**The Dimensions of Hegel's Dialectic** Nectarios G. Limnatis, 2010-03-18 The Dimensions of Hegel's Dialectic examines the epistemological import of Hegelian dialectic in the widest sense. In modern philosophy German idealism Hegel in particular is said to have made significant innovative steps in redefining the meaning scope and use of dialectic. Indeed it is dialectic that makes up the very core of Hegel's position yet it is an area of his thought that is widely neglected by the available literature despite the increased interest in Hegel's philosophy in recent years. This book brings together an international team of expert contributors in a long overdue discussion of Hegelian dialectic. Twelve specially commissioned essays address the task of making sense and use of Hegel's dialectic which is fundamental not only for historical and hermeneutic reasons but also for pragmatic ones. A satisfactory response to this challenge has the power to clarify Hegel's legacy in the current debate. The essays situate the dialectic in the context of German idealism with a clear sighted elucidation of the problems that Hegel's dialectic is called upon to solve.

*Hegel's Dialectic of Desire and Recognition* John O'Neill, 1996-02-01 This book presents three generations of German French and Anglo American thinking on the Hegelian narrative of desire recognition and alienation in life labor and language a narrative that has been subject to extensive commentary in philosophy literature psychoanalysis and feminist thought. The texts focus on a central topos in Western thought the story of self consciousness awakened in nature and in history. John O'Neill argues that current postmodern rejections of the Hegelian Marxist narrative demand an understanding of the texts included here. Without Hegel and Marx in our toolbox he argues we will flounder in a world marked by the split between postmodern indifference and premodern passion. The book makes a strong selection from the history of Hegelian Marxist debate hermeneutical and critical theory and Freudian Lacanian and feminist commentary on the dialectic of desire and recognition on the levels of social psychology and political economy. Included are articles by Karl Marx G W F Hegel Alexandre Kojève Jean Hyppolite Jean Paul Sartre Georg Lukács Jürgen Habermas Hans Georg Gadamer Howard Adelman Shlomo Avineri Jessica Benjamin Edward S Casey and J. Melvin Woody Henry S Harris George Armstrong Kelly Ludwig Siep Judith N. Shklar and Henry Sussman. The texts and commentaries show how the Hegelian Marxist narrative of desire recognition and alienation is a contested story one in which class race and gender issues are drawn into a historical romance that is being rewritten in contemporary cultural politics.

**Hegel's Dialectic** A. Sarlemijn, 2012-12-06 This book was written in 1968 and defended as a doctoral dissertation before the Philosophical Faculty at the University of Fribourg Switzerland in 1969. It treats of the systematic views of Hegel which led him to give to the principle of non contradiction the principle of double negation and the principle of excluded middle meanings which are difficult to understand. The reader will look in vain for the philosophical position of the author. A few words about the intentions which motivated the author to study and clarify Hegel's thought are therefore not out of place. In the early sixties when occupying myself with the history of Marxist philosophy I discovered that the representatives of the

logical positivist tradition were not alone in employing a principle of demarcation that those of the dialectical Marxist tradition were also using such a principle self-movement as a foundation of a scientific philosophy and as a means to delimit unscientific ideas I aimed at a clear conception of this principle in order to be able to judge whether and to what extent it accords with the foundations of the analytical method In this endeavor I encountered two problems 1 What is to be understood by analytical method cannot be ascertained unequivocally Hegel's Dialectic and Its Criticism Michael Rosen, 1984 Michael Rosen discusses the philosophical issues involved in historical interpretation before presenting a novel and challenging solution to the problem of Hegel's openness to criticism Contrary to received opinion Hegel's philosophy does not he argues draw upon a universal and presuppositionless conception of rationality *Hegel's Dialectic* Hans-Georg Gadamer, 1976-01-01 Tracing the development of the notion of the dialectic from the classical Greek thinkers to the modern thinkers Gadamer demonstrates that Hegel worked out his own dialectical method by extending the dialectic of the Ancients Excellently translated this book is a valuable if demanding addition to Gadamer's philosophical work now available in English

*A New Exploration of Hegel's Dialectics III* Deng Xiaomang, 2022-05-10 This volume explores the unity of logic epistemology and ontology in Hegel's dialectic and the interrelation among the three thereby revealing the internal features of Hegel's dialectic as well as the connection and divergence between Hegel's and Marx's philosophical thought As the final volume of a three-volume set that gives insights into Hegel's dialectic and his overall philosophical thought the book analyzes Hegel's dialectic as a unity of three As logic it transcends language and is therefore epistemology as epistemology it transcends theory and is therefore ontology as ontology it transcends existing things and is therefore logic Hegel's dialectic thus demonstrates itself as the revolutionary development of each of these three fields in the history of Western philosophy The principle of the agreement of logic with history thereby expressed immediately becomes one of the most important philosophical sources of inspiration for Marx's historical materialism A more profound understanding of Hegel's philosophy will therefore deepen our understanding of the philosophy of Marxism The title will appeal to scholars and students interested in Hegel's and Marx's philosophy German classical philosophy and Western philosophy **The Dimensions of Hegel's Dialectic** Nectarios G. *Hegel's Dialectical Political Economy* Paul Diesing, 2019-03-01 This book demonstrates how Hegel's dialectic can be used in empirical research and shows how one can do dialectical research in economics It also shows how one can use dialectical thinking to interpret some personal or social or political problem and devise a possible solution

*Paradox, Dialectic, and System* Howard P. Kainz, 1988 This book undertakes a critical analysis of some central problems in Hegel scholarship It is concerned with clarifying the theoretical underpinnings of paradox the possible relationship of paradox to a dialectic logic and the possibilities of systematization of dialectic and or paradox The author begins with a discussion of current attitudes toward paradox in mathematics science and logic and then moves gradually toward a differentiation of philosophical paradox in the strict sense from literary religious and logic paradox The relationship of dialect to paradox is elucidated by means of a phenomenological analysis of self consciousness Finally possible approaches to the systematization of dialectic are considered Analyzing and evaluating Hegel's dialectical paradoxical system in particular Dr Kainz also addresses the question of viable alternatives to Hegel's approach While paradox is generally considered by philosophers and logicians as something to be avoided Kainz's study investigates the possibility that it is an important and even indispensable element of constructive thinking in philosophy as well as other disciplines *Paradox Dialect and System* is this a contribution not only to Hegel scholarship but to philosophy itself It will be of particular interest to those concerned with the differentiation of dialectical and nondialectical philosophical systems and with the prevalence of paradox in literature religion and

contemporary physics      **Topological (in) Hegel** Borislav G. Dimitrov, 2018-01-23 The aim of this book is to critically examine whether it is methodologically possible to combine mathematical rigor topology with a systematic dialectical methodology in Hegel and if so to provide as result of my interpretation the outline of Hegel's Analysis Situs also with the proposed models build on the topological manifold cobordism topological data analysis persistent homology simplicial complexes and graph theory to provide an indication of how the merger of Hegel's dialectical logic and topology may be instrumental to a systematic logician and of how a systematic dialectical logic perspective may help mathematical model builders

**God and History** Laurence W. Wood, 2005 This book argues for an integrative dialectic of faith and history It is a fresh examination of the problem of faith and history Instead of being a mere liability it is argued here that the strength of the Christian faith is its historicity Although modern thought was not always friendly to Christian faith because of its deeply embedded dualism it raised the critical intellectual issues that Christian theology needed to address Advancing a more critical understanding of the nature of history than modern thought was generally able to achieve because of its dualistic thinking this work argues for an integrative dialectic of historical probability and the certainty of faith This book gives a comprehensive and fascinating account of the development of the idea of history in correspondence to changing conceptions of the divine reality from its origin in Ancient Israel and in Greece all the way to the contemporary discussion It focuses on the rise of critical historical investigation in modern times and on the struggle of modern theology to come to terms with it It is an important contribution to this discussion The split between fact and meaning is persuasively identified as a main obstacle and it is shown to be overcome in the reconstruction of history in the light of the eschatological future Also very helpful is the final chapter on time space time and eternity with its emphasis on Boethius and with its critical remarks on nontrinitarian theistic notions of a personal God Wolfhart Pannenberg University of Munich

**Hegel, Marx and Dialectic** Richard J. Norman, Sean Sayers, 1980 A lively and provocative debate on the nature of Hegelian and Marxist dialectic and the relation between them A direct and explicit definition of dialectic is given and by sustained debate the dialectical idea of the fruitfulness of contradiction is exemplified in practice The author relate their accounts of dialectic both to recent discussion in the Marxist tradition Sartre Colletti Althusser and to work in the analytical tradition of philosophy thus initiating a dialogue between two as yet hardly related philosophical traditions The clarity and directness of this collection and its complete avoidance of dogmatism make it an invaluable work for anyone interested in the fundamental questions of philosophy Back cover

**Reception Theory and Biblical Hermeneutics** David Paul Parris, 2009-01-01 Traditional methods employed in biblical interpretation involve a two way dialogue between the text and the reader Reception theory expands this into a three way dialogue with the third partner being the history of the text's interpretation and application Most contemporary biblical interpreters have ignored this third partner although recently the need to include the history of interpretation has gained some attention This book explores the hermeneutical resources that reception theory provides for engaging the history of biblical interpretation as a third dialogue partner in biblical hermeneutics The first third of this work explores the philosophical background and hermeneutical framework that Hans Georg Gadamer provides for reception theory The center of this study examines how this hermeneutical approach is fleshed out by Hans Robert Jauss Jauss not only builds upon Gadamer's work but his literary hermeneutic provides a model applicable to the biblical text and its tradition of interpretation The focus for the final third of the book shifts toward three studies that seek to demonstrate the applicability of various aspects of reception theory to biblical interpretation
