

THE GLOBAL HISTORY READER

EDITED BY BRUCE MAZLISH AND AKIRA IRIYE

Global History Reader

James P. Stobaugh

Global History Reader:

The Global History Reader Bruce Mazlish, Akira Iriye, 2005 Review The Global History Reader is essential reading for all students with an interest in learning more about this definitive new area of historical study **BOOK JACKET** *Exchanges* Trevor R. Getz, Richard Joseph Hoffman, Jarbel Rodriguez, 2008 This impressive collection of readings illustrates that the history of the world is as much about the relationships among societies as it is about transformations and continuities within societies *Exchanges* A Global History Reader is designed as an introduction to the discipline of world history Unlike other source collections *Exchanges* helps students look beyond strictly delineated regionalism and chronological structures to understand history as a product of ongoing debate Structured around a series of interconnected themes and debates and pairing both primary and secondary sources *Exchanges* challenges both students and teachers to rethink history

EXCHANGES, 2012 **Exchanges** Trevor R. Getz, Richard Hoffman, Jarbel Rodriguez, 2009 This impressive collection of readings illustrates that the history of the world is as much about the relationships among societies as it is about transformations and continuities within societies *Exchanges* A Global History Reader is designed as an introduction to the discipline of world history Unlike other source collections *Exchanges* helps students look beyond strictly delineated regionalism and chronological structures to understand history as a product of ongoing debate Structured around a series of interconnected themes and debates and pairing both primary and secondary sources *Exchanges* challenges both students and teachers to rethink history **The Global History of Childhood Reader** Heidi Morrison, 2013-03-05 The Global History of Childhood Reader provides an essential collection of chapters and articles on the global history of childhood The Reader is structured thematically so as to provide both a representative sampling of the historiography as well as an overview of the key issues of the field such as childhood as a social construct commonalities and differences globally and why the twentieth century was not the century of the child for most of the world's children The Reader is divided into four parts Theories and methodologies of the history of childhood Constructions of childhood in different times and places Children's experiences in different times and places Usage of the past to articulate solutions to problems facing children today Topics covered include theories and methodologies in the global history of childhood sources for writing a global history of childhood education gender disability race class and religion the individual in history and emotions violence labour and illiteracy With introductions that contextualize each of the four parts and the articles further reading sections and questions this is the perfect guide for all students of the history of childhood *Global History, Globally* Sven Beckert, Dominic Sachsenmaier, 2018-02-22 In recent years historians in many different parts of the world have sought to transnationalize and globalize their perspectives on the past Despite all these efforts to gain new global historical visions however the debates surrounding this movement have remained rather provincial in scope *Global History Globally* addresses this lacuna by surveying the state of global history in different world regions Divided into three distinct but tightly interweaved sections the

book's chapters provide regional surveys of the practice of global history on all continents review some of the research in four core fields of global history and consider a number of problems that global historians have contended with in their work. The authors hail from various world regions and are themselves leading global historians. Collectively they provide an unprecedented survey of what today is the most dynamic field in the discipline of history. As one of the first books to systematically discuss the international dimensions of global historical scholarship and address a wealth of questions emanating from them, *Global History Globally* is a must-read book for all students and scholars of global history.

A Global History of Modern Historiography Georg G. Iggers, Q. Edward Wang, Supriya Mukherjee, 2016-09-01. The first book on historiography to adopt a global and comparative perspective on the topic, *A Global History of Modern Historiography* looks not just at developments in the West but also at the other great historiographical traditions in Asia, the Middle East, and elsewhere around the world over the course of the past two and a half centuries. This second edition contains fully updated sections on Latin American and African historiography, discussion of the development of global history, environmental history, and feminist and gender history in recent years, and new coverage of Russian historical practices. Beginning in the mid-eighteenth century, the authors analyse historical currents in a changing political, social, and cultural context, examining both the adaptation and modification of the Western influence on historiography and how societies outside Europe and America found their own ways in the face of modernization and globalization. Supported by online resources including a selection of excerpts from key historiographical texts, this book offers an up-to-date account of the status of historical writing in the global era and is essential reading for all students of modern historiography.

The Oral History Reader Robert Perks, Alistair Thomson, 2015-11-19. The *Oral History Reader* now in its third edition is a comprehensive international anthology combining major classic articles with cutting-edge pieces on the theory, method, and use of oral history. Twenty-seven new chapters introduce the most significant developments in oral history in the last decade to bring this invaluable text up to date with new pieces on emotions and the senses, on crisis, oral history, current thinking around traumatic memory, the impact of digital mobile technologies, and how oral history is being used in public contexts with more international examples to draw on work from North and South America, Britain, and Europe, Australasia, Asia, and Africa. Arranged in five thematic sections, each with an introduction by the editors to contextualise the selection and review relevant literature, articles in this collection draw upon diverse oral history experiences to examine issues including:

- Key debates in the development of oral history over the past seventy years
- First-hand reflections on interview practice and issues posed by the interview relationship
- The nature of memory and its significance in oral history
- The practical and ethical issues surrounding the interpretation, presentation, and public use of oral testimonies
- How oral history projects contribute to the study of the past and involve the wider community
- The challenges and contributions of oral history projects committed to advocacy and empowerment

With a revised and updated bibliography and useful contacts list, as well as a dedicated online resources page, this third edition of *The Oral History Reader* is an essential resource for all students and scholars of oral history.

History Reader is the perfect tool for those encountering oral history for the first time as well as for seasoned practitioners

Doing Global History Roland Wenzlhuemer, 2019-10-31 The field of Global History has experienced an unprecedented boom in the last two decades and carved itself deeply into the practice of historical research Despite this its conceptual foundations have rarely been explored This introduction to what Global History is brings together theory and practice with 6 key concepts delivered through 6 accessible case studies Re evaluating the central concerns and key approaches in the field it offers an up to date discussion of the foundations of Global History its guiding questions and principal methods at work Doing Global History offers students valuable insights into the ways general concepts can be used and applied when doing historical research The 6 concepts connections actors structures space time and transit and their accompanying examples will not only help readers to get a solid grasp of what global history means but will stimulate further engagement in the field Wenzlhuemer successfully shows that global history is best considered as a perspective not a theory or paradigm and guides the reader through ways it can be used in practice to draw new and exciting conclusions Tailored for classroom and student use this book will be invaluable to advanced undergraduates and postgraduates of Global History

The New World History Ross E. Dunn, Laura J. Mitchell, Kerry Ward, 2016-08-23 The New World History is a comprehensive volume of essays selected to enrich world history teaching and scholarship in this rapidly expanding field The forty four articles in this book take stock of the history evolving literature and current trajectories of new world history These essays together with the editors introductions to thematic chapters encourage educators and students to reflect critically on the development of the field and to explore concepts approaches and insights valuable to their own work The selections are organized in ten chapters that survey the history of the movement the seminal ideas of founding thinkers and today s practitioners changing concepts of world historical space and time comparative methods environmental history the big history movement globalization debates over the meaning of Western power and ongoing questions about the intellectual premises and assumptions that have shaped the field

The New Global History Bruce Mazlish, 2006-09-27 From a distinguished author in the field The New Global History is a critical inquiry into the historical process of globalization which is seen as a distinctly twentieth century phenomenon with its roots in the age of expansion of the early modern world Cutting across disciplinary boundaries The New Global History offers a fresh overarching view of the process of globalization that is always empirically based and discusses the most important themes such as policy trade cultural imperialism and warfare Bruce Mazlish argues that globalization is not something that the West has imposed upon the rest of the world but the result of the interplay of many factors across continents Students of history politics and international studies will all find this a valuable resource in the pursuit of their studies

The Cambridge Global History of Fashion: Volume 1 Christopher Breward, Beverly Lemire, Giorgio Riello, 2023-08-17 Explores how the long history of fashion from antiquity to c 1800 created global networks and animated world communities

The Cambridge Global History of Fashion: Volume 2 Christopher Breward, Beverly

Lemire, Giorgio Riello, 2023-08-17 Volume II surveys the history of fashion from the nineteenth century to the present day. Covering the period beginning with mass industry and ending with calls for sustainability, this volume challenges the meaning of modernity and modernism from a global perspective and reflects on important scholarship that has changed our understanding of the relationship between fashion and colonialism. Empires shifted and new powers rose with fashion marking and contending with this change. The volume concludes with a critical view of fashion and globalisation and explores the deep connections between the fashion industry, the global economy and the politics of production and wearing in the contemporary world.

What Is Global Studies? Manfred Steger, Amentahru Wahlrab, 2016-11-10 What is Global Studies and how does it relate to globalization? Responding to this frequently asked question, Manfred B. Steger and Amentahru Wahlrab provide the first comprehensive overview of this emerging field. Authoritative and accessible, this primer speaks to students and instructors interested not only in key theories but also in applied teaching and learning programs designed to educate global citizens to meet the concrete challenges of the twenty-first century. Linking the influential arguments of major thinkers in Global Studies to their own framework, the authors discuss the Four Pillars of Global Studies: globalization, transdisciplinarity, space and time, and critical thinking. The book, with instructive appendix materials, will appeal to readers seeking a deeper understanding of Global Studies, one of the most popular fields of study in major universities around the world.

Global History and New Polycentric Approaches Manuel Perez Garcia, Lucio De Sousa, 2017-12-06 This book is open access under a CC BY 4.0 license. Rethinking the ways global history is envisioned and conceptualized in diverse countries such as China, Japan, Mexico, or Spain, this collection considers how global issues are connected with our local and national communities. It examines how the discipline has evolved in various historiographies, from Anglo-Saxon to southern European and its emergence in Asia with the rapid development of the Chinese economy, motivation to legitimate the current uniqueness of the history and economy of the nation. It contributes to the revitalization of the field of global history in Chinese historiography, which has been dominated by national narratives and promotes a debate to open new venues in which important features such as scholarly mobility, diversity, and internationalization are firmly rooted, putting aside national specificities. Dealing with new approaches on the use of empirical data by framing the proper questions and hypotheses and connecting western and eastern sources, this text opens a new forum of discussion on how global history has penetrated in western and eastern historiographies, moving the pivotal axis of analysis from national perspectives to open new venues of global history.

The Terrorism Reader David J. Whittaker, 2012 Whittaker explores all aspects of terrorism from its definition, psychological and sociological effects, and legal and ethical issues to counterterrorism. Back cover.

Studies in World History Volume 3 (Student) James P. Stobaugh, 2014-04-01 The Modern Age to Present 1900 AD to Present. Chronologically based but focused more on skill development. Meant to be a 30 to 45 minute experience every day. World history is combined with social studies in a one-year course. The middle school student will see history come to life no matter

what their pace or ability Developed by Dr James Stobaugh the courses grow in difficulty with each year preparing students for high school work This is a comprehensive examination of history geography economics and government systems This educational set equips students to learn from a starting point of God s creation of the world and move forward with a solid biblically based worldview Volume III Covers Modernism the World at War American Education Evangelicalism Modern Social Problems and more

World History in Documents Peter N. Stearns, 2008-04-15 While world history materials date back to prehistoric times the field itself is relatively young Indeed when the first edition of Peter Stearns s best selling World History in Documents was published in 1998 world history was poised for explosive growth with the College Board approving the AP world history curriculum in 2000 and the exam shortly thereafter At the university level survey world history courses are increasingly required for history majors and graduate programs in world history are multiplying in the U S and overseas World events have changed as rapidly as the field of world history itself making the long awaited second edition of World History in Documents especially timely In addition to including a new preface focusing on current trends in the field Stearns has updated forty percent of the textbook paying particular attention to global processes throughout history The book also covers key events that have altered world history since the publication of the first edition including terrorism global consumerism and environmental issues

Global Perspectives on Global History Dominic Sachsenmaier, 2011-08-04 In recent years historians across the world have become increasingly interested in transnational and global approaches to the past However the debates surrounding this new border crossing movement have remained limited in scope as theoretical exchanges on the tasks responsibilities and potentials of global history have been largely confined to national or regional academic communities In this groundbreaking book Dominic Sachsenmaier sets out to redress this imbalance by offering a series of new perspectives on the global and local flows sociologies of knowledge and hierarchies that are an intrinsic part of historical practice Taking the United States Germany and China as his main case studies he reflects upon the character of different approaches to global history as well as their social political and cultural contexts He argues that this new global trend in historiography needs to be supported by a corresponding increase in transnational dialogue cooperation and exchange

Introduction to Global Military History Jeremy Black, 2005 This is a textbook for all students of modern military history Unique in its global scope the book uses case studies chapter introductions and up to date research and covers all aspects of the major modern conflicts

Embracing the Beat of Phrase: An Emotional Symphony within **Global History Reader**

In a global taken by screens and the ceaseless chatter of fast connection, the melodic beauty and mental symphony created by the published term usually fade into the backdrop, eclipsed by the persistent noise and disturbances that permeate our lives. But, situated within the pages of **Global History Reader** a charming literary value overflowing with fresh feelings, lies an immersive symphony waiting to be embraced. Constructed by an outstanding composer of language, that captivating masterpiece conducts visitors on a mental journey, well unraveling the hidden tunes and profound impact resonating within each carefully constructed phrase. Within the depths of the moving review, we shall explore the book is central harmonies, analyze its enthralling publishing design, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
