Social Ontology, Sociocultures, and Inequality in the Global South Benjamin Baumann, Daniel Bultmann, 2020-05-07 Challenging the assumption that the capitalist transformation includes a radical break with the past this edited volume traces how historically older forms of social inequality are transformed but persist in the present to shape the social structure of contemporary societies in the global South Each social collective comprises an interpretation of itself including the meaning of life the concept of a human person and the notion of a collective This volume studies the interpretation that various social collectives have of themselves This interpretation is referred to as social ontology All chapters of the edited volume focus on the relation between social ontology and structures of inequality They argue that each society comprises several historical layers of social ontology that

correspond to layers of inequality which are referred to as sociocultures. Thereby the volume explains why and how structures of inequality differ between contemporary collectives in the global South even though all of them seem to have similar structures, institutions and economies. The volume is aimed at academics, students and the interested public looking for a novel theorization of social inequality pertaining to social collectives in the global South. **Angkor Wat - A**

Transcultural History of Heritage Michael Falser, 2019-12-16. This book unravels the formation of the modern concept of cultural heritage by charting its colonial, postcolonial, nationalist and global trajectories. By bringing to light many unresearched dimensions of the twelfth-century Cambodian temple of Angkor Wat during its modern history, the study argues for a conceptual connected history that unfolded within the transcultural interstices of European and Asian projects. With more than 1,400 black and white and colour illustrations of historic photographs, architectural plans and samples of public media, the monograph discusses the multiple lives of Angkor Wat over a 150-year long period from the 1860s to the 2010s. Volume 1: Angkor in France reconceptualises the Orientalist French colonial discovery of the temple in the nineteenth century and brings to light the manifold strategies at play in its physical representations as plaster cast substitutes in museums and as hybrid pavilions in universal and colonial exhibitions in Marseille and Paris from 1867 to 1937. Volume 2: Angkor in Cambodia covers for the first time in this depth the various on-site restoration efforts inside the Archaeological Park of Angkor from 1907 until 1970 and the temple's gradual canonisation as a symbol of national identity during Cambodia's troublesome decolonisation, 1953-89, from independence to Khmer Rouge terror and Vietnamese occupation, and finally as a global icon of UNESCO World Heritage since 1992 until today. Congratulations to our author Michael Falser who received the prestigious 2021 ICAS Book Prize in the Ground Breaking Subject Matter category. **A Global History of History** Daniel Woolf, 2011-02-17. Explorations and Entanglements Hartmut Berghoff, Frank Biess, Ulrike Strasser, 2018-11-16 Traditionally Germany has been considered a minor player in Pacific history its presence there was more limited than that of other European nations and whereas its European rivals established themselves as imperial forces beginning in the early modern era Germany did not seriously pursue colonialism until the nineteenth century Yet thanks to recent advances in the field emphasizing transoceanic networks and cultural encounters it is now possible to develop a more nuanced understanding of the history of Germans in the Pacific The studies gathered here offer fascinating research into German missionary commercial scientific and imperial activity against the backdrop of the Pacific s overlapping cultural circuits and complex oceanic transits
