Gnosis: The exoteric cycle Boris Mouravieff,1989 *Gnosis. Book One. The Exoteric Cycle. Study and Commentaries on the Esoteric Tradition of Eastern Orthodoxy* Boris Mouravieff,1989 **Gnosis** Boris Mouravieff,1993 *Gnôsis : study and commentaries on the esoteric tradition of eastern orthodoxy* Boris Mouravieff,Fû'âd Râmiz,2005 *Beyond 2012: Catastrophe or Awakening?* Geoff Stray,2009-05-21 An illustrated encyclopedic overview of the prophecies calendars and theories that indicate the year 2012 is a threshold of great change for humanity Looks at the scientific and anthropological evidence for the rare galactic alignment due to occur in December 2012 Sifts through the catastrophic theories to show what we might really expect in 2012 In December of 2012 the Mayan Calendar s Great Cycle will come to an end Opinion remains divided as to whether apocalyptic scenarios of worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed What is certain however is that a rare galactic alignment will occur one so unique that it is found at the core of many wisdom traditions from around the globe Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena since 1982 Far from confining his research to the Maya who provide the most prominent predictions indicating this date will herald significant changes for humanity he has studied the prophetic traditions of other cultures including the Tibetan Chinese Jewish Ethiopian and tribal cultures from around the globe to show the kind of convergence of cosmic purposes happening along a number of parallel tracks This book offers an extensive study of many modern theories including Terence McKenna s timewave zero and Maurice Cotterell s sunspot research as well as anomalous phenomena such as near death experiences and crop circles Sifting through all the scientific research and speculation that the year 2012 has inspired Geoff Stray provides an encyclopedic look at what we might really expect on this pivotal date *The Globalization of Hesychasm and the Jesus Prayer* Christopher D.L. Johnson,2010-10-14 The meditative prayer practices known as Hesychasm and the Jesus Prayer have played an important role in the history of Eastern Orthodox Christianity This book explores how these prayer practices have spread from a primarily monastic setting within Orthodox Christianity into general Orthodox Christian usage and finally into wider contemporary Western culture As a result of this gradual geographic shift from a local to a global setting caused mainly by immigration and dissemination of related texts there has been a parallel shift of interpretation causing disagreement By analyzing ongoing conversations on the practices this book shows how such disagreements are due to differences in the way groups understand the ideas of authority and tradition These fundamental ideas lie beneath much of the current discussion on particular aspects of the practices and also contribute to the wider academic debate over the globalization and appropriation of religious traditions **The Science and Practice of Humility** Jason Gregory,2014-10-09 Humility being open and receptive to all experience is the key to becoming one with the spontaneous patterns of the universe Integrates classic teachings of Hinduism and Buddhism with principles of quantum physics to reveal the science of the enlightened masters Reveals how we are each capable of shifting

from the aggressive path of the warrior to the humble path of the sage Explains how the key to catching the current acceleration of conscious evolution is humility From Krishna and Lao tzu to Buddha and Jesus each enlightened master discovered how being receptive to all experience was the key to becoming one with the universe and its spontaneous patterns of order and chaos Revealing humility as the purest expression of this receptivity Jason Gregory integrates classic teachings of Hinduism Buddhism Taoism and Hermeticism with principles from quantum physics to explain the science of humility as practiced by the ancient masters The author shows how driven by fear the human mind creates the ego In its greedy and arrogant quest to protect the self and its desires the ego forges the illusion of separation weaving complex patterns of reality that shield us from our unity with all beings and result in attitudes of aggression selfishness and competition He reveals how the iconic clash between this complex aggressive path of the warrior and the simple path of the sage is reflected in the polarized state of the modern world Yet this state also reflects the accelerating wave of conscious evolution we are now experiencing The key to catching this evolutionary wave is humility the reversal of complexity into simplicity the ancient science of mental alchemy that represents the Great Work of Eternity **The Spiritual Universe**

Fred Alan Wolf, 1999-01-01 From a National Book Award winner methodical and clear provides physics phobics a wide bridge to understanding some often arcane material Booklist Why do we believe in the soul Does it actually exist If so what is it Does it differ from the self Does it survive the body after death In The Spiritual Universe Fred Alan Wolf brings the most modern perspective of quantum physics to the most ancient questions of religion and philosophy Taking the reader on a fascinating tour of both Western and Eastern thought Wolf explains the differing view of the soul in the works of Plato Aristotle and St Thomas the ancient Egyptian s belief in the nine forms of the soul the Qabalistic idea of the soul acting in secret to bring spiritual order to a chaotic universe of matter and energy and the Buddhist vision of a nonsoul Wolf then mounts a defense of the soul against its modern critics who see it as nothing more than the physical body One of the few pathfinders who have discovered the versatility and potency of the new quantum paradigm based on consciousness Amit Goswami Professor of Physics and author of The Self Aware Universe The questions are exhilarating and the conclusions are properly mysterious and profoundly inconclusive you ll love the spirited journey Thomas Moore author of Care of the Soul and The Re Enchantment of Everyday Life Wolf is a new Thales for a new physics of the soul his book will blow your mind and quicken your spirit Michael Grosso Ph D author of The Millennium Myth and Frontiers of the Soul **Orthodox Christianity** Carl S. Cyclical Time & Ismaili Gnosis Henry Corbin, 2013-01-11 First published in 1983 The volume Cyclical Time and Ismaili Gnosis brings together in English translation three of Henry Corbin's richest and most complex studies originally presented at the Eranos conferences of 1951 and 1954 and another conference in 1956 Each of these three relatively early studies is built around a complex highly creative comparison of the phenomenological correspondences between texts often highly fragmentary from a vast range of spiritual traditions from late Antiquity including Manichaenism and the sects of Sassanid Iran all gnostic in the root Greek sense of that term favoured by Corbin though not in the narrower historical sense used by most contemporary scholars and comparable spiritual themes in an equally wide range of Islamic texts eventually preserved in the later Ismaili Shi'i tradition *Gnosis* Dan Merkur, 1993-10-05 Gnosis traces the use of powerful gnostic visionary techniques from Hellenistic Gnosticism and Jewish merkabah mysticism through Muhammad the Ismaeili and theosophical Sufism to medieval neoplatonism and renaissance alchemy **Encyclopaedia Iranica: Giōni** Ehsan Yarshater, 2003

Encyclopædia Iranica Ehsan Yarshater, 2003-05 Gnosis and Hermeticism from Antiquity to Modern Times R. van den Broek, Wouter J. Hanegraaff, 1998-01-01 This volume introduces what has sometimes been called the third component of western culture It traces the historical development of those religious traditions which have rejected a world view based on the primacy of pure rationality or doctrinal faith emphasizing instead the importance of inner enlightenment or gnosis a revelatory experience which was typically believed to entail an encounter with one's true self as well as with the ground of being God The contributors to this book demonstrate this perspective as fundamental to a variety of interconnected traditions In Antiquity one finds the gnostics and hermetics in the Middle Ages several Christian sects The medieval Cathars can to a certain extent be considered part of the same tradition Starting with the Italian humanist Renaissance hermetic philosophy became of central importance to a new religious synthesis that can be referred to as Western Esotericism The development of this tradition is described from Renaissance hermeticists and practitioners of spiritual alchemy to the emergence of Rosicrucianism and Christian theosophy in the seventeenth century and from post enlightenment aspects of Romanticism and occultism to the present day New Age movement *Dictionary of Gnosis and Western Esotericism* Wouter J. Hanegraaff, Antoine Faivre, R. van den Broek, Jean-Pierre Brach, 2005 This is the first comprehensive reference work to cover the entire domain of Gnosis and Western Esotericism from Late Antiquity to the present It contains critical discussions

of all its major authors currents and manifestations from Gnosticism to the New Age Also available soon in unabridged one volume edition
