Heavy Duty On The Demands Of Consequentialism:

Heavy Duty Björn Eriksson,1994 **Hedonistic Utilitarianism** Torbjorn Tannsjo,2019-08-08 This volume presents a comprehensive statement in defense of the doctrine known as classical hedonistic utilitarianism It is presented as a viable alternative in the search for a moral theory and the claim is defended that we need such a theory The book offers a distinctive approach and some quite controversial conclusions Torbjorn Tannsjo challenges the assumption that hedonistic utilitarianism is at variance with common sense morality particularly as viewed through the perspective of the modern feminist moral critique **Doping in Sport** Angela J. Schneider,Fan Hong,2020-10-28 This book considers ethical arguments about performance enhancing drugs in sport in a global context It examines The forces that are bringing about the debate of ethical issues in performance enhancing drugs in sport The sources of ethical debates in different continents and countries The variation of ethical arguments in different cultural political ideological and sports systems Whilst there has been a significant body of work that has looked at the importance of ethical issues in performance enhancing drugs in sport there has been little if any consideration of the various ethical concepts in different countries and cultures involving sport This is a major omission This book fills the gap and provides a thorough review and analysis of the ethical literature on performance enhancing drugs in sport in the global society It makes a major contribution to the worldwide anti doping campaign in sport This volume was previously published as a special issue of the journal Sport In Global Society **Towards Reunion in Ethics** Jan Österberg,2019-05-21 This posthumous publication attempts to answer the question of what moral code is the most reasonable Philosophers often turn to consequentialism or deontological ethics to address this issue As the author points out each has valid arguments but each is unable to get the other side to agree To rectify this he proposes a third way Inside readers will discover a theory that tries to do justice to both sides The author first details consequentialism and deontological ethics He also explains their fundamental conflict One holds the view that you should do what has the best consequences The other believes that there are actions which are wrong to do even if they have the best consequences Next the volume considers various ways to solve this conflict Would rejecting one theory work Or is it possible to somehow reconcile them The author shows why these solutions fail He then goes on to present his own The resulting contractual theory brings together the twoopposing ethical convictions It proposes that what is right and wrong depends on what norms people would agree to Throughout coverage explores the psychological sociological and historical background of the moral theories discussed The reason is that moral theories are embedded in social and psychological contexts They are better understood when the contexts are explicit This key feature distinguishes the volume from other works in moral philosophy At the time of his death in July 2011 Jan sterberg was close to completing this manuscript It was taken up and fully completed by Erik Carlson and Ryszard Sliwinski both of Uppsala University **Reward, Punishment, and Forgiveness** Joze Krasovec,2014-09-03 This book deals with central and universal issues of reward punishment and forgiveness for the first

time in a compact and comprehensive way Until now these themes have received far too little attention in scholarly research both in their own right and in their interrelationship The scope of this study is to present them in relation to the foundations of our culture These and related issues are treated primarily within the Hebrew Bible using the methods of literary analysis The centrality of these themes in all religions and all cultures has resulted however in a comparative investigation drawing attention to the problem of terminology the importance of Greek culture for the European tradition and the fusion of Greek and Jewish Christian cultures in our modern philosophical and theological systems This broad perspective shows that the biblical personalist understanding of divine authority and of human righteousness or guilt provides the personalist key to the search for reconciliation in a divided world

American Philosophical Quarterly Nicholas Rescher,1997 The Journal of Philosophy ,1995 Covers topics in philosophy psychology and scientific methods Vols 31 include A Bibliography of philosophy 1933 Groundless Knowledge Henrik Bohlin,1997 Identity of Proofs Filip Widebäck,2001 Explanation and Deduction Henrik Hållsten,2001 The Logic of Life Charlotta Weigelt,2002 This is a Ph D Dissertation In the work of Martin Heidegger the quest for the proper philosophical beginning is motivated by an awareness of the historical nature of thought its dependency upon the beginning of philosophy in the historical sense Th **Acta Universitatis Stockholmiensis** ,1957 *Swedish journal of philosophy* ,1999 A Swedish journal of philosophy *Meaning and Argument* Cesare Cozzo,1994 **Acta Universitatis Stockholmiensis** Håkan Salwén,1957 Ethical Particularism Ulrik Kihlbom,2002 This is a PhD dissertation Ethical particularism claims that any non moral feature that in one situation is a reason why something is for example morally wrong may in another situation be morally irrelevant or have an opposite moral valence Ethical particularism entails in other words the non existence of true or sound moral principles Actions persons and situations acquire their moral features contextually in a way that escapes codification in principled terms Particularism comes in this way in conflict with a classical approach to moral philosophy

Transcendental Idealism and the Organism Marcel Quarfood,2004 This is a Ph D dissertation The notion of the organism has a somewhat ambiguous status in Kant s philosophy On the one hand it belongs to natural science on the other hand it is based on an analogy with the structure of reason Biology therefore has a peculiar place among the sciences according to Kant it is constituted by the use of a regulative maxim The present study places Kant s views on biological teleology in the larger context of transcendental idealism It consists of five essays These essays are The Thing in Itself Methodological Perspective or Metaphysical Entity Kant s Practical Deduction of Moral Obligation in Groundwork III Acquisitio Originaria and Epigenesis Metaphors for the A Priori Biological Functions in a Kantian Perspective The Antinomy of Teleological Judgement
