Hellenism in the East Amélie Kuhrt. 1987 Hellenism in the East Amélie Kuhrt, Susan M. Sherwin-White, 1987 Hellenism and the Local Communities of the Eastern Hellenism and the East Michael Avi-Yonah, 1978 Mediterranean Boris Chrubasik, Daniel King, 2017-09-08 Hellenism and the Local Communities of the Eastern Mediterranean offers a timely re examination of the relationship between Greek and non Greek cultures in this region between 400 BCE and 250 CE The conquests of Alexander the Great and his Successors not only radically reshaped the political landscape but also significantly accelerated cultural change in recent decades there has been an important historiographical emphasis on the study of the non Greek cultures of the Eastern Mediterranean but less focus on how Greek cultural elements became increasingly visible Although the process of cross cultural interaction differed greatly across Asia Minor Egypt the Levant and Mesopotamia the same overarching questions apply why did the non Greek communities of the Eastern Mediterranean engage so closely with Greek cultural forms as well as political practices and how did this engagement translate into their daily lives In exploring the versatility and adaptability of Greek political structures such as the polis and the ways in which Greek and non Greek cultures interacted in fields such as medicine literature and art the essays in this volume aim to provide new insight into these questions At the same time they prompt a re interrogation of the process of Hellenization exploring whether it is still a useful concept for explaining and understanding the dynamics of cultural exchange in the Eastern Mediterranean of this period Cultures of Resistance in the Hellenistic East Paul J. Kosmin, Ian S. Moyer, 2022-06-02 This collaborative volume examines revolts and resistance to the successor states formed after Alexander the Great's conquest of the Persian empire as a transregional phenomenon The editors have assembled an array of specialists in the study of the various regions and cultures of the Hellenistic world Judea Egypt Babylonia Central Asia and Asia Minor in an effort to trace comparisons and connections between episodes and modes of resistance The volume seeks to unite the currently dominant social scientific orientation to ancient resistance and revolt with perspectives often coming from religious studies that are more attentive to local cultural religious and moral frameworks In re assessing these frameworks contributors move beyond Greek non Greek binaries to examine resistance as complex and entangled acts and articulations of resistance are not purely nativistic or nationalist but conditioned by local traditions of government historical memories of prior periods as well as emergent transregional Hellenistic political and cultural idioms Cultures of Resistance in the Hellenistic East is organized into three parts The first part investigates the Great Theban Revolt and the Maccabean Revolt the central cases for large organized and prolonged military uprisings against the Hellenistic kingdoms The second part examines the full gamut of indigenous self assertion and resistant action including theologies of monarchic inadequacy patterns of historical periodization and textual interpretation and claims to sites of authority The volume s final part turns to the more ambiguous assertions of local autonomy and identity that emerge in the frontier regions that slipped in and out of
