**Jewish Life in the Middle Ages** Thérèse Metzger, Mendel Metzger, 1980      *Jewish Manuscript Cultures* Irina Wandrey, 2017-12-18 Hebrew manuscripts are considered to be invaluable documents and artefacts of Jewish culture and history Research on Hebrew manuscript culture is progressing rapidly and therefore its topics methods and questions need to be enunciated and reflected upon The case studies assembled in this volume explore various fields of research on Hebrew manuscripts They show paradigmatically the current developments concerning codicology and palaeography book forms like the scroll and codex scribes and their writing material patrons collectors and censors manuscript and book collections illuminations and fragments and last but not least new methods of material analysis applied to manuscripts The principal focus of this volume is the material and intellectual history of Hebrew book cultures from antiquity to the Middle Ages and Early Modern Period its intention being to heighten and sharpen the reader's understanding of Jewish social and cultural history in general      Word and Image in Medieval Kabbalah M. Segol, 2012-10-29 The Sefer Yetsirah the Book of Creation is a core text of the early kabbalah yet scholars have struggled to establish even the most basic facts about the work This project attempts to discover the ways in which diagrams accompanying the text and its commentaries show trends in the development of the kabbalistic tradition as a whole      The Making of a Medieval Bestseller Judah D. Galinsky, 2025-05-15 In 1277 Rabbi Isaac of Corbeil produced a concise work of accessible religious law This handbook Amudei Golah Pillars of Exile began as a list of religious commandments mitzvot meant to be recited weekly It was divided into seven pillars drawn primarily from the limbs of the human body and its activities heart hand mouth monetary transactions etc and dealt exclusively with laws relevant to Jews living in the Diaspora in medieval times This handbook of religious law written in Hebrew became the most widespread book of its kind during the late Middle Ages within the various French and German speaking Jewish communities known as Ashkenaz Nearly two hundred medieval copies of the work are found in public libraries and private collections today an astounding number for a Hebrew work at the time In The Making of a Medieval Bestseller Judah Galinsky approaches his study in three parts The first surveys the ideological and cultural reasons that Rabbi Isaac composed the work and describes how the book evolved over time The second part traces the book's impressive circulation and analyzes the various reasons behind the book's success suggesting that readers who were outside the scholarly class may have been key to the work's popularity In the third part Galinsky addresses the readers themselves who ordered copies of the work from a scribe Galinsky discerns the cultural profile of the patrons who commissioned the codex by paying attention to the books they requested to have copied alongside it or its fellow travelers This study is a history of a medieval bestseller It describes how it came into being grew and evolved and also charts its circulation explains its unique

appeal and depicts its readers      *A Companion to Alexander Literature in the Middle Ages* David Zuwiyya, 2011-07-27 Never before has there appeared in English such a collection of essays concerning Alexander the Great's legacy in world literature. From Greek and Latin works of the Classical Period through Medieval texts in Syriac, Persian, Coptic, Arabic, Ethiopic, and Hebrew, as well as the European languages, the fourteen chapters cover the gamut of Alexander literary studies as compiled by some of the foremost scholars in each field, bringing the reader up to date on everything Alexander. These experts share their results after years of investigation in the field and, in doing so, point the reader toward the essence of each of the myriad of Alexander romances while, at the same time, including copious notes and bibliography to prepare the reader for his or her own Alexander journey. Contributors include Richard Stoneman, Saskia D. Nitz, Daniel Selden, Josef Wiesehöfer, David Ashurst, Laurence Harf-Lancner, Danielle Buschinger, Juan Pedro Monferrer Sala, Roberta Morosini, Maura Lafferty, Peter Kotar, David Zuwiyya.

**Jewish Education from Antiquity to the Middle Ages** George J. Brooke, Renate Smithuis, 2017-10-17 In *Jewish Education from Antiquity to the Middle Ages*, fifteen scholars offer specialist studies on Jewish education from the areas of their expertise. This tightly themed volume, in honour of Philip S. Alexander, has some essays that look at individual manuscripts, some that consider larger literary corpora, and some that are more thematically organised. Jewish education has been addressed largely as a matter of the study house, the bet midrash. Here, a richer range of texts and themes discloses a wide variety of activity in several spheres of Jewish life. In addition, some notable non-Jewish sources provide a wider context for the discourse than is often the case.

**Toward a Global Middle Ages** Bryan C. Keene, 2019-09-03 This important and overdue book examines illuminated manuscripts and other book arts of the Global Middle Ages. Illuminated manuscripts and illustrated or decorated books, like today's museums, preserve a rich array of information about how premodern peoples conceived of and perceived the world, its many cultures, and everyone's place in it. Often a Eurocentric field of study, manuscripts are prisms through which we can glimpse the interconnected global history of humanity. *Toward a Global Middle Ages* is the first publication to examine decorated books produced across the globe during the period traditionally known as medieval. Through essays and case studies, the volume's multidisciplinary contributors expand the historiography, chronology, and geography of manuscript studies to embrace a diversity of objects, individuals, narratives, and materials from Africa, Asia, Australasia, and the Americas, an approach that both engages with and contributes to the emerging field of scholarly inquiry known as the Global Middle Ages. Featuring more than 160 color illustrations, this wide-ranging and provocative collection is intended for all who are interested in engaging in a dialogue about how books and other textual objects contributed to world-making strategies from about 400 to 1600.

From Scrolls to Scrolling Bradford A. Anderson, 2020-06-22 Throughout history the study of sacred texts has focused almost exclusively on the content and meaning of these writings Such a focus obscures the fact that sacred texts are always embodied in particular material forms from ancient scrolls to contemporary electronic devices Using the digital turn as a starting point this volume highlights material dimensions of the sacred texts of Judaism Christianity and Islam The essays in this collection investigate how material aspects have shaped the production and use of these texts within and between the traditions of Judaism Christianity and Islam from antiquity to the present day Contributors also reflect on the implications of transitions between varied material forms and media cultures Taken together the essays suggests that materiality is significant for the academic study of sacred texts as well as for reflection on developments within and between these religious traditions This volume offers insightful analysis on key issues related to the materiality of sacred texts in the traditions of Judaism Christianity and Islam while also highlighting the significance of transitions between various material forms including the current shift to digital culture

**Discovering, Deciphering and Dissenting** James K. Aitken, Renate Egger-Wenzel, Stefan C. Reif, 2019-01-29 The discovery of Hebrew manuscripts of Ben Sira in the Cairo Genizah has shaped and transformed the interpretation of the book It is argued here that a proper appreciation of the

manuscripts themselves is also essential for understanding this ancient work Since their discovery 120 years ago and subsequent identification of leaves attention has been directed to the interpretation of the ancient book the Wisdom of Ben Sira Serious consideration should also be given to the Hebrew manuscripts themselves and their particular contributions to understanding the language and transmission of the book The surprising appearance of a work that was preserved by Christians and denounced by some Rabbis raises questions over the preservation of the book At the same time diversity among the manuscripts means that exegesis has to be built on an appreciation of the individual manuscripts The contributors examine the manuscripts in this light examining their discovery the codicology and reception of the manuscripts within rabbinic and medieval Judaism and the light they throw on the Hebrew language and poetic techniques The book is essential reading for those working on Ben Sira the reception of the deuterocanon and Medieval Hebrew manuscripts

*The Cambridge History of Judaism: Volume 6, The Middle Ages: The Christian World* Robert Chazan, 2018-10-31 Volume 6 examines the history of Judaism during the second half of the Middle Ages Through the first half of the Middle Ages the Jewish communities of western Christendom lagged well behind those of eastern Christendom and the even more impressive Jewries of the Islamic world As Western Christendom began its remarkable surge forward in the eleventh century this progress had an impact on the Jewish minority as well The older Jewries of southern Europe grew and became more productive in every sense Even more strikingly a new set of Jewries were created across northern Europe when this undeveloped area was strengthened demographically economically militarily and culturally From the smallest and weakest of the world's Jewish centers in the year 1000 the Jewish communities of western Christendom emerged despite considerable obstacles as the world's dominant Jewish center by the end of the Middle Ages This demographic economic cultural and spiritual dominance was maintained down into modernity

Hebraism in the Reformation Era (1500-1660) Stephen G. Burnett, 2012-01-06 Christian Hebraism in early modern Europe has traditionally been interpreted as the pursuit of a few exceptional scholars but in the sixteenth century it became an intellectual movement involving hundreds of authors and printers and thousands of readers The Reformation transformed Christian Hebrew scholarship into an academic discipline supported by both Catholics and Protestants This book places Christian Hebraism in a larger context by discussing authors and their books as mediators of Jewish learning printers and booksellers as its transmitters and the impact of press controls in shaping the public discussion of Hebrew and Jewish texts Both Jews and Jewish converts played an important role in creating this new and unprecedented form of Jewish learning
