politics impacts upon economics

*The Twilight of Equality?* Lisa Duggan, 2012-04-03 By now we've all heard about the shocking redistribution of wealth that's occurred during the last thirty years and particularly during the last decade But economic changes like this don't occur in a vacuum they're always linked to politics The Twilight of Equality searches out these links through an analysis of the politics of the 1990s the decade when neoliberalism free market economics became gospel After a brilliant historical examination of how racial and gender inequities were woven into the very theoretical underpinnings of the neoliberal model of the state Duggan shows how these inequities play out today In a series of political case studies Duggan reveals how neoliberal goals have been pursued demonstrating that progressive arguments that separate identity politics and economic policy cultural politics and affairs of state can only fail Ultimately The Twilight of Equality not only reveals how the highly successful rhetorical maneuvers of neoliberalism have functioned but more importantly it shows a way to revitalize and unify progressive politics in the U S today

**Hollywood Economics** Arthur S. De Vany,2004 Movies expected to perform well can flop whilst independent movies with low budgets can be wildly successful In this text De Vany casts his eye over all aspects of the business to present some intriguing conclusions *Monetary Orders* Jonathan Kirshner,2018-08-06 Wherever there is money there is money politics a subject demanding ever greater attention at a time when monetary policies lead and the real economy follows A principal defining characteristic of the contemporary global economy Jonathan Kirshner contends is the rise and preeminence of monetary phenomena international financial crises Central Bank Independence and inflation fighting the creation of the euro and monetary reform in emerging economies to name only a few Moreover unlike most debates in political economy such as those regarding trade policy which are generally recognized as political monetary phenomena and macroeconomic policies are typically represented as expressly apolitical In *Monetary Orders* a distinguished group of scholars explores the inescapable political origins of choices about money The essays in *Monetary Orders* each address a specific issue or puzzle relating to money and its management Their authors focus on markedly disparate cases but share a common observation for most policy choices about money market forces and economic logic can rule out certain options but are indeterminate in explaining why one policy rather than another will be chosen Ultimately political factors are essential to explain fundamental and consequential choices about money **Systems of Production** Brendan Burchell,Simon Deakin,Jonathan Michie,Jill Rubery,2005-08-19 An impressive array of expert contributors come together to provide a study of issues such as labour
