Heavens Breath A Natural History Of The Wind:

Heaven's Breath Lyall Watson, 2019-08-13 A comprehensive and fascinating study of how wind has shaped the world as we know it affecting all aspects of human and natural life from geography to political history plant life to psychology and biology to philosophy The Observer Wind is everywhere and nowhere Wind is the circulatory system of the earth and its nervous system too Energy and information flow through it It brings warmth and water enriches and strips away the soil aerates the globe Wind shapes the lives of animals humans among them Trade follows the path of the wind as empire also does Wind made the difference in wars between the Greeks and Persians the Mongols and the Japanese Wind helped to destroy the Spanish Armada And wind is no less determining of our inner lives the f hn mistral sirocco Santa Ana and other ill winds of the world are correlated with disease suicide and even murder Heaven s Breath is an encyclopedic and enchanting book that opens dazzling new perspectives on history nature and humanity *The Mistral* Catherine Tatiana

Dunlop, 2024-10-14 An in depth look at the hidden power of the mistral wind and its effect on modern French history Every year the chilly mistral wind blows through the Rh ne valley of southern France across the Camargue wetlands and into the Mediterranean Sea Most forceful when winter turns to spring the wind knocks over trees sweeps trains off their tracks and destroys crops Yet the mistral turns the sky clear and blue as it often appears in depictions of Provence The legendary wind is central to the area s regional identity and has inspired artists and writers near and far for centuries This force of nature is the focus of Catherine Dunlop s *The Mistral* a wonderfully written examination of the power of the mistral wind and in particular the ways it challenged central tenets of nineteenth century European society order mastery and predictability As Dunlop shows while the modernizing state sought liberation from environmental realities through scientific advances land modification and other technological solutions the wind blew on literally crushing attempts at control and becoming increasingly integral to regional feelings of place and community **The Book of Nature** Barbara Mahany, 2023-03-21

We live inside a nautilus of prayer if only we open our senses and perceive what is infused all around Throughout millennia and across the monotheistic religions the natural was often revered as a sacred text By the Middle Ages this text was given a name The Book of Nature the first best entry point for encounter with the divine The very act of reading the world of focusing our attention on each twinkling star and unfurling blossom humbles us and draws us into sacred encounter As we grapple to make sense of today s tumultuous world one where nature is at once a damaged and damaging source of disaster as well as a place of refuge and retreat we are called again to examine how generously it awaits our attention and devotion standing ready to be read by all Weaving together the astonishments of science the profound wisdom and literary gems of thinkers poets and observers who have come before us and her own spiritual practice and gentle observation Barbara Mahany reintroduces us to The Book of Nature an experiential framework of the divine God s first revelation came to us through an ongoing creation one that through stillness and attentiveness to the rumblings of the heavens the seasonal eruptions of earth

the invisible pull of migration of tide and of celestial shiftings draws us into sacred encounter We needn't look farther for the divine

Jacobson's Organ: And the Remarkable Nature of Smell Lyall Watson, 2000-04-17 Nothing is more memorable than a smell So why do we persist in dismissing the nose as a blunt instrument Smell is our most seductive and provocative sense invading every domain of our lives We can identify our relatives detect the availability of a potential mate sniff out danger and distinguish between good and bad food just with our noses In this surprising and delightful book Lyall Watson rescues our most unappreciated sense from obscurity He brings to light new evidence concerning Jacobson's Organ an anatomical feature discovered high in the nose in 1811 and dismissed for centuries as a vestigial ghost Yet recent research has shown Jacobson's Organ to be an incredibly influential pheromonal mechanism that feeds the area of the brain affecting our awareness emotional states and sexual behavior Following the seven classes of smell devised by the pioneering botanist Carl Linnaeus in his Odores Medicamentorum Watson examines the roles of smell and pheromones in humans plants and animals He reveals the curious ways in which trees communicate their distress the olfactory abilities of feral children the bond we have with our offspring the psychosexual effects of perfume and the link between smell and memory formation Jacobson's Organ unlocks the door to the strange world of this mysterious sense

The Three Christs of Ypsilanti Milton Rokeach, 2020-02-25 NOW A MAJOR MOTION PICTURE This landmark case study of three schizophrenic patients offers a rare and eccentric journey into madness shining a light on the ethical dilemmas of institutionalized care in the mid 20th century Slate On July 1 1959 at Ypsilanti State Hospital in Michigan the social psychologist Milton Rokeach brought together three paranoid schizophrenics Clyde Benson an elderly farmer and alcoholic Joseph Cassel a failed writer who was

institutionalized after increasingly violent behavior toward his family and Leon Gabor a college dropout and veteran of World War II The men had one thing in common each believed himself to be Jesus Christ Their extraordinary meeting and the two years they spent in one another's company serves as the basis for an investigation into the nature of human identity belief and delusion that is poignant amusing and at times disturbing Displaying the sympathy and subtlety of a gifted novelist Rokeach draws us into the lives of three troubled and profoundly different men who find themselves confronted with the ultimate contradiction conceivable for human beings more than one person claiming the same identity *Heterotopic World Fiction* Lesley Higgins, Marie-Christine Leps, 2022-09-06 After more than a century of genocides and in the midst of a global pandemic this book focuses on the critique of biopolitics the government of life through individuals and the general population and the counterdevelopment of biopoetics an aesthetics of life elaborating a self as a practice of freedom realized in texts by Virginia Woolf Michel Foucault and Michael Ondaatje Their world fiction produces transhistorical transnational experiences offered to the reader for collective responsibility in these critical times Their books function as heterotopias spaces and processes that recall and confront regimes of recognized truths to dismantle fixed identities and actualize possibilities for becoming other Higgins and Leps define and explore a slant biopoetic perspective that is feminist materialist anti racist and anti war *Landmarks* Robert Macfarlane, 2015-03-05 SHORTLISTED FOR THE SAMUEL JOHNSON PRIZE SHORTLISTED FOR THE WAINWRIGHT PRIZE From the bestselling author of UNDERLAND THE OLD WAYS and THE LOST WORDS Few books give such a sense of enchantment it is a book to give to many and to return to repeatedly Independent Enormously pleasurable deeply moving A bid to save our rich hoard of landscape language and a blow struck for the power of a deep creative relationship to place Financial Times A book that ought to be read by policymakers educators armchair environmentalists and active conservationists the world over Guardian Gorgeous thoughtful and lyrical Independent on Sunday Feels as if it somehow grew out of the land itself A delight Sunday Times Discover Robert Macfarlane's joyous meditation on words landscape and the relationship between the two Words are grained into our landscapes and landscapes are grained into our words Landmarks is about the power of language to shape our sense of place It is a field guide to the literature of nature and a glossary containing thousands of remarkable words used in England Scotland Ireland and Wales to describe land nature and weather Travelling from Cumbria to the Cairngorms and exploring the landscapes of Roger Deakin J A Baker Nan Shepherd and others Robert Macfarlane shows that language well used is a keen way of knowing landscape and a vital means of coming to love it Effects of Changes in Stratospheric Ozone and Global Climate: Overview James G. Titus, 1986 **The End of Me** Alfred Hayes, 2020-06-09 A moving tale about middle age divorce modern love and returning home by one of the great American storytellers Asher's career as a Hollywood screenwriter has come to a humiliating end so has his latest marriage Returning to New York where he grew up he takes a room at a hotel and wonders what well into middle age as he is he should do next It's not a question of money it's a question of purpose maybe of pride In the company of

the arch young poet Michael Asher revisits the streets and tenements of the Lower East Side where he spent his childhood though little remains of the past Michael introduces Asher to Aurora perhaps his girlfriend who to Asher's surprise seems bent on pursuing him too Soon the older man and his edgy young companions are caught up in a slow strange almost ritualized dance of deceit and desire *The End of Me* a successor to Hayes's *In Love and My Face for the World to See* can be seen as the final panel of a triptych in which Alfred Hayes anatomizes with a cool precision and laconic lyricism that are all his own the failure of modern love The last scene is the starkest of all

The Letters of William Gaddis William Gaddis, 2023-05-09 A revelatory collection of correspondence by the lauded author of titanic American classics such as *The Recognitions* and *J R* shedding light on his staunchly private life UPDATED WITH OVER TWO DOZEN NEW LETTERS AND PHOTOGRAPHS Now recognized as one of the giants of postwar American fiction William Gaddis shunned the spotlight during his life which makes this collection of his letters a revelation Beginning in 1930 when Gaddis was at boarding school and ending in September 1998 a few months before his death these letters function as a kind of autobiography and also reveal the extent to which he drew upon events in his life for his fiction Here we see him forging his first novel *The Recognitions* 1955 while living in Mexico fighting in a revolution in Costa Rica and working in Spain France and North Africa Over the next twenty years he struggles to find time to write the National Book Award winning *J R* 1975 amid the complications of work and family deals with divorce and disillusionment before reviving his career with *Carpenter's Gothic* 1985 then teaches himself enough about the law to produce *A Frolic of His Own* 1994 Resuming his lifelong obsession with mechanization and the arts he finishes a last novel *Agap Agape* published in 2002 as he lies dying This newly revised edition includes clarifying notes by Gaddis scholar Steven Moore as well as an afterword by the author's daughter Sarah Gaddis

How the Weather Affects Your Health (EasyRead Super Large 20pt Edition), **The Village of Ben Suc** Jonathan Schell, 2024-11-26 With a new introduction by Wallace Shawn a classic work of war reportage that describes with unblinking vision the systematic leveling of a Vietnamese village by American troops In January 1967 as President Lyndon Johnson sent more forces to the war in Vietnam the US military began what was to be the largest ground operation of the entire conflict Not far from Saigon the capital of South Vietnam and close to the Cambodian border was an area known as the Iron Triangle long under Viet Cong control Operation Cedar Falls set out to eliminate that guerrilla threat by sealing off the region emptying its villages and leveling the surrounding jungle The local population would be transferred to model New Life Villages under US surveillance The village of Ben Suc was the Americans' first target and Jonathan Schell a reporter at the start of his career accompanied them there He witnessed the destruction of the village the frantic efforts of young soldiers to figure out who was or wasn't a foe the destruction of people's homes and possessions and the chaotic transfer of women children old men and livestock to a refugee camp where no preparations had been made for their arrival He described it all in measured tones and unflinching detail As a cautionary tale about the unintended and devastating consequences of military

occupation The Village of Ben Suc remains unequalled Schell's book might have been the crystal ball that could have led American policymakers to realize that quasi imperial American interventions of this type could not succeed in the contemporary world and if the policymakers had read Schell's book and studied it carefully who knows maybe a million or more Vietnamese lives could have been saved along with the lives of fifty thousand American soldiers along with countless lives in Afghanistan and Iraq From Wallace Shawn's Introduction

Charisma and Disenchantment: The Vocation Lectures Max Weber, 2020-02-04 A new translation of two celebrated lectures on politics academia and the disenchantment of the world The German sociologist Max Weber is one of the most venturesome stimulating and influential theorists of the modern condition Among his most significant works are the so called vocation lectures published shortly after the end of World War I and delivered at the invitation of a group of student activists The question the students asked Weber to address was simple and haunting In a modern world characterized by the division of labor economic expansion and unrelenting change was it still possible to consider an academic or political career as a genuine calling In response Weber offered his famous diagnosis of the disenchantment of the world along with a challenging account of the place of morality in the classroom and in research In his second lecture he introduced the notion of political charisma assigning it a central role in the modern state even as he recognized that politics is more than anything a slow and difficult drilling of holes into hard boards Damion Searls's new translation brings out the power and nuance of these celebrated lectures Paul Reitter and Chad Wellmon's introduction describes their historical and biographical background reception and influence Weber's effort to rethink the idea of a public calling at the start of the tumultuous twentieth century is revealed to be as timely and stirring as ever

The People Immortal Vasily Grossman, 2022-09-27 The first war novel by the author of *Life and Fate* and a stunningly accurate portrayal of soldierly life written at the beginning of World War II Vasily Grossman wrote three novels about the Second World War each offering a distinct take on what a war novel can be and each extraordinary A common set of characters links *Stalingrad* and *Life and Fate* but *Stalingrad* is not only a moving and exciting story of desperate defense and the turning tide of war but also a monumental memorial for the countless war dead *Life and Fate* by contrast is a work of moral and political philosophy as well as a novel and the deep question it explores is whether or not it is possible to behave ethically in the face of overwhelming violence *The People Immortal* is something else entirely Set during the catastrophic first months of the German invasion of the Soviet Union this is the tale of an army battalion dispatched to slow the advancing enemy at any cost with encirclement and annihilation its promised end A rousing story of resistance *The People Immortal* is the novel as weapon in hand

The Hearing Trumpet Leonora Carrington, 2021-01-05 An old woman enters into a fantastical world of dreams and nightmares in this surrealist classic admired by Brek and Luis Buñuel Leonora Carrington painter playwright and novelist was a surrealist trickster par excellence and *The Hearing Trumpet* is the witty celebratory key to her anarchic and

allusive body of work The novel begins in the bourgeois comfort of a residential corner of a Mexican city and ends with a man made apocalypse that promises to usher in the earth's rebirth In between we are swept off to a most curious old age home run by a self improvement cult and drawn several centuries back in time with a cross dressing Abbess who is on a quest to restore the Holy Grail to its rightful owner the Goddess Venus Guiding us is one of the most unexpected heroines in twentieth century literature a nonagenarian vegetarian named Marian Leatherby who as Olga Tokarczuk writes in her afterword is hard of hearing but full of life

Theorem Pier Paolo Pasolini, 2023-11-07 This tale about seduction obsession family and the confines of capitalism is one of director Pier Paolo Pasolini's most fascinating creations based on his transcendent film of the same name Theorem is the most enigmatic of Pier Paolo Pasolini's four novels The book started as a poem and took shape both as a work of fiction and a film also called Theorem released the same year In short prose chapters interspersed with stark passages of poetry Pasolini tells a story of transfiguration and trauma To the suburban mansion of a prosperous Milanese businessman comes a mysterious and beautiful young man who invites himself to stay From the beginning he exercises a strange fascination on the inhabitants of the house and soon everyone from the busy father to the frustrated mother from the yearning daughter to the weak willed son to the housemaid from the country has fallen in love with him Then as mysteriously as he appeared the infatuating young man departs How will these people he has touched so deeply do without him Is there a passage out of the spiritual desert of modern capitalism into a new awakening both of the senses and of the soul Only questions remain at the end of a book that is at once a bedroom comedy a political novel and a religious parable

Agathe Robert Musil, 2019-12-17 From the author of A Man without Qualities a novel about spirituality in the modern world Agathe is the sister of Ulrich the restless and elusive man without qualities at the center of Robert Musil's great unfinished novel of the same name For years Agathe and Ulrich have ignored each other but when brother and sister find themselves reunited over the bier of their dead father they are electrified Each is the other's spitting image and Agathe who has just separated from her husband is even more defiant and inquiring than Ulrich Beginning with a series of increasingly intense holy conversations the two gradually enlarge the boundaries of sexuality sensuality identity and understanding in pursuit of a new true form of being that they are seeking to discover Robert Musil's The Man Without Qualities is perhaps the most profoundly exploratory and unsettling masterpiece of twentieth century fiction Agathe or The Forgotten Sister reveals with new clarity a particular dimension of this multidimensional book the dimension that meant the most to Musil himself and that inspired some of his most searching writing The outstanding translator Joel Agee captures the acuity audacity and unsettling poetry of a book that is meant to be nothing short of life changing
