The Pyrotechnic Insanitarium Mark Dery, 2007-12-01 A wide-ranging collection of essays on millennial American culture that marshals a vast pop vocabulary with easy wit. The New York Times Book Review: From the far left to the far right on talk radio and the op-ed page, more and more Americans believe that the social fabric is unraveling. Celebrity worship and media frenzy, suicidal cultists, and heavily armed secessionists: modern life seems to have become a pyrotechnic insanitarium. Mark Dery says, borrowing a turn of the century name for Coney Island. Dery elucidates the meaning to our madness, deconstructing American culture from mainstream forces like Disney and Nike to fringe phenomena like the Unabomber and alien invaders. Our millennial angst, he argues, is a product of a pervasive cultural anxiety, a combination of the social and economic upheaval wrought by global capitalism and the paranoia fanned by media sensationalism. The Pyrotechnic Insanitarium is a theme park ride through the extremes of American culture, of which The Atlantic has written. Mark Dery confirms once again what writers and thinkers as disparate as Nathanael West, Fyodor Dostoyevsky, Sigmund Freud, and Oliver Sacks have already shown us: the best place to explore the human condition is at its outer margins, its pathological extremes. Dery is the kind of critic who just might give conspiracy theory a good name.
