Germany International Monetary Fund. European Dept., 2015-07-15 This Selected Issues paper identifies episodes of large and sustained current account surpluses in advanced economies AEs and compares Germany's ongoing surplus with those episodes In doing so the paper aims to put Germany's external position in a historical and cross country context drawing from 55 years of data across 20 AEs The comparison shows that the real growth of all domestic demand components particularly of private investment was remarkably weak during the latest sustained surplus episode in Germany in comparison with both normal times and other AE surplus episodes Neither Germany's nor a typical AE surplus episode has been accompanied by visible broad based competitiveness or terms of trade gains

Political and Investment Risk in the International Oil and Gas Industry Steven A. Mucci, 2017-10-11 This book examines the financial legal and institutional strategies available to the international oil and gas industry to manage political and investment risk The financial techniques for mitigating and allocating risk include corporate finance joint ventures and project finance The legal techniques include production sharing agreements profit sharing agreements service contracts bilateral investment treaties and multilateral investment treaties The institutional techniques include domestic courts national constitutions international arbitral tribunals governmental and non governmental regulatory agencies alliances and energy diplomacy This book traces the historical development of these techniques and their application in practice The effectiveness with which companies manage political and investment risk is important for the financial sustainability of

individual firms and the industry as whole The real and perceived level of risk affects the level of exploration expenditures and therefore the balance between supply and demand and the price of oil and natural gas The search for a secure supply of oil and gas affects the political military and economic relations between countries Consequently every developed and developing country has placed energy policy at or near the top of its national priorities **New Frontiers in Nanochemistry: Concepts, Theories, and Trends, 3-Volume Set** Mihai V.
