## **Hell Benders:**

**HELLBENDERS** James Axler, 2014-01-15 POINT OF NO RETURN Out of the ashes of the conflagration that savaged mankind two centuries ago Deathlands was born a tortured testament to a world long gone Yet in this kill or be killed world where justice is the way of the past and blood is law hope is the last refuge of the doomed For Ryan Cawdor driven by a warrior's instinct to survive it's a world that exacts a devil's bargain the struggle for daily existence in return for a chance to forge a better life VANGUARD Emerging from a gateway into a redoubt filled with preDark technology Ryan and his band hope to unlock some of the secrets of postnuclear America But the fortified redoubt is under the control of a half mad former sec man hell bent on vengeance who orders Ryan and the others to jump start his private war against two local barons Under the harsh and pitiless glare of the radblasted desert sun the companions fight to see another day whatever it brings In the Deathlands the condemned shall inherit the earth **The Hellbenders** Max Allen Nickerson, Charles Edwin Mays, 1973

*The Hellbenders* Max Allen Nickerson, Charles Edwin Mays, 2005 *Amphibian Declines* Michael J. Lannoo, 2005-06-15 Documents in comprehensive detail a major environmental crisis rapidly declining amphibian populations and the disturbing developmental problems that are increasingly prevalent within many amphibian species **The Hellbenders** Max Allen Nickerson, Charles Edwin Mays, 1973 Scientific Foundations of Zoos and Aquariums Allison B. Kaufman, Meredith J. Bashaw, Terry L. Maple, 2019-01-03 Using first person stories and approachable scientific reviews this volume explores how zoos conduct and support science around the world **The Amphibians and Reptiles of New York State** James P. Gibbs, Alvin R. Breisch, Peter K. Ducey, Glenn Johnson, the late John Behler, Richard Bothner, 2007-04-05 This is the first guide yet produced to the amphibians and reptiles of New York State a large and heavily populated state that hosts a surprisingly diverse and interesting community of amphibians and reptiles This much needed guide to the identification distribution natural history and conservation of the amphibians and reptiles of New York State fill a long empty niche The book is the first comprehensive presentation of the distributional data gathered for the New York State Amphibian and Reptile Atlas project With more than 60 000 records compiled from 1990 1999 this extraordinary and up to date database provides a rich foundation for the book This volume provides detailed narratives on the 69 species native to New York State With a heavy emphasis on conservation biology the book also includes chapters on threats legal protections habitat conservation guidelines and conservation case studies Also included are 67 distribution maps and 62 pages of color photographs contributed by more than 30 photographers As a field guide or a desk reference *The Amphibians and Reptiles of New York State* is indispensable for anyone interested in the vertebrate animals of the Northeast as well as students field researchers and natural resource professionals *Endangered Species Bulletin*, 2006 **Wild Life** Irus Braverman, 2015-04-22 *Wild Life* documents a nuanced understanding of the wild versus captive divide in species conservation It also documents the emerging understanding that all forms of wild nature both in situ on site and ex situ in captivity may need to be managed in

perpetuity Providing a unique window into the high stakes world of nature conservation Irus Braverman describes the heroic efforts by conservationists to save wild life Yet in the shadows of such dedication and persistence in saving the life of species Wild Life also finds sacrifice and death Such life and death stories outline the modern struggle to define what conservation should look like at a time when the long established definitions of nature have collapsed Wild Life begins with the plight of a tiny endangered snail and ends with the rehabilitation of an entire island Interwoven between its pages are stories about golden lion tamarins in Brazil black footed ferrets in the American Plains Sumatran rhinos in Indonesia Tasmanian devils in Australia and many more creatures both human and nonhuman Braverman draws on interviews with more than one hundred and twenty conservation biologists zoologists zoo professionals government officials and wildlife managers to explore the various perspectives on in situ and ex situ conservation and the blurring of the lines between them [The Maryland Amphibian and Reptile Atlas](#) Heather R. Cunningham, Nathan H. Nazdrowicz, 2018-11-26 The definitive resource for finding identifying and conserving Maryland s amphibians and reptiles Naturalists herpetologists and ecologists alike agree that tracking herpetofauna is a challenging undertaking Scientists are concerned about the decline of once familiar species but evidence has often been too anecdotal to support firm conclusions To better understand the distribution of amphibians and reptiles in Maryland and forecast species futures in a time of accelerated environmental threats conducting a comprehensive statewide survey updating 1970s era distribution maps seemed ideal However this endeavor was of an impossibly ambitious scope for scientists alone to tackle Enter the Maryland Amphibian and Reptile Atlas project comprising nearly a thousand dedicated citizen scientists who discovered and recorded the locations of herpetofauna throughout every corner of Maryland In The Maryland Amphibian and Reptile Atlas Heather R Cunningham and Nathan H Nazdrowicz present the findings of this massive undertaking This definitive guide combines nearly 160 comprehensive new herpetological maps with historical distribution maps and in depth species accounts Color photos illustrate the natural history of the 89 species of frogs salamanders turtles snakes and lizards that call the state home Essays discuss historical studies the effects of Maryland s current climate geology and habitat diversity and the myriad conservation issues these animals face This richly detailed book represents a triumph of citizen science and the culmination of an intensive research partnership It will appeal to both amateurs and professionals interested in herpetology natural history or ecology as well as those with a special interest in Maryland s biodiversity **The Snake and the Salamander** Alvin R. Breisch, 2017-03-15 A beautifully illustrated tour of the region s snakes lizards turtles frogs and salamanders Winner of the National Outdoor Book Award of the NOBA Foundation Nature and Environment Category In the best tradition of natural history writing and art The Snake and the Salamander explores the diverse collection of reptiles and amphibians that inhabit the northeastern quadrant of the United States Covering 13 states that run from Maine to Virginia author Alvin R Breisch and artist Matt Patterson showcase the lives of 83 species of snakes lizards turtles frogs and salamanders These intriguing animals are organized by habitat and type from

forest to grassland to bogs to big waters and revealed through a combination of Breisch's engaging prose and Patterson's original color illustrations Breisch's guided tour combines historical notes and conservation issues with lessons on genetics evolution habitats life histories and more Discover how careful attention to frog calls coupled with DNA analysis led to the discovery of a new species of frog in New York City why evolutionary adaptations made the Eastern Ratsnake a superb climber and the surprising fact that Spiny Softshell turtles actually sprint on land to retreat from predators Breisch also tells the odd tale of the Green Frog and the Smooth Greensnake two green species that do not actually have any green pigment in their skin Every species has a story to tell one that will keep the reader wanting to learn more The breadth of herpetofauna in the area will surprise many readers more than 8% of the world's salamanders and 11% of all turtle species live in the region Beyond numbers however lie aesthetics The surprising colors and fascinating lifestyles of the reptile and amphibian species in this book will mesmerize readers young and old

**Communicating Endangered Species** Eric Freedman, Sara Shipley Hiles, David B. Sachsman, 2021-08-04 **Communicating Endangered Species** Extinction News and Public Policy is a multidisciplinary environmental communication book that takes a distinctive approach by connecting how media and culture depict and explain endangered species with how policymakers and natural resource managers can or do respond to these challenges in practical terms Extinction isn't new However the pace of extinction is accelerating globally The International Union for Conservation of Nature classifies more than 26 000 species as threatened The causes are many including climate change overdevelopment human exploitation disease overhunting habitat destruction and predators The willingness and the ability of ordinary people governments scientists nongovernmental organizations and businesses to slow this deeply disturbing acceleration are uncertain Meanwhile researchers around the world are laboring to better understand and communicate the possibility and implications of extinctions and to discover effective tools and public policies to combat the threats to species survival This book presents a history of news coverage of endangered species around the world examining how and why journalists and other communicators wrote what they did how attitudes have changed and why they have changed It draws on the latest research by chapter authors who are a mix of social scientists communication experts and natural scientists Each chapter includes a mass media and or cultural aspect This book will be essential reading for students natural resource managers government officials environmental activists and academics interested in conservation and biodiversity environmental communication and journalism and public policy
