Glyph Three Johns Hopkins Textual Studies:

Glyph Textual Studies, 1986 **Writing Cultural History in Colonial and Postcolonial India** Henry Schwarz, 2016-11-11 During the colonial period in India English historians portrayed the British conquest and domination of India as the realization of a historic destiny absorbing the particular history of India into the overarching narrative of the Empire When Indian scholars educated in the British system began to write their own histories of the period they had to struggle to reclaim their past and to make the Indian people the subject of their history Henry Schwarz explores this struggle through an analysis of Indian cultural histories written between 1870 and the present Focusing on English language texts written by Bengali historians on the subjects of literature and culture Schwarz critically analyzes landmark works of the genre and compares Indian writing about cultural heritage to the dominant forms of European historiography prevalent during the colonial period Indian historians incorporated European aesthetic standards and theories of history into their writing yet they managed to transform these ideas in ways that challenged British ideological domination Schwarz shows how in writing a distinctly Indian history of India they produced a unique historiographical style of great complexity deploying brilliant reconfigurations of the dominant themes styles ideologies and tropes that characterize acceptable modes of history writing in the West Moving from the late nineteenth century to the present Schwarz identifies six distinct modes of translation and transformation produced by these writers ranging from liberal nationalist text to those of writers associated with the Subaltern Studies project He analyzes the narrative modes employed during the period and traces the movement toward the metaphoric and ironic styles of the post Independence era *Writing Cultural History in Colonial and Postcolonial India* provides a needed counterweight to the emphasis on colonial discourse that has come to dominate recent postcolonial scholarship By examining how the colonized interpreted and transformed the experience of oppression through their own work this book represents postcolonial studies written from the other side *Glyph* Walter B. Michaels, 1980-12 **Applied Grammarology** Gregory L. Ulmer, 2019-12-01 Originally published in 1984 In *Applied Grammarology* Gregory Ulmer provides an extraordinary introduction to the third applied phase of grammarology the science of writing outlined by Jacques Derrida in *Of Grammarology* Ulmer looks to the later experimental works of Derrida beginning with *Glas* and continuing through *Truth in Painting* and *The Post Card* In these he discovers a critical methodology radically different from the deconstruction for which Derrida is known At the same time he finds the source of a new pedagogy for all the humanities one based on grammarology and appropriate to the era of audiovisual communications in which we live Detractors of Derrida often accuse him of superficial wordplay and of using images and puns as nonfunctional subversions of academic conventions Ulmer argues that there is in fact a fully developed use of homonyms in Derrida's style which produces its own distinctive knowledge and insight Derrida's experiments with images moreover his expansion of descriptions of everyday objects such as umbrellas matchboxes and post cards into cognitive models serve to reveal a simplicity underlying intellectual discourse

which could be used to eliminate the gap separating the general public from specialists in cultural studies Comparing the stylistic innovations of Derrida with Jacques Lacan's use of puns and diagrams with the German performance artist Joseph Beuys's demonstration of models and with the montage writing of the films of Sergei Eisenstein Ulmer explores the possibility of deriving a postmodernist pedagogy from Derrida's texts The first study to suggest the full potential of the program available in Derrida's writings *Applied Grammatology* is also the first outline of a Derridean alternative to deconstructionism With its shift away from Derrida's philosophical studies to his experimental texts Ulmer's book aims to inaugurate a new movement in the American adaptation of contemporary French theory *The Poetry of John Milton*

Gordon Teskey, 2015-06-15 For sublimity and philosophical grandeur Milton stands almost alone in world literature His peers are Homer Virgil Dante Wordsworth and Goethe Gordon Teskey shows how Milton's aesthetic joins beauty to truth and value to ethics and how he rediscovers the art of poetry as a way of thinking in the world as it is and for the world as it can be

The Sphinx in the City Elizabeth Wilson, 1992-03-10 Adopting the guise of a flaneur Wilson reconsiders the classical imagery of the city from the viewpoints of diverse groups of women bourgeois wives prostitutes transvestite writers and others Its originality resides in its deft consistently provocative interweaving of underground feminist discourses with the familiar male infected rhetorics of urban experience Mike Davis author of *City of Quartz* **Penelope Voyages** Karen R. Lawrence, 2018-08-06 Looking at travel writing by British women from the seventeenth century on Karen R. Lawrence asks an intriguing question What happens when instead of waiting patiently for Odysseus Penelope voyages and records her journey when the woman who is expected to wait sets forth herself and traces an itinerary of her own Lawrence ranges widely discussing both fiction and nonfiction and traversing the genres of travel letters realistic and sentimental novels ethnography fantasy and postmodern narrative In examining works as dissimilar as Margaret Cavendish's rendition of the Renaissance adventure narrative and Christine Brooke Rose's postmodernist *Between* she explores not only the significance of gender for travel writing but also the value of travel itself for testing the limits of women's social freedoms and restraints Lawrence shows how writings by Frances Burney Mary Wollstonecraft Sarah Lee Mary Kingsley Virginia Woolf and Brigid Brophy reconceive the meanings of femininity in relation to such apparent oppositions as travel home other self and foreign domestic Despite the differences historical generic political among these writers Lawrence maintains they share common insights Their accounts overturn the dichotomy between adventure and domesticity demonstrating something illusory within both the stability of home and the freedom of travel *Marxism and Deconstruction* Michael Ryan, 2019-12-01 Originally published in 1982 Aside from Jacques Derrida's own references to the possible articulation between deconstruction and Marxism the relationship between the two has remained largely unexplored In *Marxism and Deconstruction* Michael Ryan examines that multifaceted relationship but not through a mere comparison of two distinct and inviolable entities Instead he looks at both with an eye to identifying their common elements and reweaving them into a new theory of political practice To accomplish

his task Ryan undertakes a detailed comparison of deconstruction and Marxism relating deconstruction to the dialectical tradition in philosophy and demonstrating how deconstruction can be used in the critique of ideology He is a forceful critic of both the politics of deconstruction and the metaphysical aspect of Marxism as seen from a deconstructionist perspective Besides offering the first book length study of Derrida in this context Ryan makes the first methodic attempt by an American scholar to apply deconstruction to domains beyond literature He proposes a deconstructive Marxism one lacking the metaphysical underpinnings of conservative scientific Marxist theory and employing deconstructive analysis both for Marxist political criticism and to further current anti metaphysical developments within Marxism Marxism and Deconstruction is an innovative and controversial contribution to the fields of literary criticism philosophy and political science *Why Are Our Pictures Puzzles?* James Elkins,2004-11-23 With bracing clarity James Elkins explores why images are taken to be more intricate and hard to describe in the twentieth century than they had been in any previous century *Why Are Our Pictures Puzzles* uses three models to understand the kinds of complex meaning that pictures are thought to possess the affinity between the meanings of paintings and jigsaw puzzles the contemporary interest in ambiguity and levels of meaning and the penchant many have to interpret pictures by finding images hidden within them Elkins explores a wide variety of examples from the figures hidden in Renaissance paintings to Salvador Dali s paranoiac meditations on Millet s *Angelus* from Persian miniature paintings to jigsaw puzzles He also examines some of the most vexed works in history including Watteau s meaningless paintings Michelangelo s Sistine Ceiling and Leonardo s Last Supper *Satire Or Evasion?* James S. Leonard,Thomas Tenney,Thadious M. Davis,1992 Though one of America s best known and loved novels Mark Twain s *Adventures of Huckleberry Finn* has often been the object of fierce controversy because of its racist language and reliance on racial stereotypes This collection of fifteen essays by prominent African American scholars and critics examines the novel s racist elements and assesses the degree to which Twain s ironies succeed or fail to turn those elements into a satirical attack on racism Ranging from the laudatory to the openly hostile these essays include personal impressions of *Huckleberry Finn* descriptions of classroom experience with the book evaluations of its ironic and allegorical aspects explorations of its nineteenth century context and appraisal of its effects on twentieth century African American writers Among the issues the authors contend with are Twain s pervasive use of the word nigger his portrayal of the slave Jim according to the conventions of the minstrel show darky and the thematic chaos created by the evasion depicted in the novel s final chapters Sure to provoke thought and stir debate *Satire or Evasion* provides a variety of new perspectives on one of this country s most troubling classics Contributors Richard K Barksdale Bernard W Bell Mary Kemp Davis Peaches M Henry Betty Harris Jones Rhett S Jones Julius Lester Donnarae MacCann Charles H Nichols Charles H Nilon Arnold Rampersad David L Smith Carmen Dubryan John H Wallace Kenny Jackson Williams Fredrick Woodard **Phenomenology** Leonard Lawlor,2014-09-03 After Husserl the study of phenomenology took off in different directions The ambiguity inherent in phenomenology between

conscious experience and structural conditions lent itself to a range of interpretations Many existentialists developed phenomenology as conscious experience to analyse ethics and religion Other phenomenologists developed notions of structural conditions to explore questions of science mathematics and conceptualization Phenomenology Responses and Developments covers all the major innovators in phenomenology notably Sartre Merleau Ponty and the later Heidegger and the major schools and issues The volume also shows how phenomenological thinking encounters a limit a limit most apparent in the aesthetical and hermeneutical development of phenomenology The volume closes with an examination of the furthering of the division between analytic and continental philosophy

The J. Hillis Miller Reader Joseph Hillis Miller, Julian Wolfreys, 2005 This anthology exhibits the diversity inventiveness and intellectual energy of the writings of J Hillis Miller the most significant North American literary critic of the twentieth century From the 1950s onward Miller has made invaluable contributions to our understanding of the practice and theory of literary criticism the ethics and responsibilities of teaching and reading and the role of literature in the modern world He has also shown successive generations of scholars and students the necessity of comprehending the relationship between philosophy and literature Divided into six sections the volume provides more than twenty significant extracts from Miller's works In addition there is a new interview with Miller as well as a series of specially commissioned critical responses to Miller's work by a number of the leading figures in literary and cultural studies today Following a comprehensive critical introduction by the editor each section has a brief introduction directing the reader toward pertinent themes There is also a comprehensive bibliography and a chronology of Miller's professional life and activities This reader the first of Miller's work in English provides an indispensable overview and introduction to one of the most original critical voices to have emerged since the inception of the teaching of English and American literature in universities in the English speaking world

Paperbound Books in Print, 1992

The Stelliferous Fold Rodolphe Gasché, 2011 This book seeks to develop a novel approach to literature beyond the conventional divide between realism formalism and history aestheticism It accomplishes this not only through a radical reassessment of the specificity of literature in distinction from one of its others namely philosophy but above all by taking critical issue with the venerable concept of the text and its association with the artisanal techniques of weaving and interlacing This conception of the text as an artisanal fabric is the author holds the unreflected presupposition of both realist or historicist and reflective or deconstructive criticism Gasché argues that the scenes of production within literary works created by their authors yet independent of those authors intentions stage a work's own production in virtual fashion and thus accomplish for those works a certain ideal ontological status that allows for both historical endurance and creative interpretation In Gasché's construction of these scenes in which literary works render visible within their own fabric the invisible conditions of their autonomous existence certain images prevail the fold the star the veil By showing that these literary images are not simply the opposites of concepts he not only puts into question the common opposition between

literature and philosophy but shows that literary works perform a way of argumentation that in spite of all its difference from philosophical conceptuality is on a par with it The argument progresses through close readings of literary works by Lautr
 amont Nerval de l Isle Adam Huysman Flaubert Artaud Blanchot Defoe and Melville **Absorption and Theatricality**
 Michael Fried,1988-09-15 With this widely acclaimed work Michael Fried revised the way in which eighteenth century
 French painting and criticism are viewed and understood Analyzing paintings produced between 1753 and 1781 and the
 comments of a number of critics who wrote about them especially Dennis Diderot Fried discovers a new emphasis in the art
 of the time based not on subject matter or style but on values and effects **Herman Melville** Harold Bloom,2008 Presents
 a collection of criticism devoted to the work of American author Herman Melville **Language Sciences** ,1997 **Catalog**
