Hellas A Story Of Ancient Greece:

Hellas Cyril Edward Robinson,1955 In Greek history says Mr Robinson little that happened mattered much it is what the Greeks thought that counted It has counted so much indeed that no one of us can enter into his European cultural inheritance without some knowledge of what the Greeks thought Study of the Greeks transcends antiquarianism their experience is permanently relevant and perennially capable of providing illumination and direction for our own spiritual problems It is upon this illumination that Mr Robinson has focused his book his aim is to present the aspects of Greek history that are of abiding and direct interest to the thoughtful modern In the sense that a span requiring six stout volumes of the Cambridge Ancient History is here dealt with in fewer than two hundred pages this is a popularization but it is a popularization of the right sort done by a mature scholar whose more technical work compels respect for his general interpretations Foreword *Hellas - A Short History of Ancient Greece* C. E. Robinson,2011-03-23 In Greek History someone has said little that happened mattered much it was what the Greeks thought that counted This broadly speaking is the truth and here I have tried to lay the main emphasis on Greek ideas setting them against the background of historic events Obviously the best clue to their understanding is to be found in what the Greeks themselves wrote and though no English version can be an adequate substitute I have given in translation whatever passages appear to me most revealing With these it has been my object to convey effectively the author's meaning rather than slavishly to reproduce his phraseology and I have taken I confess some liberty with the task abbreviating by frequent omissions of words clauses and even whole sentences occasionally elaborating to bring out the full sense and above all recasting the original syntactic construction in approximation to our own modern idiom In the illustrations similarly I have here and there allowed myself the licence of reconstruction when details have suffered through accident or age I have to record with gratitude my great debt to Mrs Eric James and Mr W H Plommer and Mr L F R Audemars for valuable criticisms and suggestions My thanks are also due to Messrs Methuen the publishers of my History of Greece for permission to produce this complementary volume It may be that the reader will be encouraged to further study of the subject and on certain points few among many which limits of space have compelled me to summarize or omit I have ventured to insert a cross reference *Hellas* Cyril Edward Robinson,1955 *Pictures of Hellas Five Tales of Ancient Greece* Peder Mariager,2018-09-11 *Pictures of Hellas Five Tales of Ancient Greece* is a great collection of ancient Greek stories *Pictures of Hellas: Five Tales of Ancient Greece* Peder Mariager,2019-12-16 In *Pictures of Hellas Five Tales of Ancient Greece* Peder Mariager artfully weaves together a tapestry of narratives that capture the essence of ancient Greek life culture and mythology Through vivid imagery and lyrical prose Mariager transports readers to a time of gods heroes and philosophical inquiry drawing upon historical context to enrich each tale His storytelling marries the tradition of ancient Greek literature with contemporary literary techniques creating a compelling collection that invites readers to reflect on the timeless themes of identity morality and human nature Peder

The Makers of Hellas E. E. G., 2015-06-25. Excerpt from *The Makers of Hellas: A Critical Inquiry Into the Philosophy and Religion of Ancient Greece*. The author of *The Makers of Hellas* died before the book was in print, before even the manuscript of the work was completed, and left a request that I would prepare it for the press and publish it without revealing the writer's name. Even if the author had lived until the book appeared in print, I believe the book would have been published anonymously or under a *num de plume*. The reason for this reticence or this self-suppression will not be apparent to those who merely scan the title of the work. *The Makers of Hellas*, for the title scarcely suggests the dominant thought of the book. The dominant thought and feeling of the whole work is religious. The makers of Hellas are not those who made and unmade her politically, nor even the artists and authors who made her what she is in literature and art. They are those through whom the spirit of religion spoke. At a time such as the present, when the material monuments of Greece and the isles of Greece are claiming an ever-increasing share of the work of classical students and of the attention of the cultured world, when the sun of solar mythology has set and folklore is absorbing the study both of ritual and belief, it may seem remote from the general trend of thought to consider seriously the religion rather than the religious monuments or the rites or myths of ancient Greece. On the other hand, to those whose interest in myths, monuments, and rites alike is weak, it may seem excessive even to speak of the religion of a people who undeniably were pagan. If then, either to those who know or to those who claim no special knowledge of the thought of ancient Greece, it should yet appear after perusal of *The Makers of Hellas* that religion played no small part in the making of the Hellenic mind and spirit, the reader will perhaps surmise a reason why the author's name does not appear. If there be any *praise sum nobis*, Domine. The main thought of the work then is that the Greeks were the world's greatest pioneers and experimenters. p. 3. But whereas their services to mankind in literature and art are fully recognised, the value of their contributions to religion has generally been overlooked. It is to these evidences of religion that the author wishes to call the

attention not only of students of Greek thought not only of the growing number of those engaged in studying the history or the science of religion but also of the general reader and particularly of the religious reader To the last it may seem the author is afraid p 208 preposterous to talk about religion in connection with pagans or of faith in connection with their deities But I am inclined to think that justifiable as this fear once was the occasion for it has much diminished in the last quarter of a century and that there is a general disposition to pay increased attention to the authority of St Paul who declared of every nation of men that it was determined that they should seek after God if haply they might feel after Him and find Him About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
