How To Read Raphaels Ephemeris:

How to Read Raphael's Ephemeris Jeff Mayo, Peter West, 2000 Raphael's Ephemeris is the essential tool for all astrologers for calculating the daily positions of the sun moon and planets throughout 365 days of the year This book offers a guide to unlocking the meaning of the Ephemeris It helps beginners understand the use of the Ephemeris *Raphael's Astronomical Ephemeris of the Planets' Places for ...*, 1883 **Raphael's Astronomical Ephemeris of the Planets' Places**, 1883 How to Read the Crystal Sepharial, 2023-12-23 In *How to Read the Crystal* Sepharial deftly intertwines esoteric traditions with practical guides illuminating the ancient practice of crystal gazing The book serves as both a philosophical treatise and a practical manual exploring the metaphysical principles that underlie the art of scrying Through lyrical prose and detailed instructions Sepharial invites readers to delve into the realms of intuition and psychic perception positioning crystal reading within the broader context of occult practices prevalent in the early 20th century such as astrology and divination Sepharial a pseudonym for the English astrologer and occultist Walter Gorn Old was deeply immersed in the metaphysical currents of his time His background in astrology and profound interest in spiritualism informed much of his work enabling him to blend scientific inquiry with mystical exploration His writings often reflect a synthesis of philosophical thought and practical application revealing his desire to empower individuals to unlock their intrinsic psychic abilities This book is highly recommended for anyone interested in the mystical sciences from novice practitioners to seasoned esoteric scholars Sepharial's clear engaging style not only demystifies the practice of crystal reading but also inspires readers to explore their inner landscapes through this captivating art Unleash your potential and embark on a journey of self discovery through the lens of crystal scrying **How to Read the Crystal, or, Crystal and Seer** Sepharial, 2020-09-28 Any attempt at a scientific explanation of the phenomenon of crystal seering to use an irregular but comprehensive term would perhaps fall short of completeness and certainly would depend largely upon the exercise of what Professor Huxley was wont to call the scientific imagination The reasons for this are obvious We know comparatively little about atomic structure in relation to nervous organism We are informed to a certain degree upon atomic ratios we know that all bodies are regarded by the physicist as a congeries of atoms and that these atoms are centres of force Primarily the atomic theory would refer all heterogeneous bodies to one homogeneous substance from which substance by means of a process loosely referred to as differentiation all the elements are derived These elements are the result of atomic arrangement and the atoms of each are known to have various vibrations the extent of which is called the mean free path of vibration The indestructibility of matter the fact that all nature is convertible and the absolute association of matter and force lead to the conclusion that since every change in matter implies a change of force matter must be ever living and active and primarily of a spiritual nature The great Swedenborg no less a scientist than a spiritual seer laid down his doctrine of Correspondences upon the primary concept of the spiritual origin of all force and matter Matter he argued was the ultimate expression of Spirit as Form was that of Force

Spirit was to Force what Matter was to Form our ideas of Matter and Form being closely related Hence for every Spiritual Force there is a corresponding Material Form and the material or natural world corresponds at all points with the world of spirit without being identical This in brief is the conclusion to which the scientific imagination of the present day extending as it does from the known into the unknown is slowly but surely leading up **“Something that I read in a book”: W.
