Failing Teachers:

Failing Teachers? R.P. Chamberlin,G.S. Haynes,E.C. Wragg,Prof E C Wragg,2005-07-05 First published in 1999 Routledge is an imprint of Taylor Francis an informa company **Stopping the Brain Drain of Skilled Veteran Teachers** William L. Fibkins,2012 Veteran educators are being encouraged to take early retirement in order to create jobs for less experienced lower paid novices Veteran educators are not alone early retirement promotions have become the norm for aging workers in America Consequently there is a brain drain of skilled workers at the national state and local levels The early retirement of our most talented veteran educators is leaving our schools without the necessary leadership hard earned experience proven skills and wisdom to meet the evolving challenges our country faces Indeed there are long term consequences of losing skilled educators while they are in the prime of their professional lives Addressing these concerns this book challenges the good news only theory of early retirement promotions which suggest that veteran educators are no longer needed as they age and that their retirement is the only way schools can survive financially in times of economic uncertainty This theory contends that everyone involved gets a reward the novice educators get jobs and the veterans get some cash This trade is seemingly no problem until the veteran educators are out the door and the school staff students and parents are left without their steady guiding hands Instead of hastily luring prime educators out the schoolhouse door with planned buyout promotions schools should offer our most gifted veteran educators career alternatives that will encourage and reward them to remain on board thereby allowing them to lead novice and mid career staff students parents and community members Examining the negative consequences of early retirement promotions on school culture administrative leadership teacher and student performance community reaction Stopping the Brain Drain of Skilled Veteran Teachers will not only expose some of the major drawbacks of early buyouts of veteran educators but will also suggest creative career alternative to keep such teachers on board **Showdown** Larry Elder,2013-04-26 The Ten Things You Can t Say in America struck a chord with eager readers across the country exposing truths others have been too afraid to address In his new book Elder is out to slay entrenched and enmeshed special interest groups government agencies with the capacity to meddle in Americans lives and businesses lawmakers who continue a pattern of outrageous overtaxation and those who would hamstring this country with good intentions Showdown demonstrates how the nation would be better stronger and safer with less gvernment intervention and how individuals would not only cope but thrive without the so called safety net Showdown is a call to arms for a truly free society Elder discusses What a Republican led government means for progress Where a responsible government would put its citizens tax dollars Why racial and sex discrimination are non issues in the 21st century Larry Elders straight talk and common sense solutions spare no one and will inspire his passionate and growing audience **Distance Education for Teacher Training** Hilary Perraton,2002-03-11 Distance education combining the use of correspondence texts broadcasting and limited opportunities for face to face study has been used in at least a hundred

teacher training programmes over the last 25 years Distance Education for Teacher Training is the first comparative review of the use of distance education and open learning for the training and upgrading of teachers The book contains case studies using a broadly common format both to describe and analyse distance teacher training programmes in eleven countries across five continents The case studies describe the methods used to examine how far the craft of teaching can be studied at a distance Using a standardised microeconomic framework they provide unique data on the comparative costs of training teachers by distance and conventional methods The authors then draw general conclusions about the advantages and drawbacks of using distance education or open learning about the conditions for success and about comparative effects and costs Distance Education for Teacher Training will be of value to all concerned with teacher education whether in developing or industrialised countries and to those working in and planning for distance education and open learning

An Inspector Calls Cedric Cullingford,2013-04-15 The UK government's education policy is based on the setting of targets yet the fear and loathing that an Ofsted inspection can generate is widely known This text critically assesses the role impact and effect of the inspection body and dissects its usefulness

An Administrator's Guide to Better Teacher Mentoring William L. Fibkins,2011 This book address a major gap in the current mentoring programs at the secondary level Staff development resources are often concentrated on helping new teachers be successful in their early school experience Yes a good idea but a limited vision Meanwhile many veteran teachers go without the mentoring assistance they need to be effective classroom teachers While a few become mentors themselves many veteran teachers just settle slowly giving up and become at risk of failure burnout and thinking only of retirement This book is a call to school superintendents building administrators department chairs school board members union leaders parent leaders and teacher educators to address the need to provide ongoing mentoring for all teachers

Inspecting and Advising Mrs Joan Dean,2002-11-01 Joan Dean offers sound practical guidance to advisers and inspectors at all levels This includes the development of interpersonal skills interviewing organising advisory teams and managing one's own work

Managing People in Education Tony Bush,David Middlewood,1997-02-28 Aims to enhance management practice in education by presenting research findings and theory from a wide range of contributors Skills and Enterprise Update This is indeed a book which could be useful to a much larger readership than the normal closed circle of those working in education Managing Schools Today The book presents relevant research and theory in order to enhance management practice in education The editors intention is to articulate good practice on the basis of evidence in educational settings The ideas presented here are derived from international research and practice and apply to all phases of education with the emphasis on applying research findings to improve practice in schools and colleges

Exploring Narratives of Women Teacher Trade Union Activists Jean Laight,2020-08-03 Large numbers of teachers have left the profession because teaching has become so time consuming due to excessive workload With so many women teachers leaving the profession the author examines why some women teachers were not only staying

in the profession but also giving up their time and energy to engage in trade union activism as a form of resistance against the raft of policy changes which they believe to be the root cause for the exodus Exploring Narratives of Women Teacher Trade Union Activists attempts to discover why they are so motivated Narrative analysis is employed as the methodology in conjunction with a life history interview approach This volume cites the work of Zembylas and Foucault focusing on emotion and affect in education political and social justice teacher identity teachers self formation the emotional labour of teaching resistance and power which is rooted in the social theory of post structuralism The author explores the strained relationship between teachers and government and how teacher professionalism is being perceived as an act of resistance in itself

Defending Public Education from Corporate Takeover Todd Alan Price, John Duffy, Tania Giordani, 2012-12-19 At this moment schools are doing everything they can to win the Race to the Top They are allocating their funding to test preparation riffing beloved teachers and transferring students who drag down their grade average on the state report card This book describes the current state of the education system in the United States Readers will be on the front lines of the protests in Madison in the inner city public turned charter schools and in the shoes of the teachers dealing with educational politics every day By the end of this text you may beg the question who s winning in the Race to the Top

Restructuring Public Schooling: Europe, Canada, America Rodney J. Reed, Fons van Wieringen, Stephen Lawton, Stephen B. Lawton, Rodney J. Reed, This volume offers an overview of educational restructuring its aims and possibilities in the European and North American context A conceptual analysis of educational policy systems and development in both continents is provided and empirical cases are presented within this framework Overviews are given of the national stage in Canada from several countries

The Power of Reinforcement Stephen Ray Flora, 2004-01-16 Makes the controversial argument that reinforcement is a real and valuable force in human behavior

Emotional and Behavioral Problems Paul Zions, Laura Zions, Richard L. Simpson, 2002-03-19 The authors take a complex under discussed topic and give teachers and administrators useful basic guidelines they can put to use quickly in understanding identifying and helping this special group of students

Why America's Public Schools Are the Best Place for Kids Dave F. Brown, 2011-12-15 The successes of America s public schools are unrivaled throughout the globe providing an opportunity for every American to graduate from high school Graduation rates have soared test scores are better than at anytime and immigrants and African Americans are reaching new successes The percentage of graduating high school students including minorities attending college is at an all time high Despite all these successes the media politicians and big business attack public schools and their teachers with inaccuracies that threaten the equal opportunities provided by public education Big business moguls seem determined to dismantle public schools in the name of a market driven system of educating children via vouchers and charter schools No Child Left Behind contributes to this business model and penalizes children and teachers with unrealistic expectations and expensive unnecessary testing Research indicates that NCLB charter schools and vouchers do not improve students learning

or help educators teach better The facts presented herein are evidence of public school successes and provide reasons to honor public school educators and support public schools across America

Effective School Interventions, Second Edition Natalie Rathvon, 2008-08-14 This highly practical resource and text presents 70 interventions that have been demonstrated to improve the classroom learning environment academic achievement and student behavior and social competence Each intervention is presented in a brief standardized format with step by step procedures that can easily be implemented by Pre K 12 teachers and other school based professionals The volume includes best practice guidelines for designing implementing and evaluating evidence based school interventions as well as strategies for combining multiple interventions to create a comprehensive program at the individual class or schoolwide level

Enhancing Teacher Education, Development, and Evaluation Alyson L. Lavigne, Thomas L. Good, 2019-03-26 Enhancing Teacher Education Development and Evaluation examines the complex role that recent educational reforms have played in the teaching profession The failure of programs like Race to the Top to benefit teaching and learning outcomes has yielded many questions about what went wrong and how a research based plan for true systemic progress could actually work Covering inaccurate narratives about schools and student achievement evidence for teacher effectiveness and the history and repercussions of Race to the Top this book culminates with a proposal for future research and policy initiatives that more accurately and more equitably prioritize the measurement and improvement of teaching and learning Five concise yet comprehensive chapters invite teacher and principal educators teachers and school leaders in training district administrators policymakers and other stakeholders to better understand the implications of and possible paths beyond misguided reform efforts An overview of the recent past and an inspiration for the immediate future this definitive analysis offers insights into how more reasonable empirically derived strategies will ultimately foster more successful schools
