Mixing it Wendy Webster, 2018 During the Second World War people arrived in Britain from all over the world as troops war workers nurses refugees exiles and prisoners of war chiefly from Europe America and the British Empire Between 1939 and 1945 the population in Britain became more diverse than it had ever been before Through diaries letters and interviews *Mixing It* tells of ordinary lives pushed to extraordinary lengths Among the stories featured are those of Zbigniew Siemaszko deported by the Soviet Union fleeing Kazakhstan on a horse drawn sleigh and eventually joining the Polish army in Scotland via Iran Iraq and South Africa and Johnny Pohe the first Maori pilot to serve in the RAF who was captured and eventually murdered by the Gestapo for his part in the Great Escape This is the first book to look at the big picture of large scale movements to Britain and the rich variety of relations between different groups When the war ended awareness of the diversity of Britain's wartime population was lost and has played little

part in public memories of the war Mixing It recovers this forgotten history It illuminates the place of the Second World War in the making of multinational multiethnic Britain and resonates with current debates on immigration **Diverse Histories**

identity both to establish a place for themselves in the British imperial world and to negotiate the cultural challenges of decolonization as Caribbean peoples *Paving the Empire Road* Darrell M. Newton,2013-07-19 Beginning in the 1930s and moving into the post millennium Newton provides a historical analysis of policies invoked and practices undertaken as the Service attempted to assist white Britons in understanding the impact of African Caribbeans and their assimilation into constructs of Britishness Management soon approved talks and scientific studies as a means of examining racial tensions as ITV challenged the discourses of British broadcasting Soon BBC2 began broadcasting and more issues of race appeared on the screens each reflecting sometimes comedic somewhat dystopic often problematic circumstances of integration In the

years that followed however social tensions such as the Nottingham and Notting Hill riots led to transmissions that included a series of news specials on Britain's Colour Bar and docudramas such as *A Man From the Sun* that attempted to frame the immigrant experience for British television audiences but from the African Caribbean point of view. Subsequent chapters include an extensive analysis of television programming along with personal interviews. Topics include current representations of race, the future of British television and its impact upon multiethnic audiences. Also detailed are the efforts of black Britons working within the British media as employees of the BBC, writers, producers and actors. *Catalog of Copyright Entries. Walking Through Clear Water in a Pool Painted Black, new edition Cookie Mueller, 2022-04-26. The first collected edition of legendary writer, actress and adventurer Cookie Mueller's stories featuring the entire contents of her 1990 book *Walking through Clear Water in a Pool Painted Black* alongside more than two dozen others, some previously unpublished. Legendary as an underground actress, female adventurer and East Village raconteur, Cookie Mueller's first calling was to the written word. I started writing when I was six and have never stopped completely, she once confessed. Mueller's 1990 *Walking through Clear Water in a Pool Painted Black*, the first volume of the Semiotext(e) Native Agents series, was the largest collection of stories she compiled during her life. But it presented only a slice of Mueller's prolific work as a writer. This new landmark volume collects all of Mueller's stories from the original contents of *Clear Water* to additional stories discovered by Amy Scholder for the posthumous anthology *Ask Dr Mueller* to selections from Mueller's art and advice columns for *Details* and the *East Village Eye* to still new stories collected and published here for the first time. Olivia Laing's new introduction situates Mueller's writing within the context of her life and our times. Thanks to recent documentaries like Mallory Curley's *A Cookie Mueller Encyclopedia* and Chlo Griffin's oral biography *Edgewise*, Mueller's life and work have been discovered by a new generation of readers. *Walking through Clear Water in a Pool Painted Black: Collected Stories* returns essential source material to these readers: the archive of Mueller's writing itself. Mueller's many *mise en scènes*: the Baltimore of John Waters, post-Stonewall Provincetown, avant-garde Italy, 1980s New York, an America enduring Reagan and AIDS, patches together a singular personal history and a primer for others. As Laing writes in her introduction, *Collected Stories* amounts to a how-to manual for a life ricocheting joyously off the rails, a live corrective to conformity, conservatism and cruelty.

Mother Country Stephen Bourne, 2010-08-10. Very little attention has been given to black British and West African and Caribbean citizens who lived and worked on the front line during the Second World War. Yet black people were under fire in cities like Bristol, Cardiff

Liverpool London and Manchester and many volunteered as civilian defence workers such as air raid wardens firefighters stretcher bearers first aid workers and mobile canteen personnel Many helped unite people when their communities faced devastation Black children were evacuated and black entertainers risked death when they took to the stage during air raids Despite some evidence of racism black people contributed to the war effort where they could The colonies also played an important role in the war effort support came from places as far away as Trinidad Jamaica Guyana and Nigeria Mother Country tells the story of some of the forgotten Britons whose contribution to the war effort has been overlooked until now

Hello, West Indies Morris Weeks, 1971 Introduces the diverse history people and present day problems of the West Indies BEYOND THE PALE Andy Carter, 2019-11-05 In the second half of the 19th century Britain ruled the largest and most culturally diverse empire the world had ever seen yet non European faces were a rarity in all but the larger port cities For the majority of Britons the colonies were seen as distant and exotic outposts populated by natives who were frequently characterised as alien and uncivilised Against this background the arrival of a touring party of Australian Aborigines in 1868 caused something of a sensation Initially viewed as a curiosity they soon won the public over with their athleticism and demeanour Over the following decades others followed in their footsteps well off Parsee amateur enthusiasts in the 1880s mixed race West Indian teams in the 1900s and the first Indian side composed of representatives of all her major communities in 1911 From the 1890s onwards the first individual Black and Asian players also began to appear for English club and county sides They came from a wide range of backgrounds some were princes others plantation workers

and their stories once they reached Britain were equally diverse All of their stories are part of a tale in which cricket that most English of institutions became a catalyst for multi cultural Britain and helped shape emerging national identities in the Commonwealth *Englishness and Empire 1939-1965* Wendy Webster,2007-10-11 Did loss of imperial power and the end of empire have any significant impact on British culture and identity after 1945 Within a burgeoning literature on national identity and what it means to be British this is a question that has received surprisingly little attention Englishness and Empire makes an important and original contribution to recent debates about the domestic consequences of the end of empire Wendy Webster explores popular narratives of nation in the mainstream media archive newspapers newsreels radio film and television The contours of the study generally follow stories told through prolific filmic and television imagery the Second World War the Coronation and Everest colonial wars of the 1950s and Winston Churchill s funeral The book analyses three main narratives that conflicted and collided in the period a Commonwealth that promised to maintain Britishness as a global identity siege narratives of colonial wars and immigration that showed a little England threatened by empire and its legacies and a story of national greatness celebrating the martial masculinity of British officers and leaders through which imperial identity leaked into narratives of the Second World War developed after 1945 The book also explores the significance of America to post imperial Britain Englishness and Empire considers how far and in what contexts and unexpected places imperial identity and loss of imperial power resonated in popular narratives of nation As the first monograph to investigate the significance of empire and its legacies in shaping national identity after 1945 this is an important study for all scholars interested in questions of national identity and their intersections with gender race empire immigration and decolonization **The Crown Colonist** ,1943 The Empire's of J. G. Ballard David Ian Paddy,2015-08-25 J G Ballard once declared that the most truly alien planet is Earth and in his science fiction he abandoned the traditional imagery of rocket ships traveling to distant galaxies to address the otherworldliness of this world The Empires of J G Ballard is the first extensive study of Ballard s critical vision of nation and empire of the political geography of this planet Paddy examines how Ballard s self perceived status as an outsider and exile the Sheppertonian from Shanghai generated an outlook that celebrated worldliness and condemned parochialism This book brings to light how Ballard wrestled with notions of national identity and speculated upon the social and psychological implications of the post war transformation of older models of empire into new imperialisms of consumerism and globalization Presenting analyses of Ballard s full body of work with its tales of reverse colonization psychological imperialism the savagery of civilization estranged Englishmen abroad and at home and multinational communities built on crime The Empires of J G Ballard offers a fresh perspective on the fiction of J G Ballard The Empires of J G Ballard An Imagined Geography offers a sustained and highly convincing analysis of the imperial and post imperial histories and networks that shape and energise Ballard s fictional and non fictional writings To what extent can Ballard be considered an international writer What happens to our understanding of his post war science

fictions when they are opened up to the language and logics of post colonialism And what creative and critical roles do the spectres of empire play in Ballard s visions of modernity Paddy follows these and other fascinating lines of enquiry in a study that is not only essential reading for Ballard students and scholars but for anyone interested in the intersections of modern and contemporary literature history and politics Jeanette Baxter Anglia Ruskin University Shanghai made my father Arriving in England after WW2 he was a person of the world who d witnessed extremes of human experience and remained the outsider observing life from his home in Shepperton 1930s Shanghai Paris of the East was a mix of international sophistication and violence unfettered capitalism and acute poverty American cars martinis and Coca Cola a place marked by death and war It had a profound influence on my father and his imagination Dr Paddy s fascinating book explores my father s fiction within an international context and offers a profound reading of a man who always kept his eyes and mind open to the world Fay Ballard Recalling Recitation in the Americas Janet Neigh,2017-11-29 Spoken word is one of the most popular styles of poetry in North America While its prevalence is often attributed to the form s strong ties to oral culture Recalling Recitation in the Americas reveals how poetry memorization and recitation curricula shaped by British Imperial policy influenced contemporary performance practices During the early twentieth century educators frequently used the recitation of canonical poems to instill proper speech and behaviour in classrooms in Canada the Caribbean and the United States Janet Neigh critically analyses three celebrated performance poets E Pauline Johnson Tekahionwake 1861 1913 Langston Hughes 1902 1967 and Louise Bennett 1919 2006 who refashioned recitation to cultivate linguistic diversity and to resist its disciplinary force Through an examination of the dialogues among their poetic projects Neigh illuminates how their complicated legacies as national icons obscure their similar approaches to resisting Anglicization Recalling Recitation in the Americas focuses on the unexplored relationship between education history and literary form and establishes the far reaching effects of poetry memorization and recitation on the development of modern performance poetry in North America
