Glocalization Victor Roudometof, 2016-06-10 This book seeks to provide a critical introduction to the under theorized concept of Glocalization While the term has been slowly diffused into social scientific vocabulary to date there is no book in circulation that specifically discusses this concept Historically theorists have intertwined the concepts of the global and the glocal or have subsumed the glocal under other concepts such as cosmopolitanization Moreover theorists have failed to give local due attention in their theorizing The book argues that the terms global the local and the glocal are in need of unambiguous and theoretically and methodologically sound definitions This is a prerequisite for their effective operationalization and application into social research Glocalization is structured in two parts Part I introduces the term seeking to provide a history and critical assessment of theorists past use

of glocalization and offering an alternative perspective and a clear effective and applicable definition of the term explaining the limitations of the term globalization and the value of defining glocalization Part II then moves on to illustrate how the concept of glocalization can be used to broaden our understanding and analysis of a wide range of issues in world politics including the 21st century culture of consumption transnationalism cosmopolitanism nationalism and religious traditions Utilizing a wide range of historical ethnographic and real life examples from various domains this work will be essential reading for students and scholars of Globalization and will be of great interest to those in the field of Global Transnational and Cosmopolitan Studies
