Sokoloff, Nancy E. Berg, 2018-08-14 Why Hebrew here and now What is its value for contemporary Americans In What We

Talk about When We Talk about Hebrew and What It Means to Americans scholars writers and translators tackle a series of urgent questions that arise from the changing status of Hebrew in the United States To what extent is that status affected by evolving Jewish identities and shifting attitudes toward Israel and Zionism Will Hebrew programs survive the current crisis in the humanities on university campuses How can the vibrancy of Hebrew literature be conveyed to a larger audience The volume features a diverse group of distinguished contributors including Sarah Bunin Benor Dara Horn Adriana Jacobs Alan Mintz Hannah Pressman Adam Rovner Ilan Stavans Michael Weingrad Robert Whitehill Bashan and Wendy Zierler With lively personal insights their essays give fellow Americans a glimpse into the richness of an exceptional language Celebrating the vitality of modern Hebrew this book addresses the challenges and joys of being a Hebraist in America in the twenty first century Together these essays explore ways to rekindle an interest in Hebrew studies focusing not just on what Hebrew means as a global phenomenon and long lived tradition but on what it can mean to Americans *Beyond Jewish Identity* Jon A. Levisohn, Ari Y. Kelman, 2019-12-31 There is something deeply problematic about the ways that Jews particularly in America talk about Jewish identity as a desired outcome of Jewish education For many the idea that the purpose of Jewish education is to strengthen Jewish identity is so obvious that it hardly seems worth disputing and the only important question is which kinds of Jewish education do that work more effectively or more efficiently But what does it mean to strengthen Jewish identity Why do Jewish educators policy makers and philanthropists talk that way What do they assume about Jewish education or about Jewish identity when they use formulations like strengthen Jewish identity And what are the costs of doing so This volume the first collection to examine critically the relationship between Jewish education and Jewish identity makes two important interventions First it offers a critical assessment of the relationship between education and identity arguing that the reification of identity has hampered much educational creativity in the pursuit of this goal and that the nearly ubiquitous employment of the term obscures significant questions about what Jewish education is and ought to be Second this volume offers thoughtful responses that are not merely synonymous replacements for identity suggesting new possibilities for how to think about the purposes and desired outcomes of Jewish education potentially contributing to any number of new conversations about the relationship between Jewish education and Jewish life **Handbook of Early Language Education** Mila Schwartz, 2022-03-30 This is the first international and interdisciplinary handbook to offer a comprehensive and an in depth overview of findings from contemporary research theory and practice in early childhood language education in various parts of the world and with different populations The contributions by leading scholars and practitioners are structured to give a survey of the topic highlight its importance and provide a critical stance The book covers preschool ages and looks at children belonging to diverse ethno linguistic groups and experiencing different histories and pathways of their socio linguistic and socio cultural development and early education The languages under the scope of this handbook are identified by the contributors as immigrant languages indigenous endangered heritage regional minority

Ivrit's Place in the Dual Curriculum Model of Orthodox Jewish High Schools in North America Reuven Chaim (Rudolph) Klein,2021-11-11 The dual curriculum model ubiquitous to Orthodox Jewish day schools in North America typically bifurcates into religious Judaic studies and general studies While most classes generally fit into one of those two halves of the curriculum some classes are not intuitively categorized as wholly belonging to one part over the other One of those classes is Ivrit Modern Hebrew This study aims to describe Ivrit s place in the dual curriculum model and the various factors that contribute to that reality by exploring the context in which Ivrit emerged as a subject matter for Orthodox schools and seeking to identify trends in the ways Ivrit is taught This paper lays out the theories behind how ideology influences curriculum formation and documents how Hebrew has fit into the curriculum of Jewish Education throughout the ages It also provides a picture of the particular context of North American Orthodox Jewry that this study focuses on as well as a review of the different theories behind Hebrew education heritage language vs communicative language With this theoretical background in hand this dissertation surveyed 36 Orthodox high schools in North America to better understand how they viewed Ivrit s place and shows that ultimately this subject s place in the dual curriculum model remains ambiguous Documenting how Ivrit is taught and examining the reasons as to why Ivrit is taught helped shed light on Ivrit s precarious place in the dual curriculum model as some of those policies techniques motives seem to line up with the aims of the Judaic studies curriculum while others seemingly reflect the goals of the general studies curriculum All Things Morphology Sedigheh Moradi,Marcia Haag,Janie Rees-Miller,Andrija Petrovic,2021-08-15 This book provides a view of where the field of

morphology has been and where it is today within a particular theoretical framework gathering up new and representative work in morphology by both eminent and emerging scholars and touching on a very wide range of topics approaches and theoretical points of view These seemingly disparate articles have a common touchstone in their focus on a word based paradigmatic approach to morphology The chapters in this book elaborate on these basic themes from the further exploration of paradigms to studies involving words stems and affixes to examinations of competition inheritance and defaults to investigations of morphemes to ways that morphology interacts with other parts of the language from phonology to sociolinguistics and applied linguistics The editors and contributors dedicate this volume to Prof Mark Aronoff for his profound influence on the field
