Globalization and Indigenous Peoples in Asia Dev Nathan, Govind Kelkar, Pierre Gilbert Walter. 2004 Globalization and Indigenous Peoples in Asia Dev Nathan, Govind Kelkar, Pierre Walter, 2004-09-22 Contributed articles and seminar papers most previously published in the Economic and political weekly The SAGE Handbook of Globalization Manfred Steger, Paul Battersby, Joseph Siracusa, 2014-05-22 Global studies is a fresh and dynamic discipline area that promises to reinvigorate undergraduate and postgraduate education in the social sciences and humanities In the Australian context the interdisciplinary pedagogy that defines global studies is gaining wider acceptance as a coherent and necessary approach to the study of global change Through the Global Studies Consortium GSC this new discipline is forming around an impressive body of international scholars who define their expertise in global terms The GSC paves the way for the expansion of global studies programs internationally and for the development of teaching and research collaboration on a global scale Mark Juergensmeyer and Helmut Anheier's forthcoming Encyclopaedia of Global Studies with SAGE is evidence of this growing international collaboration while the work of Professor Manfred Steger exemplifies the flourishing academic literature on globalization RMIT University s Global Cities Institute represents a substantial institutional investment in interdisciplinary research into the social and environmental implications of globalization in which it leads the way internationally Given these developments the time is right for a book series that draws together diverse scholarship in global studies This Handbook allows for extended treatment of critical issues that are of major interest to researchers and students in this emerging field The topics covered speak to an interdisciplinary approach to the study of global issues that reaches well beyond the confines of international relations and political science to encompass sociology anthropology history media and cultural studies economics and governance environmental sustainability international law and criminal justice Specially commissioned chapters explore diverse subjects from a global vantage point and all deliberately cohere around core global concerns of narrative praxis space and place This integrated approach sets the Handbook apart from its competitors and distinguishes Global Studies as the most equipped academic discipline with which to address the scope and pace of global change in the 21st century The Cost of Globalization Julian E. Kunnie, 2015-03-27 The issues arising from rapid global integration have generally been treated in isolation by most academic works. This volume examines the many pitfalls of globalization from the perspective of impoverished and indigenous peoples including the widening wealth gap the struggle for restoration of dispossessed lands and cultural rights global warming and ecological annihilation and the experiences of women in underdeveloped regions The United States growing prison industrial complex is discussed The author concludes with a call for reassessing current ways of living and proposes recreating cultures of conservation and sustainable economies Instructors considering this book for use in a course may request an examination copy here International Trade and Global Civil Society Dev Nathan, D Narasimha Reddy, Govind Kelkar, 2012-04-27 This study challenges the dominant tendency

of civil society to negate international trade as such The authors argue that it is necessary to frame differentiated trade rules based on levels of economic development and also to shift from subsidies to shore up uncompetitive livelihoods to productivity enhancing investments Most importantly the book ends with a case for trade unions women s organizations and other civil society organizations to imagine and create themselves as being global in order to take up the challenge of strengthening global countervailing power to capital Indigeneity in the Philippines Leah Abayao, Jimmy Fong, Carolyn Podruchny, 2025-09-30 In the Philippines the concept of Indigeneity is deeply intertwined with colonial history a pattern echoed across the globe Yet its manifestation in the Philippines bears distinct features The Philippine Indigenous Peoples Rights Act of 1997 identifies as Indigenous groups who resisted colonization Today the Philippines recognizes approximately 110 diverse Indigenous ethnic groups that are made up of 14 17 million people This book aims to show how discussions of Indigeneity in the Philippines can contribute to the conversation about global Indigeneity by highlighting the distinct circumstances of the Philippines The fourteen essays in this volume are divided into four sections Defining Indigenous Peoples and their Rights Indigenous Knowledge Colonialism and Making Identities The interdisciplinary essays touch on Indigenous peoples throughout the Philippines and beyond to diasporas Most of the essays are rooted in northern Luzon in the Cordillera region reflecting the field's strength A variety of theoretical insights emerge in the volume but a common thread is each essay s firm grounding in specific people places and processes and the critical reading of source materials The twenty four contributors teach us that Indigeneity in the Philippines is a complex and evolving identity brought to national attention by the hard work of Indigenous communities In the Philippines today Indigenous peoples continue to negotiate their rights affirm their presence and advocate for their concerns Indigenous knowledge has been flourishing in epistemologies rituals stories books and educational structures This volume of essays on Indigeneity in a nation that is known for its support of Indigenous groups is one of the first of its kind for Southeast Asia **Globalization and Security** G. Honor Fagan, Ronaldo Munck, 2009-10-27 A unique set provides an up to date overview of the impact of globalization on international security by examining how the interrelationships of economics politics and culture determine levels of stability within regions around the world Globalization and Security An Encyclopedia addresses the need for an authoritative but accessible analysis of the impact of globalization on security and its multifaceted aspects Broad in scope this two volume set covers the economic and political aspects of globalization as well as its social and cultural impacts More importantly it is the first work to focus explicitly on security including human security broadly conceived and the role that globalization plays in the world's new and ever evolving security environment While more books on globalization are becoming available none focus on the impact of globalism on security related issues as this set does Drawing on the expertise of specialists from many disciplines and nations Globalization and Security directly addresses the needs of one of the fastest growing areas of study the intersection of globalization and security worldwide The Routledge Companion to Global Indigenous History Ann

Nation Branding in Non-Western Societies

Shantanu Chakrabarti, 2025-02-03 A country's stature in global politics is often determined by its popular image and public perceptions as reflected in global media While nation branding as a term and a tool of analysis in Social Sciences has emerged prominently since the 1990s the practice of positive projection of states regions and locality along with non state institutions has deeper historical roots Apart from nation branding the cultural turn in International Relations has led to popularisation of analytical concepts like soft power and civilisation or civilisational states. The present work focuses on two of these concepts nation branding and civilisation state and traces the historical process of evolution in Indian nation building project It analyses the evolving concept of civilisation state and its association with the strong urge for autonomy along with the self perception of national and cultural greatness shared by the Indian elite leading to a search for identity and recognition of the intra regional and extra regional linkages in terms of shared cultural and historical identity It also looks into the process of continuity from independence to present times and to what extent this has influenced Indian elite thinking and conceptualisation of India's status in global affairs Print edition not for sale in South Asia India Sri Lanka Nepal Bangladesh Pakistan and Bhutan Authenticity and Authentication of Heritage Deepak Chhabra, 2021-05-27 Authenticity and Authentication of Heritage presents an assimilation of chapters that critically address some of the key emerging areas associated with authenticity It presents a variety of inspiring pieces of work that range from host guest authentication and intangible heritage to knowledge transfer processes authenticating heritage in fairy tale settings authenticity and anxiety in the smell of death and life understanding the boundaries of authenticity nostalgia sustainability marketing destination competitiveness examining affective connotations of authenticity and their contribution towards optimizing hedonic and eudaimonic well being during times of disruption The contentious concept of authenticity continues to be valorised in heritage tourism This scholarly initiative seeks to broaden the discursive parameters of authenticity and identify power mechanisms that shape the way authenticity is produced marketed and consumed This is an attempt to share contemporary views on how the contemporary notions of authenticity are derived interpreted applied processed and legitimised in local and global contexts Furthermore the significant relationship between health and authenticity is explored To put it simply this pandemic has significantly halted the way people connect with their cultural resources and seek authenticity within their inner selves and the outside realms in the heritage tourism system Heightened sense of global consciousness is a call to polish our authentic selves and elevate above inauthenticity or moral hypocrisy So is authenticity an evolving story or is it a story of floating immobility Who can tell the story and who decides what elements to fossilise How can existentialist authenticity and self authentication promote moral selving and well being of the self and the society Many questions like these have emerged in recent literature and this book uses conceptual empirical and theoretical explorations to identify and engage with such inquiries The chapters in this book except for the concluding chapter were originally published as a special issue of the Journal of Heritage Tourism Land and Cultural Survival Jayantha Perera, 2009-09-01 Development in Asia

faces a crucial issue the right of indigenous peoples to build a better life while protecting their ancestral lands and cultural identity. An intimate relationship with land expressed in communal ownership has shaped and sustained these cultures over time. But now public and private enterprises encroach upon indigenous peoples traditional domains extracting minerals and timber and building dams and roads Displaced in the name of progress indigenous peoples find their identities diminished their livelihoods gone. Using case studies from Cambodia India Malaysia and the Philippines nine experts examine vulnerabilities and opportunities of indigenous peoples. Debunking the notion of tradition as an obstacle to modernization they find that those who keep control of their communal lands are the ones most able to adapt
