Faith Ethics And Church

Timothy F. Sedgwick

Faith Ethics And Church:

Faith, Ethics, and Church David Aers, 2000 Examination of key texts Chaucer to Wyclif sheds new light on medieval spirituality The relationship between versions of the late medieval Church faith ethics and the lay powers as explored in a range of late fourteenth and early fifteenth century texts written in England is the subject of this book It argues that they disclose strikingly diverse models of Christian discipleship and examines the sources and consequences of such differences Issues investigated include whether the Church could shape modern communities and individual identities and how it could combine its status as a major landlord and trader without being assimilated by the various networks of earthly power and profit The book begins with Chaucer's treatment of received versions of faith ethics and the Church and moves via St Thomas Ockham Nicholas Love Gower the Gawain poet and Langland who pursues the issues with particular intensity and focus to Wyclif's construal of Christian discipleship in relation to his projected reform of the Church Interdisciplinary in approach the book will be of interest to all those studying late medieval Christianity and literature DAVID AERS is James B Duke Professor of English and Professor of Historical Theology at Duke University Faith Ethics Harold D. Schlachtenhaufen, 2008 Are you one of those people who have wanted to get to know God better but never found anything in a church to help you do so Do religious words sound like gibberish to you If so this book is for you Thinking About God is written to explain in non theological language what some of God is all about It is a series of short meditations on some of the major words that we find in talk about faith meditations in which the author re images these words into more conventional language language to which most of us can relate Thinking About God believes that at the heart of the human experience is imagination and at the heart of imagination is our picture of God It aims to encourage you to look again at who God can be in your life to inspire you to reconsider any misconceptions you may have about spirituality or the fact of Jesus in the human experience to open yourself to new avenues of understanding in your perceptions of the larger forces that govern our lives Thinking About God believes that we all are on journeys really ever seeking to enlarge our comprehension of who we are and where we are going Its author shares his meditations as a fellow traveler a traveler mind you who feels as if he has found something permanently spiritually transforming but a traveler who is very much aware that others continue by choice to search for their spiritual destiny Indeed it is to all of these travelers that the author dedicates this book *Christian Ethics* Russell A. Morris, 2015-08-14 Within the Christian community at large there is often little correlation between scriptural guidelines for Christian living and the lifestyle practices and behavior of believers Christian social scientist George Barna has done extensive research in this area that reveals alarming data For example nearly nine of ten adults state that religious faith is very important in their lives However only one in five adults claims that the Bible is the dominant influence in their decisions regarding lifestyle practices Further research suggests that there is often little difference between the lifestyle practices of Christians and non Christians This nominal difference in lifestyle practices and behavior between Christians and non

Christians as well as the minimal correlation between Scripture and practice among many Christians produced an interest in this area of practical theology. Serving as a Christian pastor over the past two decades, the reality of Barnas research has been observed personally. The biblical parallel of the prevailing apathy within today's churches is seen in Judges 21:25 NASB. In those days there was no king in Israel; everyone did what was right in his own eyes. That is, in those days there was no accepted standard of truth. Likewise, only one in four American adults believes in the existence of absolute truth. As a result, the relationship between doctrine and practice, belief and behavior, is often minimal, with many Christians doing only what is right in their own eyes rather than allowing God's Word to influence their mode of living. A distinct relationship between belief and behavior is seen in I Timothy 4:16. In this passage, Paul clearly identifies a correlation between what one believes, doctrine, and the lifestyle behavior one lives when he writes, "Watch your life and doctrine closely; persevere in them because if you do, you will save both yourself and your hearers." From this verse, it is clear that there are two areas in the life of the Christian that need to be scrutinized and pursued, namely belief and behavior. The fundamental thesis of this book is that a deeper understanding of Christian ethics will inform and facilitate the Christian life.

Christian Ethics and the Church

Philip Turner, 2015-09-29. This book introduces Christian ethics from a theological perspective. Philip Turner, widely recognized as a leading expert in the field, explores the intersection of moral theology and ecclesiology, arguing that the focus of Christian ethics should not be personal holiness or social reform but the common life of the church. A theology of moral thought and practice must take its cues from the notion that human beings, upon salvation, are redeemed and called into a life oriented around the community of the church. This book distills a senior scholar's life work and will be valued by students of Christian ethics, theology, and ecclesiology.

Introduction to Christian Ethics

Ellen Ott Marshall, 2018-10-30. All Christians read the Bible differently, pray differently, value their traditions differently, and give different weight to individual and corporate judgment. These differences are the basis of conflict. The question Christian ethics must answer then is: What does the good life look like in the context of conflict? In this new introductory text, Ellen Ott Marshall uses the inevitable reality of difference to center and organize her exploration of the system of Christian morality. What can we learn from Jesus' creative use of conflict in situations that were especially attuned to questions of power? What does the image of God look like when we are trying to recognize the divine image within those with whom we are in conflict? How can we better explore and understand the complicated work of reconciliation and justice? This innovative approach to Christian ethics will benefit a new generation of students who wish to engage the perennial questions of what constitutes a faithful Christian life and a just society.

Ethics in a Christian Context Paul Louis Lehmann, 1976. In this contemporary classic, originally published in 1963, Paul Lehmann answers the central question posed time and again to Christians throughout the ages: What am I as a believer in Jesus Christ and a member of his church to do? Lehmann argues that while principles for moral action can be rules of thumb, there are no absolute moral norms beyond the general norm of love. Lehmann contends that Christians are to act in

every situation in ways that are consistent with God's humanizing purposes but what that means changes from context to context and requires strong faith shaped discernment The Library of Theological Ethics series focuses on what it means to think theologically and ethically It presents a selection of important and otherwise unavailable texts in easily accessible form Volumes in this series will enable sustained dialogue with predecessors though reflection on classic works in the field

Churchgoing and Christian Ethics Robin Gill,1999-08-19 Robin Gill argues that once moral communities such as churchgoers take centre stage in ethics as they do in virtue ethics then there should be a greater interest in sociological evidence about these communities This book first published in 1999 examines evidence gathered from social attitude surveys about church communities in particular their views on faith moral order and love It shows that churchgoers are distinctive in their attitudes and behaviour Some of their attitudes change over time and there are a number of obvious moral disagreements between different groups of churchgoers Nonetheless there are broad patterns of Christian beliefs teleology and altruism which distinguish churchgoers as a whole from non churchgoers However the values virtues moral attitudes and behaviour of churchgoers are shared by many other people as well The distinctiveness of church communities in the modern world is thus real but relative and is crucial for the task of Christian ethics

Faith and Ethics Paul Ramsey,1957 Michalson The kingdom of God in America and the task of the church by R S Michaelson A bibliography of H Richard Niebuhr's writings compiled by P Morris p 291 301

Church in China: Faith, Ethics, Structure Aiming Wang,2009 The Protestant Church in China is growing very fast However the role of the Church in society is still fragile and marginal The Church needs a strong ethical and structural development This study analyses the theological ethical and ecclesiological heritage of the Reformation and it shows how this can build the foundation for the future of the Church in China Four models serve as orientation the Reformers Luther and Calvin and the theologians Bonhoeffer and Barth in the 20th century with their vision of Christian faith and a humane society The critical analysis of the missionary heritage since the 19th century shows its contribution for the acceptance of the tradition of the Reformation for the growing Church in China The author combines this theological and ethical perspective with the inculturation in the strong ethical tradition of the Chinese culture He proposes the encounter between the spirituality of the Western culture and that of the traditional culture of China through the relationship with Confucianism The book also offers elements for the dialogue around modern values such as human rights and civil society In this dialogue Chinese Protestantism can play more and more an important role

Generous Saints James Hudnut-Beumler,1999-12-31 A constructive theology and ethics of money in the Christian life this series addition is by James Hudnut Beumler dean and associate professor of religion and culture at Columbia Theological Seminary and deals with vital questions What does the Lord require what is the true meaning of the term commonwealth and how does the church build a stable base for its members to live ethical lives A positive approach to forming the basis for new thought and discussion

Christian Morality Pope Benedict XVI, Heinz Schürmann, Hans Urs von Balthasar, 1986-01-01 A collection of essays by three giants of twentieth century theology Joseph Ratzinger now Pope Benedict XVI Hans Urs von Balthasar and Heinz Schürmann Balthasar's and Schürmann's essays were written for the International Theological Commission Schürmann examines how the New Testament's teaching provides enduring moral norms for Christian conduct Balthasar presents nine basic principles of the Christian moral life Ratzinger who originally wrote this essay as a series of articles for *L'Osservatore Romano* addresses the relationship between faith and morality and the place of the Church's teaching authority with regard to moral issues

The Christian Moral Life Timothy F. Sedgwick, 2008-11-01 A book to enjoy and savour As a gentle and reverent depiction of whole practice of Anglican moral theology and practice it is splendid The Anglican Theological Review Written in a style accessible to non specialists this book provides teachers pastors counselors and general readers with an ideal introduction to Christian ethics It renews the topic of Christian ethics by showing readers that faithful moral living is achieved through the daily practices of grace and godliness The author first explores the foundations of Christian ethics as seen by both Catholics and Protestants and then develops a constructive view of morality as a way of life Taking into account the central themes of Christian ethics he shows that effective piety is built on spiritual disciplines that deepen our experience of God prayer worship self examination simplicity and acts of hospitality

Christian Ethics in Secular Cultures Thomas K. Johnson, 2018-05-10 A central question in Christian ethics is the relationship between the moral principles we should follow within the Christian community and the ethics followed in the secular societies in which we live Our dilemma is that we have received a revelation of God's moral will in the Bible and in creation which must shape the identity of believers over against unbelieving cultures while our neighbors follow the ethics of other world views which concern us deeply Remember the Holocaust where the ethics of a secular ideology wreaked destruction in an entire society How should we as Christians whom God has called to a distinct identity participate in the moral considerations that will shape our cultures and communicate some of our convictions in a way that brings moral light into our worlds Johnson offers the insight gained by 20 years of teaching ethics in secular universities in Europe and North America First he addresses questions of sex marriage and family then questions of work and economics and finally theological and philosophical foundations

System of Christian Ethics Gottlieb Christoph Adolf von Harless, 1868

The Impact Of Reason On Faith, Ethics And Belief Geran F. Dodson, 2020-10-06 The purpose of the book is to examine the theological claims of ethics faith and belief from a philosophical perspective The Abrahamic and Mosaic covenants of the Old Testament Jesus of the synoptic gospels and Paul's writings serve as the frame of reference in examining a biblical expression of reason and structured logic The message of Jesus centered on the Kingdom of God defined the meaning of faith and belief established a new ethic and framed the message in logic forms The life and death of Jesus brought the realization of God's final covenant as prophesied by the Old Testament However Paul appropriated and developed the Jesus of history into the mythological eschatological Christ figure

The clash of philosophy and theology is evident with theological presuppositions that are based on spiritual insight and divine revelation. Logic in scripture employs propositions based primarily on revealed proof that is within the context of that which cannot be proven absolutely. Uncovering the identity of YHWH in the manuscripts and religious practices of Canaanite culture clearly associated YHWH with the polytheism of the Ugarit texts. YHWH was one of the seventy sons of the Canaanite Most High God El and took on a unique identity that was rooted in El and the polytheistic nature of the pantheon of gods. Theological truths stand within the context of faith and reason stands apart from faith and infers only that which can be proven based on evidence. That which is knowable by faith cannot be known by reason since reason cannot validate that which is not proven to exist.

God, Ethics and the Secular Society John D. Gunson, 2016-03-02 Many lay people in the Christian churches have not been kept up to date with the latest scholarship about their faith. Many have left the churches because a faith expressed in ancient mythological language and images no longer seems credible in our postmodern secular scientific world. God, Ethics and the Secular Society not only re-examines Christian faith in terms of the best contemporary scholarship and its relationship to modern scientific knowledge but shows how one can re-interpret the faith without losing its essential and original meaning. It suggests that the critical question is not what we believe but how we should live and it sets out a new form for the life of the church if it is to survive into the future. Consequently Gunson hopes that many people of good will who have no interest in religion may also want to join this ethical community to help nurture and prosecute the ethical life in a desperately needy world.

Romans Bo Giertz, Mark C. Mattes, 2019-04-09 The collected essays engage the reality of believers' death and resurrection in Christ and how that bears upon the life of faith while also attending to a wide range of relevant theological topics.

Christian Ethics William M. Tillman, Timothy D. Gilbert, 1986 An introduction to the basic concepts and areas of concern of Christian ethics. The use of case studies, life situations, discussions, questions, suggestions for further reading, and personal small group activities enables the reader to experience ethics first hand.

Christian Ethics Robin W. Lovin, 2010-03-01 In this excellent outline of Christian ethics Robin W. Lovin achieves a balance between the questions and issues which form the core of the study of ethics and the life situations from which those questions arise. Eschewing a sectarian approach which dismisses other understandings of the moral life, Lovin nonetheless lays claim to a specifically Christian understanding of ethics. He begins with basic Christian convictions about the reality of God and human redemption and weaves these convictions into the fabric of moral concerns that are widely shared in contemporary society. He takes note of the problems that arise when Christians try to act on or enforce their convictions in a pluralistic society and recognizes the variety of theological and moral beliefs that are held within the Christian community as well as in the wider society.
