Global Security Beyond Millenium

**Anthony Burke, Katrina Lee-Koo, Matt
McDonald**

Global Security Beyond Millenium:

The New Agenda for Global Security Stephanie Lawson, 1995 Highly topical analysis of world politics and the role of the UN

Ethics and Global Security Anthony Burke, Katrina Lee-Koo, Matt McDonald, 2014-06-27 This book will be the first systematic examination of the role that ethics plays in international security in both theory and practice and offers the reader a concrete ethics for global security Questions of morality and ethics have long been central to global security from the death camps world wars and H bombs of the 20th century to the humanitarian missions tsunamis terrorism and refugees of the 21st This book goes beyond the Just War tradition to demonstrate how ethical commitments influence security theory policy and international law across a range of pressing global challenges The book highlights how from patrolling a territorial border to maintaining armed forces security practices have important ethical implications by excluding some from consideration presenting others as potential threats and exposing them to harm and licensing particular actions While many scholars and practitioners of security claim little interest in ethics ethics clearly has an interest in them This innovative book extends the traditional agenda of war and peace to consider the ethics of force short of war such as sanctions deterrence terrorism targeted killing and torture and the ethical implications of new security concerns such as identity gender humanitarianism the responsibility to protect and the global ecology It advances a concrete ethics for an era of global threats and makes a case for a cosmopolitan approach to the theory and practice of security that could inspire a more just stable and inclusive global order This book fills an important gap in the literature and will be of much interest to students of ethics security studies and international relations

GLOBAL SECURITY AND INTERNATIONAL POLITICAL ECONOMY - Volume IV P. Bilgin, P. D. Williams, M. Sekiguchi, J. K. Galbraith, S. T. Inayatullah, J. Wiener, R. A. Schrire, I. L. Murphy, 2010-09-19 Global Security and International Political Economy is a component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias This 6 volume set contains several chapters each of size 5000 30000 words with perspectives issues of great relevance to our world such as Global Security Global Security and the International System The Regional Dimension of Global Security The National Dimension Of Global Security The Societal Dimension Of Global Security The Human Security Agenda In World Politics History Of Empires And Conflicts The Myth Of The Clash Of Civilizations In Dialogical Historical Context Causes And Prevention Of Armed Conflict International Development Policies And Global Security Environment And Global Security Political Economy Of International Security Political Issues In Human Resource Development Globalization And The Consumer Society These volumes are aimed at the following five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs

Governing Borders and Security Catarina Kinnvall, Ted Svensson, 2014-09-19 This book explores and maps the relationship between borders security and global governance Theoretically the book seeks to establish to what degree and in

what ways traditional notions of borders security and global governance are being eroded undermined and contested in the context of a globalising world Borders are increasingly being re conceptualised to account for connectivity as well as divisions at the same time as focus is shifting from permanence to permeability The ambivalence ascribed to bordering processes is at heart a security concern borders are not only entwined with state formation but are also attempts at governing securities identities and histories Proceeding from a critical rendering of statist conceptualisations of borders security and governance the book not only emphasises the politics of borders mobility and re locations but also provides a shared groundwork for interrogating the spatial conditions for bordering and border work as manifestations of a continuously deferred becoming rather than being A principal contribution of the volume is its scrutiny of how borders are enacted and perceived in and through the everyday and of how such production and construal can make sense as acts of resistance to various forms of governing Such a focus reveals the necessity of investigating how governing from afar affects the possibilities and tendencies to securitise as well as desecuritise within as well as beyond elite settings This book will be of much interest to students of border studies human geography governmentality global governance and IR critical security studies

Bourdieu in International Relations Rebecca Adler-Nissen, 2013 This book rethinks the key concepts of International Relations by drawing on the work of Pierre Bourdieu The last few years have seen a genuine wave of publications promoting sociology in international relations Scholars have suggested that Bourdieu's vocabulary can be applied to study security diplomacy migration and global environmental politics Yet we still lack a systematic and accessible analysis of what Bourdieu inspired IR might look like This book provides the answer It offers an introduction to Bourdieu's thinking to a wider IR audience challenges key assumptions which currently structure IR scholarship and provides an original theoretical restatement of some of the core concepts in the field The book brings together a select group of leading IR scholars who draw on both theoretical and empirical insights from Bourdieu Each chapter covers one central concept in IR Methodology Knowledge Power Strategy Security Culture Gender Norms Sovereignty and Integration The chapters demonstrate how these concepts can be reinterpreted and used in new ways when exposed to Bourdieusian logic Challenging key pillars of IR scholarship *Bourdieu in International Relations* will be of interest to critical theorists and scholars of IR theory

The Routledge Research Companion to Security Outsourcing Joakim Berndtsson, Christopher Kinsey, 2016-06-10 Conveniently structured into five sections *The Routledge Research Companion to Outsourcing Security* offers an overview of the different ways in which states have come to rely on private contractors to support interventions Part One puts into context the evolution of outsourcing in Western states that are actively involved in expeditionary operations as well as the rise of the commercial security sector in Afghanistan To explain the various theoretical frameworks that students can use to study security military outsourcing Part Two outlines the theories behind security outsourcing Part Three examines the law and ethics surrounding the outsourcing of security by focusing on how states might monitor contractor

behaviour hold them to account and prosecute them where their behaviour warrants such action The drivers politics and consequences of outsourcing foreign policy are covered in Part Four which is divided into two sections section one is concerned with armed contractors providing the provision of private security with the main driver being a capability gap on the part of the military law enforcement agencies and section two looks at military contractors supporting military operations right back to antiquity less controversial politically and often technologically driven The final Part takes into consideration emerging perspectives exploring areas such as gender feminist methodology maritime security and the impact of private security on the military profession This book will be of much interest to students of military and security studies foreign policy and International Relations *Approaches to Global Governance Theory* Martin Hewson, Timothy J.

Sinclair, 1999-08-26 As the debate over global governance heats up *Approaches to Global Governance Theory* offers a guide to this new terrain The contributors advocate approaches to global governance that recognize fundamental political economic technological and cultural dynamics that engage social and political theory and that go beyond conventional international relations theory We are offered here a guide to this new terrain Beginning with a chapter tracing the emergence of global governance analysis in the 1990s *Approaches to Global Governance Theory* also responds to alternative theoretical conceptions James N Rosenau explores the ontology of global governance In addition Robert Latham develops a critique of Rosenau's thinking while Michael G Schechter examines the limits of the Commission for Global Governance's widely publicized 1995 report and Ronen Palan asks critically Who is to be governed by global governance **Bosnia and Beyond** Jeanne M. Haskin, 2006 Could we should we have prevented the break up of Yugoslavia Can genocide be prevented or halted The author examines the dire consequences of the rapid economic reforms demanded by the West and asks where responsibility lies when external pressures destroy a nation and lead to genocide *Bosnia and Beyond The Quiet Revolution That Wouldn't Go Quietly* is in part the story of how the West destroyed a country through the imposition of economic and political reform Promoted as a way to modernize Yugoslavia and bring it into the mainstream the program was in fact meant to bring down the Communist government in a quiet revolution of the type that was envisaged for other former Soviet bloc countries Showing how Western plans for the liberalization of the country resulted in ethnic polarization and the election of ethno nationalist leaders the book then goes on to describe the events of the war The struggle of the republics for independence was yet another proxy war which the West encouraged in order to chastise Milosevic and nudge him into becoming the man that they wanted him to be While no formal plan has surfaced to show that the whole thing was engineered to provide a base for US NATO troops on the other hand the situation was so egregious that intervention was highly sought and that the West had an obligation to clean up its mess which it finally did Many have been emotionally manipulated into being grateful for NATO intervention and then it was quite convenient that a NATO base existed But how does one say that intervention was needful and then point the finger at the intervening forces One can claim that Germany

Austria and the Vatican were in favor of Croatian and Slovenian secession and the United States came late to the game to demand Bosnian independence. It can also be claimed that Britain and France did not stand in the way of Serbian secession within Bosnia and Croatia but rather promoted their goals. Yugoslavia was a case of secession within secession raising the question of who was supported by whom in either case. The work considers the research and views of a wide range of scholars, historians, journalists, and humanitarian writers such as Cohen and Reisman, Udoviki and Ridgeway, Eds Norman Cigar, Laura Silber, and Alan Little, Danielle Sremac, Michael Walzer, Ed Vulliamy, Peter Maas, Samantha Power, Peter du Preez, Lawrence Freedman, Hoffman, Johansen, and Sterba, Ervin Staub, and Thomas Mockaitis.

Beyond Market Assumptions: Oil Price as a Global Institution Andrei V. Belyi, 2020-03-26. This book defines oil price as a social institution that exists beyond supply demand mechanisms. Discussing oil markets in the context of the broader sociology of prices, it covers a number of theoretical and practical dimensions such as new market uncertainties and trends and social perceptions of energy security and of power. Further based on case studies, it explores the implications for OPEC, Russia, and Central and Eastern Europe as well as for the energy transition and for international investment arbitration. Featuring contributions from leading academics, researchers, and business professionals, the book offers an interdisciplinary perspective on the oil price. This book brings together an impressive team of scholars with fresh perspectives on the oil price. Even as the world attempts energy transition, oil consumption continues, and the oil price is likely to become even more unpredictable and unclear than in the past. This book helps make sense of this challenging topic. Indra Overland is a Research Professor and Head of Centre for Energy Research, Norwegian Institute of International Affairs, NUPI. A revealing and multidimensional analysis of oil price fluctuations in a market that seeks less uncertainty. This book discusses market and price evolution in the context of market theories, history, and real time market analysis. A welcome and timely contribution to our understanding of global energy markets. Dr Sara Vakhshouri is Founder and President of SVB Energy International and Professor of Energy Security at the Institute of World Politics.

Climate Change, Human Security and Violent Conflict Jürgen Scheffran, Michael Brzoska, Hans Günter Brauch, Peter Michael Link, Janpeter Schilling, 2012-05-26. Severe droughts, damaging floods, and mass migration. Climate change is becoming a focal point for security and conflict research and a challenge for the world's governance structures. But how severe are the security risks and conflict potentials of climate change? Could global warming trigger a sequence of events leading to economic decline, social unrest, and political instability? What are the causal relationships between resource scarcity and violent conflict? This book brings together international experts to explore these questions using in-depth case studies from around the world. Furthermore, the authors discuss strategies, institutions, and cooperative approaches to stabilize the climate-society interaction.

Beyond Realism Rekha Datta, 2010-04-20. Focusing on India and Pakistan, this book adopts an innovative combination of realist analysis with a human security approach. It will be a valuable resource for a wide variety of scholars, practitioners, and analysts who focus on policy analysis in South Asia.

Graduate students and advanced undergraduates studying comparative politics and human security issues in South Asia will find useful perspectives in the volume's fresh focus on including human security as a policy priority

Violence against Women in and beyond Conflict Julia Carolin Sachseder, 2022-09-16 Violence against Women in and beyond Conflict explores the processes and structures that underlie and contribute to sexual violence and internal displacement in armed conflict utilizing extensive ethnographic research to provide cutting edge insights The author argues that the key to understanding violence against women lies at the intersection of transnational capital race and gender that not only contribute to its production but also to its persistence The book uses the Colombian armed conflict as the primary case study but develops a broader framework for theorizing the relationship between the global political economy the history of coloniality and intersectional constructions of gender and race with regard to conflict and violence It offers an understanding of violence against women as not isolated from but part and a symptom of a larger system of political social and economic inequality that is rooted in colonialism and exploited and exacerbated by transnational capital relations The author also shows how the state and non state actors most prominently paramilitaries are involved in this relationship of violence The book highlights implications for meaningful and sustainable peace in post conflict contexts This book will be of great interest to students and scholars of international relations gender studies and conflict studies as well as policymakers non governmental organizations and practitioners interested in conflict and security

Index of Conference Proceedings British Library. Document Supply Centre, 2002

The International in Security, Security in the International Pinar Bilgin, 2016-07-15 International Relations continues to come under fire for its relative absence of international perspectives In this exciting new volume Pinar Bilgin encourages readers to consider both why and how non core geocultural sites allow us to think differently about key aspects of global politics Seeking to further debates surrounding thinking beyond the West non West divide this book analyzes how scholarship on and conceptions of the international outside core contexts are tied up with peripheral actors search for security Accordingly Bilgin looks at core periphery dynamics not only in terms of the production of knowledge in the production of IR scholarship or material threats but also peripheral actors conceptions of the international in terms of standard of civilization and their more contemporary guises which she terms as hierarchy in anarchical society The first three chapters provide a critical overview of the limits of our theorizing about IR and security as well as a discussion on the track record of critical approaches to IR and security in addressing those limits The following three chapters offer one way of addressing the limits of our theorizing about IR and security by inquiring into the international in security security in the international Each of these chapters makes a theoretical point and illustrates this further in a spotlight section that further illustrates the point to aid student learning A genuinely innovative contribution to this rapidly emerging field within IR this book is essential reading for students and scholars of critical security international relations theory and Global IR

Governing Human Life Ondrej Ditrych, Constanza Sánchez Avilés, 2023-08-31 This book

is a critical analysis tracing the operation of biopolitical mode of power in the global field of drug control Through a series of theoretically framed investigations that relate current drug control policies to the broader frame of vital politics it attends to the relationship of drug control state of exception and democracy exploring how pressures of resurgent sovereignty and neoliberal governmentality imprint on drug policy Then it turns attention to the relationship of power and knowledge with a particular focus on the evidence based approaches that may at times sustain rather than challenge prohibitionist drug control policies Finally it looks at how the global drug control dispositif shapes life on one of Europe s internal peripheries These investigations are intended to illuminate the operation of the drug control dispositif and its far reaching bio political effects in order to expand the space for devising more competent and compassionate public policies

News flows from Latin America to the British press Annalena Oeffner, 2005-12-15 Inhaltsangabe Zusammenfassung Der Nachrichtenfluss von Entwicklungs zu Industriel ndern wird seit Jahrzehnten heftig debattiert Auch den britischen Medien wird eine unausgewogene Auslandsberichterstattung vorgeworfen die ein verzerrtest Bild der Realit t zeigt Diese Arbeit analysiert die Nachrichten ber Lateinamerika in der britischen Presse und richtet dabei besondere Aufmerksamkeit auf die Autoren der Artikel und darauf wer ber Lateinamerika zu Worte kommt In welchem Ma e sich Einheimische in den britischen Zeitungen Geh r verschaffen k nnen wird dabei ebenso behandelt wie die Bedeutung von alternativen Quellen z B andere Nachrichtenagenturen als die Gro en Drei Die Gr nde f r redaktionelle Entscheidungen wie z B der Einsatz von festen Korrespondenten anstelle von eingeflogenen Reportern oder die Wahl der Nachrichtenagenturen und journalistische Praktiken werden au erdem untersucht Die folgenden Fragen sollen beantwortet werden Welches Bild vermittelt die britische Presse von Lateinamerika Auf welchem Wege flie en die Nachrichten von Lateinamerika zur britischen Presse Wer schreibt sie Welche Informationsquellen werden genutzt welche vernachl ssigt Wird Einheimischen und alternativen Quellen Geh r verschafft Auf der Grundlage einer Inhaltsanalyse von f nf britischen broadsheet Zeitungen und Interviews mit britischen Korrespondenten in Lateinamerika sowie Lateinamerikanern die in Gro britannien leben weist diese Arbeit nach dass viele der Bedenken die vor 25 Jahren in den Debatten ber globale Nachrichtenfl sse zum Ausdruck gebracht wurden noch immer Relevanz haben Obwohl sich viele Journalisten darum bem hen dies zu ndern tragen verschiedene Faktoren noch immer dazu bei dass sie es meist nicht schaffen die ffentlichkeit mit ausgewogenen Berichten ber Geschehnisse und Prozesse in Lateinamerika zu versorgen die frei von Stereotypen sind und sich auf eine Vielzahl von Informationsquellen st tzen Hinweis Diese Arbeit ist in englischer Sprache verfasst Abstract For several decades the news flows from developing to industrialized countries have been a major issue of debate In Britain too foreign reporting is said to be unbalanced thus creating a distorted picture of reality This study analyses the way in which news about Latin America is being covered by the British quality press looking in particular at who writes the news and who is speaking about Latin America It aims to

SOCIOLOGY AND WELFARE DEVELOPMENT Muhamad Fadhil Nurdin, Ali Maksum, Indri Indarwati, Agung Mahesa

Himawan Dorodjatoen, Forina Lestari, Hery Wibowo, Lim Jen Zen, Bintarsih Sekarningrum, Mitshel Lino, Azlinda Azman, 2015 This book provides a comprehensive assessment regarding sociology and welfare development discourses with a new paradigm and approaches to build Indonesian future This compilation chapter divided into fifteen chapters conclusion and also given constructive policy recommendations Although all authors in this book are depart from various background and issues yet they produce and extent some challenges should become serious attention especially the government I can argue that this book is very multidisciplinary and discussed from various angle **Directory of Published Proceedings**, 2003

Nordic Societal Security Sebastian Larsson, Mark Rhinard, 2020-07-08 This book compares and contrasts publicly espoused security concepts in the Nordic region and explores the notion of societal security Outside observers often assume that Nordic countries take similar approaches to the security and safety of their citizens This book challenges that assumption and traces the evolution of societal security and its broadly equivalent concepts in Sweden Norway Denmark and Finland The notion of societal security is deconstructed and analysed in terms of its different meanings and implications for each country through both country and issue focused studies Each chapter traces the evolution of key security concepts and related practices allowing for a comparison of similarities and differences between these four countries Using discourses and practices as evidence this is the first book to explore how different Nordic nations have conceptualised domestic security over time The findings will be valuable to scholars from across the geographical and theoretical spectrum while highlighting how Nordic security discourses and practices may deviate from traditional assumptions about Nordic values This book will be of much interest to students of security studies Nordic politics and International Relations The Open Access version of this book available at <https://www.routledge.com/Nordic+Societal+Security+Convergence+and+Divergence/Larsson/Rhinard/p/book/9780367492922> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
