The Connected Discourses of the Buddha, 2005-06-10 This volume offers a complete translation of the Samyutta Nikaya The Connected Discourses of the Buddha the third of the four great collections in the Sutta Pitaka of the Pali Canon The Samyutta Nikaya consists of fifty six chapters each governed by a unifying theme that binds together the Buddha's suttas or discourses The chapters are organized into five major parts The first The Book with Verses is a compilation of suttas composed largely in verse This book ranks as one of the most inspiring compilations in the Buddhist canon showing the Buddha in his full grandeur as the peerless teacher of gods and humans The other four books deal in depth with the

philosophical principles and meditative structures of early Buddhism They combine into orderly chapters all the important short discourses of the Buddha on such major topics as dependent origination the five aggregates the six sense bases the seven factors of enlightenment the Noble Eightfold Path and the Four Noble Truths Among the four large Nikayas belonging to the Pali Canon the Samyutta Nikaya serves as the repository for the many shorter suttas of the Buddha where he discloses his radical insights into the nature of reality and his unique path to spiritual emancipation This collection it seems was directed mainly at those disciples who were capable of grasping the deepest dimensions of wisdom and of clarifying them for others and also provided guidance to meditators intent on consummating their efforts with the direct realization of the ultimate truth The present work begins with an insightful general introduction to the Samyutta Nikaya as a whole Each of the five parts is also provided with its own introduction intended to guide the reader through this vast ocean like collection of suttas To further assist the reader the translator has provided an extensive body of notes clarifying various problems concerning both the language and the meaning

Disappearing Ink Eileen O'Neill, 2025-03-07 When Eileen O'Neill 1953-2017 published her ground-breaking essay *Disappearing Ink: Early Modern Women Philosophers and the History of Philosophy* in 1998, women philosophers were virtually absent from encyclopedias of philosophy and the numerous histories and anthologies of early modern thought. This essay would come to have an enormous impact, signaling the beginning of the movement to introduce early modern women philosophers into the canon. In its densely packed 46 pages, *Disappearing Ink* presented the names, major works, and principal theses of literally dozens of forgotten women whose works were published during the early modern period and who had engaged in correspondence with central male figures but whose names and works had since been erased. *Disappearing Ink* reprints this now canonical piece together with subsequent essays, some widely read, some harder to locate, and one on Cartesianism and the Gendered Mind, written in 2013 and published here for the first time. The essays in Part I develop O'Neill's views on feminist history of philosophy, articulating an account of feminist historiography that is inclusive yet at the same time textually nuanced. The essays in Part II provide in-depth treatment of individual figures and themes. These essays discuss the views of early modern women philosophers such as Mary Astell, Margaret Cavendish, and Mme de Lambert alongside those of Descartes, Leibniz, Poullain de la Barre, and the Scholastics, engaging with questions of mind/body interaction, occasional causation, physical influx, pan-organicism, and whether the Cartesian mind is gendered. The sole essay in Part III departs from the historical orientation of Parts I and II. This essay, informed by O'Neill's deep knowledge of art history, is an illuminating study of agency in representations of women in feminist erotic art of the 1980s. Combined, these works trace the complete arc of O'Neill's thought, from painstaking studies of individual themes and figures to a sweeping vision of how feminism should inform our approach to the history of early modern thought, indeed to the history of philosophy more generally. More than anyone else, O'Neill explained why women were excluded from the canon and showed how they could be incorporated into it.

The Gospel for Buddhists and the Dharma for Christians Donovan Roebert, 2009-01-02 In this book, Donovan Roebert provides a path for Christians and Buddhists who wish to better understand the essential living tenets of their own faith while exploring how these two great religious paths can provide insights of real benefit to adherents of either. Without lapsing into syncretism or demanding a departure from orthodoxy, this book provides a sound and thorough basis on which Christians and Buddhists and all those seeking greater insight into faiths other than their own can explore the rich possibilities for learning from one another. Beyond describing in detail the doctrines and practices of Christianity and Buddhism, this book describes the authentic human path of religious development with a strong focus on the problem of self or ego in spiritual growth, discussing obstacles to growth and exploring their remedies. Brief histories of both religions are provided, enabling the reader to understand how diversity is an inevitable consequence of historical development and rather than standing as a problem in religious dialogue, is always a means to spiritual enrichment. *The Gospel for Buddhists and the*

Dharma for Christians is the fruit of a personal spiritual journey of thirty years. It demonstrates that the search for religious freedom becomes richer and more rewarding when a spacious mind engages with rather than flees from religious paths outside of its own tradition. Finally, it is a plea for sincere friendship across factitious religious divides.
