The Take-Action Guide to World Class Learners Book 2 Yong Zhao, Homa Tavangar, Emily McCarren, Gabriel F. Rshaid, Kay Tucker, 2016-02-03 Your blueprint for product-oriented learning. The World Class Learners series provides the most complete information available on designing twenty-first century schools poised to leapfrog into the future. These practice-oriented books expand on Dr. Yong Zhao's acclaimed *World Class Learners*, which presents a new framework for cultivating creative and entrepreneurial students. Now with this second book in the follow-up three-volume set, Zhao digs much deeper, revealing how exactly to put that framework into effect. The second book in the series outlines how to understand entrepreneurship and project-oriented learning; implement making as learning; POL curriculum; help students create quality entrepreneurial products; understand ownership, copyrights, and patents; implement Zhao's new paradigm shift; one phase at a time, starting with any book depending upon your priorities. Better yet, read all three volumes for a complete blueprint to entrepreneur-minded schooling. The ideal school should provide opportunities and resources to enable students to personalize their educational experiences instead of receiving a uniform, standardized, externally prescribed education diet.
