## **Fairy Tales For The Psyche:**

**Fairy Tales for the Psyche** Verena Kast, 1996 In the case of Ali Baba and the Forty Thieves one of two tales retold and interpreted in this volume by noted Jungian psychotherapist Verena Kast the open sesame formula occurs in situations of actual or emotional impoverishment when we find ourselves in some way restricted The opening reveals hidden treasures the experience of opening up allows the great treasure within to be revealed The Myth of Sisyphus the second story in this volume also has a deeper meaning The eternal repetition faced by Sisyphus as well as by all of us in our daily lives at times when change would be most welcome is not unlike the situation of the patient in therapy Won't I ever get a grip on my problems What is most important is to see the repetition for what it is and to reflect on the subtle changes that occur through this difficult process In the best sense **Fairy Tales for the Psyche** entertains and instructs giving deeper meaning to well known stories and at the same time to our lives BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Anti-Tales David Calvin, Catriona McAra, 2011-05-25 The anti fairy tale has long existed in the shadow of the traditional fairy tale as its flipside or evil twin According to Andr Jolles in *Einfache Formen* 1930 such Antim rchen are contemporaneous with some of the earliest known oral variants of familiar tales While fairy tales are generally characterised by a spirit of optimism Tolkien the anti tale offers us no such assurances for every happily ever after there is a dissenting they all died horribly The anti tale is however rarely an outright opposition to the traditional form itself Inasmuch as the anti hero is not a villain but may possess attributes of the hero the anti tale appropriates aspects of the fairy tale form and its equivalent genres and re imagines subverts inverts deconstructs or satirises elements of these to present an alternate narrative interpretation outcome or morality In this collection Little Red Riding Hood retaliates against the wolf Cinderella s stepmother provides her own account of events and Snow White evolves into a postmodern vampire tale The familiar becomes unfamiliar revealing the underlying structures dynamics fractures and contradictions within the borrowed tales Over the last half century this dissident tradition has become increasingly popular inspiring numerous writers artists musicians and filmmakers Although anti tales abound in contemporary art and popular culture the term has been used sporadically in scholarship without being developed or defined While it is clear that the aesthetics of postmodernism have provided fertile creative grounds for this

tradition the anti tale is not just a postmodern phenomenon rather the postmodern fairy tale is only part of the picture  
Broadly interdisciplinary in scope this collection of twenty two essays and artwork explores various manifestations of the anti  
tale from the ancient to the modern including romanticism realism and surrealism along the way
