1866 - 1944

Heinrich Kuhn Photographien

**Elizabeth Mankin Kornhauser, Alfred
Stieglitz, Amy Ellis, Maura Lyons**

Heinrich Kuhn Photographien:

Heinrich Kühn, 1866-1944 Heinrich Kühn, 1975 *Heinrich Kuehn and His American Circle* Andreas Gruber, Astrid Mahler, 2012 This unique volume focuses on the luminous work of an important Austrian photographer Heinrich Kuhn's early Pictorialist works were highly influential and were exhibited at the Vienna Secession Gradually Kuhn incorporated the influence of his peers and moved in the direction of Modernist photography He was also among the first important photographers to create color images The publication aims to situate Kuhn with regard to both the Viennese avant garde and the international development of photography as an art form It explores the close friendship among Kuhn and major photographers Alfred Stieglitz and Edward Steichen and showcases photographic prints and autochromes by Kuhn and other important photographers Heinrich Kühn (1866-1944) Heinrich Kühn, 1978 The Focal Encyclopedia of Photography Michael R. Peres, 2013-05-29 This volume is a complete revision of the 1996 third edition shares the ever changing breadth of photographic topics with a special emphasis on digital imaging and contemporary issues Produced by an international team of photographic and imaging experts with collaboration from the George Eastman House the world's oldest photography museum this fourth edition contains essays and photographic reproductions sharing information where photography and imaging serve a primary role ranging from the atomic to the cosmic **Photofascism** Vanessa Rocco, 2020-11-26 Photography and fascism in interwar Europe developed into a highly toxic and combustible formula Particularly in concert with aggressive display techniques the European fascists were utterly convinced of their ability to use the medium of photography to manufacture consent among their publics Unfortunately as we know in hindsight they succeeded Other dictatorial regimes in the 1930s harnessed this powerful combination of photography and exhibitions for their own odious purposes But this book for the first time focuses on the particularly consequential dialectic between Germany and Italy in the early to mid 1930s and within each of those countries vis vis display culture The 1930s provides a potent case study for every generation and it is as urgent as ever in our global political environment to deeply understand the central role of visual imagery in what transpired Photofascism demonstrates precisely how dictatorial regimes use photographic mass media methodically and in combination with display to persuade the public with often times highly destructive even catastrophic results **The Art of the Autochrome** John Wood, 1993 On the history of the autochrome process **Heinrich Kuhn, 1866-1944** Heinrich Kühn, 1976 **Heinrich Kühn und die Kunstfotografie um 1900** Enno Kaufhold, 1988 *Heinrich Kühn* Heinrich Kühn, Ulrich Knapp, 1988 An exhibition of one hundred photographs by Heinrich Kuhn, 1981 Heinrich Kühn Heinrich Kühn, Kicken Berlin (Gallery), 2007 *The Photography of Crisis* Daniel H. Magilow, 2012 Examines photo essays from Weimar Germany's many social crises Traces photography's emergence as a new language that German photographers used to intervene in modernity's key political and philosophical debates changing notions of nature and culture national and personal identity and the viability of parliamentary democracy **Photography 1900** Julie Lawson, Ray

McKenzie, A. D. Morrison-Low, 1993 Heinrich Kühn, 1978 Photo-secession Lunn Gallery, 1977 **Photography in the 20th Century** Petr Tausk, 1980 **Gustav Klimt** Gustav Klimt, Christian Huemer, 2006 Now in flexi cover this visually stunning collection of Klimt's landscape paintings brings to light a lesser known aspect of the Viennese painter's oeuvre. While Klimt is largely revered for his opulent symbol-laden portraits of the Viennese bourgeoisie, these works were just one aspect of his artistic expression. His landscapes represent an important facet of his career and are a valuable contribution to the school of European nature painting. For many years the artist travelled to the Austrian and Italian countryside during the summer where he took advantage of the extraordinary light and spectacular hues to paint and sketch landscapes. Among the most exquisite of Klimt's landscapes are those in which he experimented with composition and style. Accompanied by scholarly essays, the images reproduced in this book comprise all extant landscapes from this brilliant artist, proving that his mastery extends beyond portraiture and revealing themes that appeared throughout his life's work. *Bibliographic Guide to Art and Architecture* New York Public Library. Art and Architecture Division, 1975 *Alfred Stieglitz, Georgia O'Keeffe & American Modernism* Elizabeth Mankin Kornhauser, Alfred Stieglitz, Amy Ellis, Maura Lyons, 1999 Photography at the Worcester Art Museum David Acton, Worcester Art Museum, 2004 In 1904 the Worcester Art Museum became the first museum in the United States to exhibit photography as fine art. One hundred years later the Museum is celebrating by hosting an exhibition of its finest photographs. This exhibition catalogue is a must-see for any photography student or enthusiast.
